

To Our Subscribers

As we have stated from time to time, for the last two or three months, we are offering very beautiful Premium Pictures to all who remit their subscriptions. A number have kindly paid and received their premiums; but the great majority have not yet remitted. We earnestly desire that these will not delay any longer. We procured a great number of these beautiful pictures at a very considerable expenditure of money, in order to present them to our friends as a pleasing memento of their relations with us. We have them here in abundance, one for every subscriber, as soon as he sends in his dollar. Will you not remit now and receive one of these beautiful pictures?

This is the time of year when the greater number of the subscriptions are paid, and we should have a rush of remittances from this time forward. We have worked assiduously for our subscribers for a whole year, without making any very urgent requests for money. All this time, expenses have been going on; wages, rent, supplies and a hundred and one things have called for constant outlay, and now a winter's supply of fuel has to be laid in and other extra expenditures have to be incurred. To meet all this we only ask a dollar from each one, and are prepared to make a nice present to every one who sends his dollar. You surely cannot consider these conditions very exacting.

Send your dollar by mail; don't wait to come to Town or for anyone to come to you to collect it. The expense of sending a collector would not leave much of the collections, and it would be very unfair to expect to have the business done that way. Use the mails to remit; that is what the Postal Service is for. Rural Mail routes and all other improvements in the service are established for the greater accommodation of the people; to enable them to do business without inconvenience or loss of time. We shall be very much pleased if you will, without delay, take advantage of the mails to send in your subscriptions. Your premium pictures await you, and we are anxious to hear from you.

The Federal Capital.

Ottawa, Nov. 22.—The early introduction of the naval bill can only be delayed by lengthening out the debate on the address. Unless this is done by the opposition the naval proposals will be before parliament within a few days, being probably, the first government legislation to be brought down. The bill revising the bank act and extending the charters of the banks was taken second place. The intention is to have the naval proposals before the house with as little delay as possible. That the opposition will seek delay seems probable. There are indications that the Liberals in the house are still seeking ground upon which to stand in regard to the naval contribution issue. A gathering of former ministers has been held and the subject discussed but it does not appear that any conclusion has been reached. The difficulty seems to be to discover some ground upon which all the members of the opposition can stand at once. The general principle of the government's policy is well enough understood to justify the expectation that Sir Wilfrid Laurier will indicate the attitude of the opposition immediately upon the announcement being made by the prime minister. To satisfy this expectation seems to be the difficulty.

UNEXPECTED SENATORIAL DEVELOPMENT.

The Senate, which had been expected to attack the government this session with peculiar asperity, has taken an unexpected line. Owing to the death of Sir Richard Cartwright the Liberal senators had to select a leader and this afternoon they met in caucus to do so. It had been understood in advance that senator Bostock, from British Columbia, was to be chosen. When, however, the senators met in caucus, a movement on behalf of senator Sir George Ross, formerly premier of Ontario, developed. A secret ballot was taken and it showed 25 for Sir George Ross and 20 for Senator Bostock. Senator Bostock then moved to make the selection unanimous and this was done. The significant thing about the episode is that both Senators belong to the wing of the liberal party least in sympathy with the influences which have ruled the party. Senator Bostock has strong imperialistic leanings, while Sir George Ross is a protectionist, an imperialist, a supporter of a strong naval policy, and an open and avowed opponent of reciprocity.

A NEW MEDICAL ASSOCIATION.

Parliament is to be asked to incorporate the Canadian Medical Protective Association, having for its objects, among other things, "the support and protection of the honor, character and interests of its members, the encouragement of honorable practice, the giving of active assistance to members of the association in cases where proceedings are unjustly brought or

threatened against them, the promotion of legislative measures likely to benefit the medical profession, and the doing of such other things as are incidental or conducive to the above objects, including the holding of real and personal estate."

TO HELP FARMERS.

The first proposed amendment to the Bank act, of which notice has been given, is filed by J. A. M. Aikens, M. P., of Brandon. He desires to make conditions more easy for farmers to obtain money to handle their crops, and with that end in view will propose that the banks be allowed to loan money on grain stored on the farm. Heretofore the privilege was extended only when the grain was in the elevator.

Ottawa, Nov. 24.—The Cabinet held an all day session on Saturday, when preparations for the coming week were completed. The legislative programme of the government is well advanced and the most important measures will be brought down before Christmas. Notice has already been given by the Hon. Frank Cochrane of the reintroduction of the Highways Act which was killed in the Senate last session. The Naval Bill is quite ready and will be brought down by the Premier as soon as the speech from the throne is finished. It is understood that the opposition intends to take all next week with the debate on the speech from the throne, and the Naval Bill in consequence may not be laid before the House till a week from Tuesday.

The Bank Act will be also introduced at the earliest opportunity. It is understood that the bill to increase the senate representation in the West is also ready and will be brought down at a very early date. This bill is expected to provide for two new Senators from each of the prairie provinces. The new representatives to the upper chamber provided that the bill passes, will likely be appointed in time to take their seats after the Christmas recess.

The Hon. Martin Burrell's bill to encourage agriculture is also being prepared and will be ready for discussion before the holidays. As soon as Hon. George E. Foster returns about the first of next month the House will be asked to ratify the West India agreement. It is hoped to have this past go into effect about January 1.

With the most important measures of the government programme before the House at such an early date there seems no reason to believe that the session will be long drawn out, and it is hoped to have it concluded as early as May 1. The reciprocity anti-imperialistic wing of the liberal party is non-placed at the selection of Sir George Ross as Liberal leader in the Senate. Sir George is an enthusiastic imperialist, and is strongly in favor of an advanced naval policy. Last summer when he returned from Hot Springs, Arkansas, where he had spent the winter, he is said to have strongly condemned the Senate for killing both the Highway Act and the Tariff Commission Bill.

The Charles Dalton Fox Ranch

Has Been Sold to a Syndicate Represented by Mr. A. B. Warburton and W. B. Prowse.

It is proposed to capitalize a Joint Stock Company with a Capital of \$625,000.

Mr. Chas. Dalton has sold to a syndicate his ranch complete, containing 20 pairs of breeding silver black foxes, and guarantees an increase of not less than 50 pups to be raised to the age of three months, for the year 1913. For every pup under this number he agrees to pay in cash to the above syndicate \$5000.00 of the purchase price, thus GUARANTEEING to the syndicate for the first year \$250,000 dividends on a basis of \$10,000 a pair, which in view of the prices being paid at the present time is a very conservative estimate.

This Amount Represents Over 40 p. c. on the Capital Invested The First Year

This is the minimum estimate of dividends which will, we feel sure, be greatly increased, because instead of 50 pups there should be at least 75 come to maturity, and based on an estimate of \$10,000 a pair would net the syndicate the handsome sum of \$375,000 or 62 p. c. on the capital invested.

The Terms of Purchase Are:

The Syndicate takes over the entire plant, good will and ranch of Mr. Chas. Dalton, comprising five acres of land with all equipment contained thereon.

The syndicate has a sole right of the use of the name "Chas. Dalton" in the Fox Ranching business.

Mr. Chas. Dalton to remain with the company as Ranch Manager for the term of one year or longer if required.

The syndicate has applied for letters patent to incorporate the Chas. Dalton Silver Black Fox Co., Limited.

The Provisional Directors Are:

President **Solicitor**
CHAS. DALTON **A.B. WARBURTON**

W. B. PROWSE, Sec'y-Treas.

The Chas. Dalton breed of foxes needs no puffing as they hold the world's record for the price of a single skin, and also hold the world's record for a group of skins.

This Is The Best Proposition Ever Offered to Investors On P. E. Island
