

### GOVERNMENT HAS AN EYE TO WEST

#### Supplementary Estimates Brought Down in House Include Provision for Needs of West.

Ottawa, March 18.—Private members engaged the attention of the House of Commons this afternoon in a debate on the supplementary estimates brought down in the House today. The speaker, Mr. A. A. LeMay (Conservative, P.E.I.), pointed out that the supplementary estimates were a parliamentary return to the journal's office in a mutilated condition. He declared that it has been replaced absolutely intact.

Hon. Mr. Graham, in connection with the consideration of a bill to incorporate the Toronto, Niagara, and St. Catharines Railway, which has been vigorously opposed by Toronto and Hamilton, took occasion to make some remarks of general interest in respect to railways. He said that the members of the House keep only two ideas in view first, the rights of the great cities, and second, the rights of railway companies. They were inclined to forget the great travelling public, which no city had the right to keep from getting within its limits in the most convenient manner possible. Rather than give cities too great powers of restriction, they would prefer to leave things largely in the hands of the Railway Commission, which had broader powers than any similar body in the world and hoped would always possess enough common sense to give out an even-handed justice to all parties concerned.

### THE SENATE DEBATES THE HUDSON BAY ROUTE

#### Senator Power Thinks It Would Not Be Feasible to Build It. Other Senators Declare Route Entirely Feasible.

Ottawa, March 18.—In the upper House today Senator Power in continuing the debate on the Hudson Bay railway, did not agree with the western feeling that the greater portion of the season's crop could be taken out each autumn. He quoted from a report of A. H. Low, who is the champion of the route, that the Hudson straits are never wholly free from ice. Senator Bernier declared that experience had shown that the navigation of Hudson Bay is feasible and it would be of benefit to the whole of Canada. Grain could be stored for transportation by this route.

Senator Perley declared that it had been demonstrated that the Hudson Bay was navigable and intended by nature to be the outlet of the west. Senator Loughheed thought the attitude of the government had been unwise in not discussing the feasibility of the route. Sir Wilfrid Laurier pointed out that the Hudson Bay route was an outlet to the sea, and it seems to me that that outlet is the Hudson Bay.

### GREAT SURPLUS IS ANNOUNCED

#### With Liberal Government at Helm Canada Has Unprecedented Surplus. The Federal Budget.

Ottawa, March 17.—The budget speech of Hon. W. S. Fielding, minister of finance, delivered in the Canadian Parliament today goes on record as a model, concise and business-like statement of the financial transactions of the year. All parties are agreed upon that point. Mr. Fielding spoke for an hour and a half, which is the shortest time ever occupied by a finance minister on budget day. But he was not a moment of his time wasted. He delved into his subject at once and stuck to it to the last word.

The finance minister was in excellent voice as he delivered his annual story of the finances of the country, which has stood the test of the financial stringency better than any other. Among the features of the budget may be mentioned a surplus for the nine months ending March 31 last of over thirty millions, the largest in the history of the country up to last year. Then there is a surplus of over five hundred million for the fiscal year, which ends with this month, by far the greatest surplus ever recorded in the country.

### THE PROPOSED CHANGES

#### A Summary of Changes Proposed in Cigarettes and Smoking Tobacco.

Mr. Fielding said that it was not intended to increase it; we aim to readjust the tobacco duties, so as to meet new conditions that have arisen without adding to the burden of taxation. The change will be to establish a uniform rate of licenses for tobacco manufacturers, most of whom are varying weights which now exist. The second object will be to carry a larger part of the burden of taxation into the manufacturer of tobacco, and the third purpose is to establish a uniform stamp.

### AMES AND PARTY SHOW THEIR HAND

#### They Obstruct the Inquiry Into Timber Berths, Refusing Opportunities They Asked.

Ottawa, Mar. 18.—The officials of the Interior Department, in their manner of granting timber berths, ought to be heard from by the House of Commons, and when they do appear before the committee they should be given opportunity of telling what they know so long as Ames, Bristol and other Conservative members are permitted to use all kinds of insinuations against the department and its officers. It is particularly unjust.

But this afternoon when J. Greenway was being examined in the House he was asked to state what was opposed to hearing his evidence and Macdonald pointed to obstructive tactics as Greenway's evidence was not only unfavorable to Ames' statements, but also to the bottom out of this alleged scandal. The opposition refused to call G. Turiff, Greenway's brother-in-law, though he had been in attendance at the committee several days. Mr. Turiff is not an expert in timber investigation which would throw light on the subject and consequently they blocked the inquiry.

The committee today Turiff in the following statement: "Mr. Chairman, as my name has been frequently mentioned in connection with this inquiry, and as insinuations have been made and inferences drawn in connection therewith, I have been here for several days, expecting to be called. I now desire to say I would be glad to answer any questions put to me by the committee on Tuesday in order to make a statement and to answer such questions in connection with the inquiry as my associates may desire to ask."

### THE MINISTER OF THE INTERIOR, HON. FRANK OLIVER, INFORMED J. E. ARMSTRONG (CONSERVATIVE, EAST LAMBTON) THAT THE NUMBER OF ACRES OF INDIAN LANDS IN THE DOMINION NOW HELD BY THE GOVERNMENT IS 229,023.

Indians still possess 2,363 islands. Nine hundred have been disposed of.

Hon. Mr. Fielding informed Dr. Roche (Conservative, Marquette) that since Confederation the Canadian Government has received some \$40,000 from the Dominion as subsidies. The government has been paying the subsidies for further term of years. There was no proposal to subsidize the domestic news services, if granted, the subsidies would be paid to newspapers, which would subscribe also to the domestic service.

### AT THE EVENING SESSION

At the evening session Richard Blain (Conservative) moved a resolution, which, after dwelling on the harm and the difficulty of regarding the sale, stated that it was expedient to prevent the importation, manufacture and sale of opium. Mr. Blain went into the subject fully, pointing out that the consumption of opiates increases enormously every year. Mr. Blain proposed the majority of Conservatives to the support of a bill should the government introduce one.
