EASTER BONNETS

For the Children.

The little one will appreciate a new Bonnet for Easter, and who will say that the baby does not deserve one?

Our Bonnets are so pretty, becoming, and withal, so reasonably priced that every baby should be "decked out" for the coming occasion.

Serviceable and Dainty Bonnets for 25c Each.

This is a very special line, some made of cream silk, some of white muslin, with pretty lace ruching around face and double pleated lace trimming on top, ties to match, regular 50c each, Monday, each 25c

We also sell hats and bonnets for the larger children.

Granite Pie Plates, 3 for 5c.

About 300 Granite Pie Plates, slightly marked, worth 10c each; clearing Monday, 3 for 5c

Some Wash Day Needs.

Washboards, genuine Globe, Monday, each 19c
Wash Tubs, 2 sizes, Monday, each 65c and 75c
Good Mop Sticks, Monday, each 10c
4 dozen Wash Boilers, No. 3, double pit, copper bottom, regular \$1.75, Monday, each \$1.50
3 dozen Copper Pit Bottom Boilers, No. 8, for each \$1.15

Garden Seeds 3 papers for 5c | Carpet Whips, each 15c

Three Crockery Specials.

50 dozen White Bowls, good sizes, regular 10c, Monday, each 5c
7 dozen Milk Pitchers, regular 15c, Monday, each 10c
Best White Ironstone Cups and Saucers, set 5c

WOODS' FAIR

REV. DR. BEECHER WANTS HIS COIN

Well-Known Scholar Gets a Message From Spirit World

IN REGARD TO A 30-YEAR LOAN

A Startling Communication From the Famous Divine and Orator to Old Friend.

New York, April 4.—Has spiritualism a new convert in Dr. I. K. Funk, the venerable writer on subjects religious and head of the publishing house of Funk & Wagnalls? While Dr. Funk does not admit in so many words he believes in communication with the spirit world, he does not deny he recently received a message from the Rev. Henry Ward Beecher. He said he is making investigations, and later may be prepared to talk more intelligently on the subject. Less than a week ago Dr. Funk attended a spiritualistic meeting in which a woman acted as a medium and went into a trance. Soon she said Dr. Funk's old friend, Dr. Beecher, wanted to speak to him.

"Why don't you return that coin you borrowed of me thirty years ago?" the medium, inspired by Dr. Beecher's spirit, said in Dr. Beecher's well-known and jovial manner.

"What coin?" Dr. Funk asked, astonished.

"Why, the widow's mite," said the medium, speaking for Dr. Beecher. "You used it as a model illustration in one of your books."

"I returned it to you years ago," said Dr. Funk.

"Pardon me, but you are mistaken," the spirit insisted. "If you will look in your safe in the compartment in the lower right-hand corner you will find my coin under some papers."

Dr. Funk went to his office the next morning and asked a clerk to look under a bundle of papers in a small safe in his office. The coin was not there, so he called in an old clerk, who was with him when the coin was borrowed. The clerk said he was sure Dr. Funk

has returned it. Then they went together to a larger safe and in exactly the spot described by the medium they found the "widow's mite."

Dr. Funk, speaking of the message he received about the coin, is quoted as saying:

"I do not try to explain it at present. Telepathic communication by means of what for lack of a better name we call thought transference or thought waves, is a well-established fact; mothers know when children are sick and wives have seen as a vision the figures of their husbands at the moment of death. These things are common and well vouched for. How these communications are made we do not know. There must be some rules to govern them, but we are in the dark on the mere border of the subject and groping in an effort to find those rules out."

"It is an outside question to say the dead cannot communicate with the living. Mind, I say cannot; I do not assert they are communicated. It will not do to quote any hard and fast rule. Who knows by what means one mind communicates with another, without means of speech or visible sign or writing. Is it a higher consciousness which we have not identified, and is the receipt of such communications from mind to mind any more wonderful than the Marconi messages which by means of wireless electric impulse fly across the ocean and are clearly received thousands of miles away?"

"I prefer to give no details of the experiments thus far made until my investigation is concluded. Thus far I may say that it appears profoundly interesting. I cannot say to the exclusion of all other hypotheses that I received a message from the spirit world, but I do say we cannot deny the possibility of receiving such messages, and until that impossibility is proved my mind is open to conviction. I seek only the truth."

STEAMERS ARRIVED.

April 2.—At New York—Bolivia, from Naples; Deutschland, from Hamburg; Koening Lulse, from Bremen.

At Brown Head—Lake Simcoe, from St. John.

At Boston—Saxonia, from Liverpool.

At Liverpool—Cedric, from New York.

At Genoa—Trojan Prince, from New York.

At Glasgow—Pomeranian, from New York.

At Havre—La Champagne, from New York.

At Antwerp—Nederland, from Philadelphia.

At Palermo—Auguste Victoria, from New York.

At Halifax—Sardinian, from Liverpool.

At St. Michael's—Commonwealth, from Boston.

Why Don't You Get Well?

If you'll ask for health you can have it.
I'll supply the treatment—all the risk is mine.
I am curing thousands while you are waiting.
It is your turn to get well—write me today.

My Remarkable Offer.

I am making an offer to sick ones which no other physician will make.

The offer proves that I have wonderful faith in myself—and in you. It proves that I have learned how to cure, for the offer would ruin me if I did not succeed.

The offer is this:

Simply send me this coupon or write me a postal, stating which book you need. I will then mail you an order on your druggist for six bottles Dr. Shoop's Restorative. You may take it a month on trial. If it succeeds, the cost is \$5.00. If it fails, I will pay your druggist myself. And your mere word shall decide it.

I do that to convince you who hesitate—who doubt all men's claims. I have what millions need, and I want the sick ones to have it. So I make an offer so fair that the sick can't neglect it. That offer has been accepted by nearly 500,000 people, and 38 out of each 40 have paid gladly because they were cured.

The Remedy That Cures.

My Restorative differs from all other treatments. It is the result of my lifetime's study in learning how to strengthen the INSIDE nerves. This remedy always brings back the nerve power which alone operates the vital organs. The result is like giving an engine more steam; the organ has power to do its duty.

The common way is to treat the weak organ—to tide over the difficulty till Nature restores the nerve power. But if the trouble is deep-seated, those methods fail. And in any trouble—whether trifling or severe—the right way and quickest way is to rectify the cause—to bring back the nerve power that is weak.

My Restorative always does that.

Cut Out This Coupon.

For we all resolve to send for something, but forget. Mark the book desired and mail this with your name and address to Dr. Shoop, Box 41, Racine, Wis.

Book 1 on Dyspepsia. Book 4 for Women.
Book 2 on the Heart. Book 5 for Men.
Book 3 on the Kidneys. Book 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

THE ADVERTISER, LONDON, ONT., SATURDAY, APRIL 4.

SUNDAY SCHOOL TEACHERS

HEAR HELPFUL SUGGESTIONS

Meetings Held Under Direction of Ontario Association.

Rev. Dr. Sowerby and Others Make Interesting Addresses.

Two meetings of particular interest to Sunday school workers were held in the First Presbyterian Church yesterday, afternoon and evening. They were under the direction of the Sunday School Association of Ontario, and were the last in a tour which included Brantford, Hamilton and Woodstock, two sessions having been held in each place. Several tours, having for their object the advancement of the work of the Sabbath school, have been arranged. Important points west of London being on the list for visits in the near future. In arranging the programmes for the meetings, the provincial executive selected subjects of special importance to those engaged in imparting religious instruction to the young, and left them in the hands of clergymen and laymen qualified to present them in such a way that valuable help would be derived. Rev. W. J. Clark presided at yesterday afternoon's meeting, which, owing to the unfavorable weather, was not very well attended. Several of the city clergy, together with prominent Sunday school workers, were present.

SCHOOL MANAGEMENT.

Mr. J. A. Jackson, B. A., secretary of Toronto, addressed the conference on "Sunday School Management," in connection with which printed slips containing a series of twenty-five questions were distributed. Several of these were discussed, and many helpful suggestions made. The system of honors or rewards adopted in many schools was planned, and one worker advised his audience to have the rewards arranged so that they would be distributed over a large number of pupils, and not among a few. The latter plan, he said, would create an unhealthy rivalry among the few. How could scholars be induced to bring their Bibles to school? was another question. One lady in the audience said the teacher should set the example by bringing a Bible and leaving the lesson help at home.

"A very good suggestion," said Mr. Jackson. "Don't come to Sunday school on your crutches if you can come on your own feet."

Rev. A. K. Birks, of Colborne Street Methodist Church, said the plan adopted in his school worked satisfactorily. 85 per cent of the scholars bringing their Bibles every Sunday.

Rev. Dr. Sowerby asked if the Bible was not used as much in the schools now as in the past. If not, why the change? What had driven the Bible from the school?

Lesson leaves seemed to be more convenient for lazy teachers, was the explanation given by one teacher.

"Every help should be thrown out of the Sunday schools," said Dr. Sowerby. "Helps are to be used at home. They are the curse of the whole thing."

To secure punctuality the opinion was expressed that it would be best to begin with the superintendent, who, some thought, should be in the school half an hour before it opened. Various methods were suggested for getting the scholars to be on time.

RESPONSIBILITIES WERE GREAT.

In an address on "Preparing and Teaching the Lesson," Rev. Dr. Sowerby said the responsibilities upon the teacher were very great indeed. While he had a great opportunity to do good, he had a correspondingly great responsibility resting upon him, and how the teacher could go before the class with an unprepared lesson was more than he could understand. The question of the age of the pupils had very little to do with it. There were so many teachers who did not prepare the lessons, Dr. Sowerby said. No teacher, he continued, should attempt to prepare a lesson without indulging in prayer and thus get in touch with God. He should read the lesson repeatedly until it was burned right into him and he was thoroughly conversant with its philosophy. The parallel passages should also be read, and those passages having a particular bearing on members of the class picked out. An effort should not be made to teach too many thoughts. This was the trouble of many in charge of classes. What was needed was simplicity in presentation.

ing the lesson. The fewer the points the teacher had, the better it would be. In Dr. Sowerby's opinion the teacher would be doing good work by giving the class two or three thoughts having a particular bearing upon them.

MUST KNOW GOD FIRST.

Rev. J. W. Rae, of Aylmer, spoke on "The Sunday School Teacher," who, he said, to be successful, must know God first, then the Book and then the child. He asked the teachers to notice that the child had a body, and he said they must remember that the child was made up of muscles and nerves, and it was impossible for it to keep strictly quiet for half an hour. The child that was built upon the spring-trap order was not the bad pupil. The kind Mr. Rae found to be the worst was the quiet one, who never moved a great deal, but was always planning mischief. The teacher must seek to bring the child and Book together, and through the Book bring the child to God. The study of the little child as he is was another essential to the success of the teacher. It was a desirable thing for those engaged in teaching to first seek the guidance of God.

THE EVENING SESSION.

Attendance Not Large, But Interest in Addresses Was Keen.

The audience at the evening session was not a large one. Two addresses were given. These were preceded by remarks by the chairman, Rev. D. S. Hamilton, and a word of thanks from Mr. J. A. Jackson, B. A.

The first address was given by Mr. John A. Paterson, M. A., K. C., of Toronto. The parent, he said, should be equal to his opportunities. Continuing, he spoke in part as follows:

Each one has two creators, God and ourselves. God gives us the material. If the man doesn't make good use of the material then he lags in the race of life. If man shirked work God wouldn't do it.

Our country was now suffering from a plethora of endeavor to increase our national wealth. It is in danger of becoming intoxicated with national wealth. Bringing up good men and women from boys and girls was what was needed.

The most elementary thing the parent could do in connection with the Sunday school was to know the teacher of the boy or girl. Next, the parent should know the character in the teacher. They ought to visit the school at times. They should invite the teacher to their homes. They should at least help the teachers by assisting the children in getting up their lessons. If the parent could, he should teach in the school.

We find, said Mr. Paterson, "Sabbath school is composed of a large extent of young people. When I go to financial institutions I find them managed by men of experience. Why shouldn't men of experience be filling the positions of spiritual teachers? Let us have more of the large parental experience to supplement the energy of the young people."

The speaker built up a great Sunday school organization but we have almost forgotten the truth that there is parental responsibility.

It is the duty of the parent to support the school. The children's savings brought in by the children should go towards missions and the expenses of the school should be sustained by the parents.

SCHOOL AS EVANGELIZER.

Rev. W. H. Hincks, L.L.B., of Toronto, made the assertion that while two evangelists worked in his church for a month among adults had been unable to bring in one new member, there had been 200 children converted in the Sunday school in that time.

His address was upon "The Sabbath School as the Evangelistic Agency of the Church." The first duty of the church was to begin with the children. The results in the German army showed that if it paid to begin young, if this were done in the church "it would save us," said the speaker, "from the artificiality of these stuffed-up excitement called evangelistic services."

If he had his way he would have only one preaching service in the church on Sunday, and devote the rest of the day to the children. He would spend \$10 in the school to \$1 in the church.

He told of the requirements of teachers, dealing especially with the boy problem. The teacher of the modern church, he said, was that between the infant and Bible classes the Sunday school lost its grip on the majority of the boys. He said that the church had a large extent to the untimeliness of the teachers to enter into a boy's life.

The home would have to do more and there would have to be more cooperation if they were going to do their duty in making the Sunday school an evangelizing factor.

TOBACCO CHEWING TEST

United States Sailors in a Unique Contest.

New York, April 4.—The great tobacco chewing bee which Uncle Sam's sailors on the receiving ship Columbia, stationed at the Brooklyn navy yard, have been indulging in the last week to determine which kind of plug tobacco is best suited to the needs of a man-of-war's man, came to an end yesterday. Capt. Miller, head of the board which will place the Government's order for tobacco for the next year, is comparing the numerous expert opinions of the jacks on the samples submitted to them. Just 323 pounds of plug were chewed and smoked.

The value of the opinions that will influence Capt. Miller and his board in ordering the year's supply will be understood when it is stated that the aggregate order will be 225,000 to 250,000 pounds. Tobacco men always are keen to get the order of the Brooklyn navy yard, and so when samples were called for the response was prompt and generous and consisted of 44 different brands of plug, each sample weighing 12 pounds. The entire assignment was dumped aboard the Columbia, and each sample was marked by a number, on which jacks were to get the order of the Brooklyn navy yard, and so when samples were called for the response was prompt and generous and consisted of 44 different brands of plug, each sample weighing 12 pounds. The entire assignment was dumped aboard the Columbia, and each sample was marked by a number, on which jacks were to get the order of the Brooklyn navy yard, and so when samples were called for the response was prompt and generous and consisted of 44 different brands of plug, each sample weighing 12 pounds.
