Big Trout in the Spray

TWO and three-quarter dozen fighting fish, speckled and gleaming from the ice-cold waters of the Spray River, near Bank, and none under eight ounces in weight. They were heavy on the line when they first took the hook and surged and charged and sulked and finally came in to be landed, and they grew marvellously heavier by the time they had all been caught and then carried four miles back to the buggy which we had left by the falls where the first fish on the string had lain beneath the great rocks that scoured the green eddies of the roaring river and would only come forth when drawn by stout silk and trusty gut.

And the whole trip was not a long one, as fishing goes. We tied our horse at the new bridge below the falls and left him placidly munching oats while we crossed the river and took to the precariously narrow pack-trail that twisted and climbed and dropped and went higher across and around the great lower ramparts of Mount Rundle. We dallied at a promising eddy and drew forth three fish. We climbed three hundred feet in a half-mile walk and passed at the entrance of a steep, smooth gully of granite which led to a tremendous pool of crystal water past which the foam-flecked current dashed. In its thousand feet of length the gully would take from us the altitudinous advantage of our climb, but we slid down to the tempting water, trusting to good luck and strong spikes to get us back to the trail.

A Black Ant and a Common Coachman hit the water simultaneously. A Nipigon trout, the product of transplanted roe, slid up from the bottom of eleven feet of water like a streak of silvery steel and struck the Ant with a vigorous anxiety that brought joy to the angler and angry resistance from the fish. A hungry cut-throat sliced a path from his sheltering boulder and "stunned" the Coachman in the bone of his upper jaw, thus blessing another fisherman who checked his whirling reel and watched the bending roe with gleeful care.

If you know how the fish lie in the waters of the mountain paradise of Banff Park you need lose little time in vain casting. The game waits at the upper or lower ends of big pools, sheltered behind rocks; or it conceals itself behind some protective stone that lets into swift water from

WINNIPEG WOMAN HAD LOST HEART

Treatments and Medicines Seemed to do Mrs. Grasser No Good—Health Restored

"I have taken seven bottles of Tanlac and am now feeling just like a new woman," said Mrs. C. Grasser, 394 Kennedy St. Winnipeg, Man.

"Three years ago my stomach got out of order and troubled me ever since. I was informed that I had a chronic case of indigestion, and was treated for that, but kept getting worse. I reached the point where I had no appetite and simply dreaded to eat on account of the misery I suffered afterwards. There was a lump-like feeling in the pit of my stomach and often I became so nauseated I could scarcely retain anything. My left side hurt me so I couldn't lie on it and it was a struggle for me to breathe. I simply felt like I was going to smother. I also suffered with sick headache just about all the time and was so nervous and restless I hardly slept a wink.

"I had just about reached the point where I thought I was never going to get any better when I read about Tanlac and decided to give it a trial. I did not see much improvement until I had finished my third bottle, but after that I got well rapidly. I am now enjoying the best of health and am glad to add my voice to all the others who are praising Tanlac."

Tanlac is sold by leading druggists everywhere.

LUMBERMEN ARE QUITE OPTIMISTIC

Hon. J. P. Burchill, who attended the meetings of the Canadian Lumbermen's Association at Toronto, says this session was one of the most interesting and representative held in recent years. There were 450 delegates registered and many interesting reports presented. While nothing definite can be announced for the immediate future, the general tone was quite optimistic. It is the opinion of the association that if satisfactory wage and labor conditions could be adjusted a great increase in building operations would take place in the early spring. Angus McLean, of Bathurst, was elected director of N. B. C. L. A.

NEWCASTLE TRIMS MONCTON Y.M.C.A.

The Newcastle Senior Hockey Team crossed sticks in the local rink last Saturday night with the Moncton Y. M. C. A. Team. The game was a fast one from start to finish, the Newcastle boys showing their superiority from the beginning and were on the aggressive throughout the whole game. The visitors displayed good sportsmanship with the game going against them and put up a good fight until the finish. Few penalties were given and the game was void of any rough work. The local boys won by a score of 7-3 and was by far the best exhibition of hockey seen here this winter. A large enthusiastic crowd witnessed the game, after which they enjoyed seven bands of skating. The local boys financed the game themselves and received the hearty support of the lovers of hockey and skating.

LIABILITIES OF \$12,000.

A meeting of the creditors of Joseph S. Noel, of Lameque (N. B.) took place in the offices of the trustee, the Canada Permanent Trust Company, yesterday afternoon. After that I got well rapidly. I am now enjoying the best of health and am glad to add my voice to all the others who are praising Tanlac."
