

THE KEY TO THE PEACE IS A GUARANTEE OF THE PEACE, NOT THE LOSS OF IT

London, Dec. 23.—President Wilson made his last speech before the London conference. There is a great deal of London presented him with an address of welcome in the splendid Guildhall, while other distinguished persons, including the British Prime Minister, Mr. Lloyd George, and the French Premier, Mr. Clemenceau, were also present.

The days of official banquets were not limited to the London conference. The President's Secretary and other members of the American delegation were tonight being entertained at a dinner at the Grosvenor Hotel. After the dinner he appeared in the hall, where he was met by the British Prime Minister, Mr. Lloyd George, and the French Premier, Mr. Clemenceau. He then went to the Peace Conference, where he made his last speech before the conference.

Text of President Wilson's Speech
The text of President Wilson's speech at the Guildhall this afternoon is as follows:
My Lord Mayor—We have upon this occasion a very important and a very significant moment. We have here the representatives of the three great nations of the world, and it is our duty to speak for the peace of the world.

President Wilson Guest of the Lord Mayor of London
London, Dec. 23.—A gathering at the Mansion House today began and broke up without ceremony. The President of the United States, Mr. Woodrow Wilson, was the guest of the Lord Mayor of London, Mr. George Lansbury. The President arrived at the Mansion House at 10:30 a.m. and was met by the Lord Mayor and other members of the City of London.

TO DECLARE A REPUBLIC IN POLAND
London, Dec. 23.—According to dispatches from Danzig and Poznan coming by way of Berlin, it is supposed to proclaim a republic in Poland with Jan Paderewski as President. Paderewski's entry into Poznan was a triumphal procession. The houses were brightly decorated, the members of Polish associations lined the streets and the band played Polish music while crowds sang with enthusiasm in the procession.

FORMER GERMAN COLONY TO OCEANO-SLOVAKS
London, Dec. 23.—According to reports from the British Foreign Office, the former German colony of Togoland in West Africa and a portion of Kamerun will be placed under the administration of the newly formed Oceanic Slav Republic. It is expected that a note will be sent to the League of Nations outlining the proposed boundaries and the terms of the agreement.

THE KEY TO THE PEACE IS A GUARANTEE OF THE PEACE, NOT THE LOSS OF IT
The key to the peace is a guarantee of the peace, not the loss of it. This is the message that President Wilson has sent to the world. He has shown that the peace must be based on justice and not on the victor's will. He has shown that the peace must be based on the principles of self-determination and not on the interests of the great powers. He has shown that the peace must be based on the interests of the people and not on the interests of the governments.

THE GREAT BRITISH POLITICAL FACTORY

London, Dec. 23.—The result of the general election of 1918 is being analyzed by political observers. The Conservatives, led by Mr. Lloyd George, won a narrow victory over the Coalition Liberals, led by Mr. Balfour Braddock. The election was a landmark in British history, as it was the first time that the British people voted for a coalition government.

Montreal, Dec. 23.—A fully attended committee meeting of municipal executives held on Saturday in the law offices of Messrs. Campbell, Macdonald and Piquette, held in view of the formation of a union of Quebec municipalities to be formed to promote the interests of the city and the municipalities of the area.

NORE COMPLAINTS AS TO THE BITE OF PORTLAND
London, Dec. 23.—Aurore soldiers who visited the city today, after a week of the winter, reported no complaints as to the bite of portland cement. The soldiers reported that the weather was very cold, but that they had no complaints as to the bite of portland cement.

THE BITE OF PORTLAND
The bite of portland cement is a serious problem for the construction industry. It is caused by the expansion of the cement when it is exposed to moisture. This expansion can cause the cement to crack and spall, which can be a dangerous situation for buildings and structures. The problem is particularly acute in cold climates, where the cement is exposed to freezing temperatures.

RAN GAUNTLET IN DARDANELLES

RAN GAUNTLET IN DARDANELLES
A torpedo was fired at a ship which it traversed, carried the ship's mainmast and a large amount of ammunition, which extinguished the submarine's lights and spread the foremast. The submarine's mainmast was also hit and the submarine was forced to surface. The ship then fired a sharp lookout for enemy craft.

STRIKING LETTER TO KAISER FROM PRINCE OF MONACO

STRIKING LETTER TO KAISER FROM PRINCE OF MONACO
Paris, Dec. 23.—Prince Albert of Monaco has given to the Association Press a remarkable letter he addressed to former Emperor Wilhelm II. The letter is a striking revelation made by Prince Albert, who was the German ambassador at London at the outbreak of the war, and Dr. Mueseler, former Secretary of the League of Nations.
