Mussulmans Require to be Fired Upon by the Troops.

Calcutta, July 1.—Serious riots among the Mussulmans occurred here yesterday evening. Besides the main mob scattered gangs of rioters paraded the streets, hooting and stoning the Europeans, several of whom were injured. Finally the authorities were compelled to call out the troops. It is regarded as significant that the Hindoos passively sympathize with the rioters. The situation this morning is still grave. An additional force of cavalry was required to disperse the rioters, but the mobs quickly gathered again. At 2 a. m., the situation in the suburbs of Chitpore was much more reassuring, but the police patrols were compelled to fire on the rioters. It is estimated that at one time more than 5,000 were holding the northeast portion of the town. The fumber (of killed and injured is not yet known, but it is believed to be considerable.

A man may stand under the running slip-noose of death and not realize it. Diseases, fatal 10 both body and brain, like nervous prostration and exhaustion, creep upon a man slow-iy. A man overworks. Then he neglects his meals, and pays no attention to his digestion. His liver gets sluggish. His appetite falls off. The blood is improperly nourished and becomes impure. The brain and nerve tissues do not receive proper nutriment and are befogged with the poisons in the blood. The man cannot sleep or eat. Then comes nervous prostration and exhaustion. Dr. Pierce's Colden Medical Discovery makes the appetite hearty, the digestion perfect, the liver active, the blood pure, the brain clear and the nerves steady. It makes pure blood and healthy flesh, muscle, brain and nerve tissue. It cures nervous diseases. No honest dealer will urge an inferior substitute for the little extra profit there is in it.
