## The Copper Issues!

The fact that the copper market is disappointingly slow, does not mean that these stocks are not purchases. We go on record as saying that this Fall, practically all the good copper stocks will have appreciated several points and wise investors will accumulate them now at the low.

The coppers will have an innings before this bull market is over, despite present temporary weakness.

### EMINENT ENGLISHMAN TALKS.

Professor H. C. Wyld, of the University, Liverpool and foremost among living scientific investigators, writes:

"When my little girl was recobering from a severe operation for appendicitis, the irritation from the wounds, as these were healing, was intolerable and the child—aged 3½—could get no rest. After trying various preparations prescribed by the doctors without producing effect, we used Gibson's Oint-ment and this gave almost instantaneous and permanent relief. The Ointment was used regularly until the wounds had completely healed and there was no return of the irritation. (Signed) CECIL WYLD." GIBSOL
