Gone Down!

Wreck of a Steamer on the Coast of Newfoundland.

The Mondego Sunk in St. Mary's Bay.

Her Cargo of 554 Cattle and 82,534 Bushels of Grain Lost.

ndon

Montreal, Sept. 19.—The steamship Mondego, from Montreal for Dundee, is a cotal wreck on the coast of Newfoundland. The first intimation of the disaster comes from a cattle foreman on board the steamer Joseph Hyland. He telegraphed from St. Marys, Newfoundland, as follows:

"Mondego a total wreck. Lost all cattle. Myself and men safe. Leave for St. Johns tonight. How are we to get home?"

This message was received by Mr. John Crowe, who had the most of the cattle on the Mondego. The steamship Mondego, Capt. J. Rowell, left here on July 10. Her cargo was as follows: 50,400 bushels rye for Norris & Carruthers, 24,034 bushels rye for Norris & Carruthers, 24,034 bushels rye for Crane & Baird, 8,150 bushels rye for Crane & Baird, 8,150 bushels rye for Cattle for C. Coughlin. The cattle were for Dundee and the grain was for Hamburg. How the steamship was wrecked is not definitely known, but the probabilities are that she has got on the rocks in St. Mary's Bay. St. Mary's Bay is one of the most dangerous spots on the coast of Newfoundiand.

The Mondego had a crew of 30 men, and

and. The Mondego had a crew of 30 men, and had on board also ten cattiemen from Montreal. The cattle foreman, Joseph Hyland, is from Toronto. In answer to an inquiry, the agents stated that their only information was a short dispatch from the captain stating that the vessel was a total loss, but that all on board were saved. The insurance on cattle and cargo exceeds \$120,000, and was taken in English companies.

Caustic Comments by the Paris Press on Emperor William's Erfurt

Speech. PARIS, Sept. 18 .- The whole press of Paris condemn Emperor William's recent speech at Erfurt, in which it was reported that he alluded to Napoleon as "the Corican parvenue." Le Paris says: "This violent attack on a man of genius and greatness like Napoleon will have no diplomatic coults."

ness like Napoleon will have no diplomatic results. It simply reveals the character of a monarch who seizes every opportunity to revile France and hasten revenge."

Le Jour says the speech proves that recent events have rudely dispelled the Emperor's dreams. He wanted Europe to be blindly submissive to Prussian dictation and finds himself conferented by national be blindly submissive to Prussian dictation and finds himself confronted by nations which have recovered and developed themselves and which now laugh at his threats. Le France says this time it is not we who can be accused of talking of revenge—it is the German Emperor, who reminds us that armies are things of a day. His remarks are an impudent outrage on the patriotism of a great people.

Moderate papers like the Temps Liberte and Journal des Debats regret the tone of Emperor William's speech at Erfurt, but make allowance for the excitement of the occasion, adding that the bark is perhaps worse than the bite.

PARIS, Sept. 18.—M. Ribot, Minister of Foreign Affairs, has handed to the Chinese Churge d'Affaires a note insisting upon the urgency of unholding the security of the life and property of foreigners in China.

Berlin, China is unable to fulfill her promises made to the representatives of the powers that she would punish those who were implicated in the recent outrages upon foreigners and their property, and that she would in future protect foreign residents from injury. The rumors circulated that France and Russis would not take part in any joint action on the part of the combined fleets, if such a step were necessary, is pronounced untrue. Germany will, doubtless, increase the number of her warships in Chinese waters, and will be prepared to take strong measures, should they be needed, to protect German subjects or property.

London, Sept. 18.—The Times commenting on the outrages perpetrated upon foreigners in China says the course Europe and America are likely to pursue if there is a repetition of the riots is to take the matter into their own hands and exact satisfaction from the offending locality. Speedy and sharp measures are indispensable, or the whole maritime districts of the empire may be in flames.
