A FINE COMPLEXION

Maybe Had Through the Rich, Red Blood Dr. Williams' Pink Pills Actually Make

A girl's complexion is something more than a matter to concern her vanity. It is an indication of the state of her health. Proliferating in a growing girl means a thinning of the blood. Parents should be watchful of their daughters' complexions and should see to it that these danger signs are corrected. When a girl in her teens becomes pale and sallow, if she shows an inclination to tire easily, is listless and inattentive to her work or studies, she needs Dr. Williams' Pink Pills, a tonic which directly and specifically corrects the condition from which she is suffering. A chemical analysis of the blood of such a girl would show it to be deficient in just the elements that Dr. Williams' Pink Pills can supply, and which restore brightness to the eyes and color to the cheeks. Miss Dolina Arsenault, Urbainville, P. E. I., is one of the thousands of anemic girls restored to health by the use of Dr. Williams' Pink Pills. She says: "I was attacked with an anemia, and was in such a miserable condition that I had to consult a doctor, and was under his care for several months, but without getting better. I was growing thinner every day, had dark circles around the eyes. I could hardly sleep at night, but tossed restlessly and got up in the morning with black anticipation of the day's miseries before me. I was always bothered with headaches and pains in the back and limbs. My appetite was poor and I frequently vomited what I did eat. My friends feared that I would not recover. I had often seen Dr. Williams' Pink Pills advertised, and finally decided to try them. I used altogether nine boxes and they made me as well as ever I was in my life. All the pains and aches disappeared; my appetite returned. I could sleep soundly at night, and the color returned to my cheeks. I also gained seventeen pounds in weight. I am now always well, and for this happy condition I have to thank Dr. Williams' Pink Pills."

CANADIANS FOREIGN BUYERS

Canadians buy more goods outside their own country than the citizens of any other important nation in the world. Here is the average amount which each citizen of the following countries bought abroad in 1911, the latest year for which comparative statistics are available.

Canada	\$70.24
Great Britain	61.55
Argentina	47.39
France	39.30
Germany	35.17
United States	16.63
Austria	12.61
Russia	3.40

It seems incredible that every Canadian annually spends \$70.24 for foreign goods while Russians only spend \$3.40 each abroad. Canadians must cut down their foreign purchases and buy more goods produced in their own country: face national bankruptcy.—Industrial Canada.

WHY BUY AT HOME?

The following reasons for purchasing at home were features in a campaign recently put on by Peterborough retailers and manufacturers to encourage Peterborough citizens to buy in their own town. What Peterborough has done can be followed to good advantage by practically every town and city in Canada.

Because our interests are here.
Because the community that is good enough for us to live in is good enough for us to buy in.
Because we believe in transacting business with our friends.
Because we want to see the goods we are buying.
Because we want to get what we buy when we pay for it.
Because some part of every dollar we spend at home stays at home, and helps work for the welfare of our home town.
Because the home man we buy from stands back of the goods, thus always giving value received.
Because the man we buy from pays his share of the taxes.
Because the man we buy from helps to support our poor and needy, our schools, our churches, and our homes.
Because when luck, misfortune or bereavement comes, the man we buy from is here with his kindly expressions of greeting, his words of cheer, and, if need be, his pocketbook.
Let us make Peterborough a good place in which to work and live.
