Salvage Notes.

That Hon. R. A. Squires is now K.C.M.G., must be pleasing news to "ye loyal knights." We add our humble congratulations. It is rather too bad, however, that Hon. W. F. Coaker is still plain Mister except when addressed by the Italian or Portu-guese term "Excellency."

If Coaker has indeed resigned his portfolio it is welcome news, for even admitting that he erred unin-tentionally and that his endeavors was always to uplift, the pitiable fact remains that his administration has eff the country nearer confederation than ever Morine did, and with a worse position to make terms, than Morine ever contemplated. Although we are indeed glad that he is out of politics (if such is the case) we yet wish him renewed strength in his purpose of actually helping the un-definers.

The fish situation is still very gloomy looking, but of course, it is to be considered that caplin have not two or three strayaways were seen yesterday. The next "Springes" will probably herald their presence.

Mr. Morley J. Hefferton, who has on a vissit to his brother for the four weeks, left by s.s. Malakoff morning to return to the "paper"

Mr. John Moss, Bishop's Hr., who had been in St. John's securing sum-mer stock, returned yesterday via Alexander Bay, coming from the lat-

Mr. Job Stead's schooner arrived from St. John's last night; Messrs. W. wn and Theo. Hunter also arrived with their summer's supplies.

for the last few days. It is rumored that she is to be taken off the Bay, supply the needs of the Atlantic Fish- no reason why the people in Grand eries Co. We trust, however, that the Falls cannot do likewise. If they do boat will still continue to purchase

Mr. James Moss arrived from St. John's early this morning.

Miss Jennie Janes, Port Blandford, is here on a short visit—business and pleasure combined.

A certain amount of relief money came to hand a few days ago, and the men are "working it up" on the roads. But what will \$10 or \$15 do for the maintenance of a family? At present But what will \$10 or \$15 do for the maintenance of a family? At present there is nothing bright in the situation here. Rumor had it yesterday that The Terra Nova Sulphite Co. was opening up the 1st of July with an employee force of 3,000 men. We was opening up the 1st of July with the very place where my nair successions an employee force of 3,000 men. We the very place where my nair successions and it was getting so employee the parted, and it was getting so employee the parted of could find no voucher for the said re-port. The situation in Grand Falls at time of writing is practically un-changed. But like the miners of Eng-land, one must imagine the strikers We note Quebec mills have resumed operations at a 20% cut in wages, and despite Newfoundland's Juriax of 25% additional, we see nothing for the laborer of Grand Falls but to accept a similar cut. (We—needless to say—think 33 1-3% too sweeping al-

Is it possible that the Premier, in his wording of the C. S. reduction, pur-posely did so that his own salary and posely did so that his own salary and those of his minters might remain unaffected? If it be said that in Circular No. 2, Coaker issued his dying wail in April, then assuredly Squires—Knight though he be—has sung his funeral dirge in June.

Really Patriotic?

Editor Evening Telegram
Dear Sir,—Would you give me space in your valuable paper to say a few words about the Strike at Grand Falls. In one of your issues a few days ago I noticed an article put in by the Work-man's Committee that talked a lot about patriotism. Well the question is are the Grand Falls workers so very patriotic, at least in some respects. In the first place the Union that is back-ing them in the strike, and to which most of them belong, is an American and not a British Union. In other words they are trying to force an English placed on board a steamer on the east company to see their point of view with a union that is directed from the U.S.A. All the workers at Grand Falls pay high fees to this union the most of

which goes out of the country.

Last year the A.N.D. Co., Ltd., paid out in wages alone, at Grand Falls, Millertown, Badger and Botwood at least \$130,000 per month which means about \$1,560,000 for a year. Now if the strike lests six months the company. strike lasts six months the company will possibly not be able to get their wood off the river with the fall floods, and therefore will not be able to restart before the spring. The loss to the

people of this country will therefore be two thirds of \$1,560,000, that is allowing for the wage reduction of one third. The country will therefore lose over a million dollars. Can the country in its present sate of afford this? As stated by the committee the

as stated by the committee the labouring man gets thout \$54 per month. A certain person (a married man with family) told me that he had lived at Grand Falls about a year and a half ago, when prices were just as high if not higher, for less than \$54 W. K. BUCKLEY, Mfg. Chemist, per month, but as he said he did not indulge in many luxuries. The trouble in Grand Falls is that pretty near everybody there has been living right up to the "hilt" when times were flush, and now when depression has come they feel it keenly. Men here are work-ing on the 28 cents an hour basis and come to some agreement with the lost already, and by that time another

reduction will be on them, so I do not see that they have anything to gain anyway. Thanking you in anticipation, Yours truly, ONLOOKER. Botwood, June 13, 1921.

Rural Route, No. 1, Mascouche, Que. The Minard's Liniment People.
Sirs,—I feel that I should be doing a wrong if I neglected to write you.

I have had four tumors growing on months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors. Well I tried it and kept at it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

use it as you see fit.

(Signed) FRED C. ROBINSON.
P.S.—I am a farmer and intend using Minard's Liniment on a mare for a strained tendon, and am hoping for some results. FRED C. R.

The Skipper's Cold Comfort.

Captain Sir James Charles, the genal skipper of the Aquitania, tells a delightful story concerning a nervous old lady who booked a passage aboard a tramp steamer bound from an East African port to Karachi.

After a few days at sea (says Sir James) a terrific storm broke, and the tramp began to plunge and reel like a drunken man. Clutching her way along the deck, she got to the skipper's cabin, and there she found that worthy marine poring over what appeared to

be a dirty piece of canvas.

"Are we safe?" she gasped. "Madam," replied the skipper, "you see this 'ere thing I 'ave in front of me. Well, this is a chart of the Hinlian Ocean. On it you will observe there is a lot o' little black dots. Now, madam, if those dots is fly-marks we're all right, but if they're rocks, nadam, we're bound for Kingdom

Early Cables It Took All the COAL OUTLOOK DARKENING.

LONDON, June 16.

While the Labor Minister's intervention has staved off for the present, the threatening strike of one and one half million workers in the engineering trades, there is ground for doubts about the idle coal pits of the country being re-opened soon. Early returns show that the miners' ballot is going heavily against acceptance of the owners' new offer, but it is not yet certain that the two-thirds majority, required to prevent a return to work, will be given. South Wales is, apparently, casting its vote heavily for keeping up the fight for better terms. So is Lancashire. Durham miners are also of the same way of thinking, although they were expected to vote for the owners' terms. Lancashire shows a two-thirds majority against the owners' offer, and Scottish miners are nearly solid against the terms.

GREEKS ARE CAUTIOUS.

SMYRNA, June 16. It is improbable that the great offensive against Turkish Nationalists will be started for several weeks, King Constantine declared to the Associated Press yesterday. The Greek army now number two hundred thous and fighters in Anatolia, and has on hundred thousand reserves. The Nationalists, it is estimated, have less than one hundred thousand.

Grit Mason Had To Stick It Out

I feel thankful to Tanlac for I'm con-vinced it kept me on the job," said William W. Mason, 1924 McClellan St., Philadelphia, for the past nine years a motorman for the Rapid Transit

"I had stomach trouble in a bad form for three years and was going down hill fast. Nothing I ate agreed with me and after every meal I was sure to have heartburn, dizziness and sometimes awful cramps. I got in such a nervous condition my hand shook like a man with the palsy and at nights my sleep was broken and restless. In the mornings I felt so miserable I used to dread the time to come for me to take out my car, and it took every ounce of grit I could muster to stick until quitting time. Finally I got so weak and was so discouraged I was ready to give

up.

This was my condition when I started taking Tanlac and I owe all my present good health to this wonderful medicine and to nothing else. The first thing it did for me was to whet my appetite and I soon found I could eat anything without fear of bad after-effects. It's a fact, four battles made a new man out of man bad after-effects. It's a fact, four bottles made a new man out of me. My nerves are quiet, I sleep like a log and wake up in the morning feeling fine. Then I eat a big breakfast and go to work whistling like I used to long ago. If people knew Tanlac like I do the clerks in the drug stores couldn't wrap it up fast enough to supply the demand. It's great."

MILLEY'S

Treacherous Sable Island

The wreck of the champion Gloucester fishing schooner, Esperanto on a sunken steamer on the shallows of Sable Island shore, led to the following interesting publication in The Halifax Herald:

Scotia, Canada, 110 miles Southeast of Cape Canso, in 43.56' N. and 60 W. It is composed of shifting sands and is about 20 miles in length by one mile in breadth, rising in places to a height of 85 feet.

In the interior is a lake about 10 cording to Dr. D. B. Osborne, who attended the lad, his hair when he re- ous sandbags run out about 17 miles into the ocean. It has long been known as "the graveyard of the Atlantic"; over 200 known wrecks have been catalogued, and those unrecorded are tastes and tastes. In a few days the believed greatly to exceed this num-
