

Executor's Notice to Creditors

In the matter of the estate of James Mellow, of the City of London, gentleman, deceased:
Notice is hereby given, pursuant to the Revised Statutes of Ontario, 1897, Chapter 123, that all creditors and others having claims against the estate of the said James Mellow, who died on or about the third day of June, 1909, are required on or before the first day of September, 1909, to send by post prepaid, or to deliver to the undersigned solicitors for the executors of the said estate, their Christian names and surnames, addresses and descriptions, the full particulars of their claims, the statement of their accounts and the nature of the securities (if any) held by them.
And further take notice, that after such last-mentioned date, the executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims which they shall then have received, and the said executors will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by them at the first day of September, 1909.
P. J. PURDOM & PURDOM, solicitors for executors. Dated at London, this 2nd day of July, 1909.

IN THE SURROGATE COURT OF THE COUNTY OF MIDDLESEX.

In the matter of the guardianship of Bella B. Sifton and Clarence Abraham Sifton, infant children of Crozier Sifton, deceased.
Take notice, that after the publication of this notice once a week for three successive weeks in The London Advertiser, an application will be made to the Surrogate Court of the County of Middlesex, by Gertrude Lucille Sifton, of the City of London, in the said court appointed guardian of the said children of Bella B. Sifton and Clarence Abraham Sifton (who both reside at 24 Chancery Lane, the said City of London), infant children of Crozier Sifton, late of the said City of London, expert machinist, who died a bachelor, widower and intestate, and without appointing any guardian of the said children, the said Gertrude Lucille Sifton being the eldest sister and next of kin of said infant.

TENDERS

Tenders will be received for repairs to the Talbot Street Baptist Church Sunday School till Monday, Aug. 9, at noon. For plans apply to N. MILLS, No. 1 Masonic Temple.

TENDERS WANTED

WESTERN FAIR, LONDON.
September 10-18, 1909.

Tenders will be received up to Saturday, Aug. 14, 8 p.m. Specifications at secretary's office.

—Six tons, more or less, of steam lump coal, to be delivered at the Western Fair grounds, as required.

—Twenty tons, more or less, of wheat straw, one-half baled and one-half loose.

—Three for hay, oats, chop and other kinds of feed for the Western Fair.

A. M. HUNT, Secretary.

JAMES H. BROWN, Superintendent of Grounds, 370-71

BEAT WRIGHT'S RECORD

French Aviator in the Air For Nearly Two Hours and a Half.

Mourmelon-Le-Grand, France, Aug. 7.—Roger Sommer, the French aviator, today beat the world's record for prolonged flight in an aeroplane. His machine remained in the air for 2 hours 27 minutes and 16 seconds.

Sommer started at 14 minutes past 3 o'clock this morning in the bright moonlight. In the beginning he travelled slowly and in a wavy line, but after 15 minutes he was running at 30 yards.

After the machine had become limbered up, the aviator increased his speed, and in coming to a landing he was travelling easily. When it became evident that he had beaten the duration record, held by Wilbur Wright, the assembled crowd cheered wildly, and Sommer came to the ground at 14 minutes and 15 seconds past 5, he was given an ovation.

M. Sommer is one of the new school of French aviators, several of whom have recently made records that would have attracted world-wide attention a year ago. On July 27 he made a flight of 1 hour 23 minutes and 30 seconds.

On August 2 he flew nine miles in 12 minutes, which is at the rate of 45 miles an hour, and on August 4 he made a flight of a few seconds over two hours. He is using a biplane of the Voisin type.

ALBERTA'S WOOL CLIP

Unpropitious Season Made the Clip Lighter Than Usual.

Winnipeg, Aug. 7.—Shearing of Alberta range sheep shows a rather lighter clip than last year, both in the total and in the yield per sheep. The total clip will be in the neighborhood of 400,000 pounds. The fleece is not as heavy as last year, owing to the character of the winter. The fall was rather dry, and sheep did not meet the hard weather of the winter in very good heart. The spring was late, and the grass slow, and naturally the wool suffered. The whole of the clip has not been sold. The best yet is 13 1/2 cents for the lot of wool, about 25 per cent of the Alberta clip, at the three shearing pens. There is possibility that the wool may go to Boston buyers, even in the face of eleven cents per pound duty. Thirteen cents has been offered for the best thousand pounds of the clip by a Great Falls house, but the growers feel that there should be stronger talk coming from Canadian buyers. The clip of last year is two cents higher than last year, but the advance is relatively much behind the prices in both English and United States markets this year.

HORSE STEALING CHARGED

Brought Back From Detroit To Face Charge in Windsor.

Windsor, Aug. 7.—A man who gives his name as O'Brien, was brought back from Detroit, and is now here on the charge of stealing a horse and buggy from his former employer, Angus Wigle, of Kingsville. While passing through Essex on his way, he said he was on his way to Windsor to see a dying brother. He did not know the road, and constable Brown volunteered to accompany him. He rode in the stolen rig from Essex here. Brown did not know the theft until the fellow had crossed the river, but made good by following him up, and with assistance located him in Detroit.

RUSS WRITER DEAD

Kiev, Russia, Aug. 7.—Madame Niegovskaia, a well-known Russian writer, was killed yesterday on her estate near Oorutch during the absence of her husband. Two robbers stole into her room, pointed revolvers at her, and demanded her money. With splendid courage Mme. Niegovskaia, grasped her husband's revolver, and opened fire on her assailants. During the exchange of shots she was wounded in the leg, but she continued to fire, and forced the robbers to flee. After their departure she died from the loss of blood.

RACING AUTOS THROUGH FENCE

Two Cars in a Mix-Up at Fort Erie Track Yesterday Afternoon.

Flashed Around Mile Course in 54 3-5 Seconds With Front-Drive Racer.

[Special to The Advertiser.]

Buffalo, Aug. 7.—Two cars through the fence, with their occupants only slightly injured, and all records for the Fort Erie track broken in a splendid day's racing, is the sum total of the opening of the automobile carnival of the track across the river yesterday.

The honors of the day go to Walter Christie, who in his odd-appearing front drive racer, whirled around the track in the wonderful time of 54 3-5 seconds, a speed of slightly less than 66 miles an hour, and travelling at a speed of nearly 75 miles an hour as he crossed the tape. The former record for the track was 1:13, and this was beaten by Christie in every event.

Oldfield Had Benz.

Barney Oldfield, with the inevitable cigar, received a great ovation as he appeared on the track at the wheel of the famous Benz racing car, which, formerly handled by David L. Bruce, Brown, has won everything it has been entered in this year. Oldfield has had the car for a very short time, and has not become thoroughly familiar with it, but in the exhibition mile with a flying start he made the remarkable time of 55 2-5 seconds, or an average speed of 65 miles an hour. The car was not at all suited for short circular racing yesterday, being equipped with road gear. Oldfield offered this statement after his defeat by Christie. However, immediately after the race he and his mechanics got busy changing the gear, and the powerful 150-horsepower machine will be more of a track racer today, when Oldfield confidently believes he will turn the tables on Christie.

Two Through Fence.

Plenty of excitement was provided in the five-mile handicap, free for all. The starters were the Austin-Lyman, Chalmers-Detroit, Chevrolet in the big truck and two small Buicks, and these well as dust, both going through the fence near the three-quarter post, and going through the inner fence and the other car going through the outer fence nearly opposite. All four wheels were broken on one of the cars, and one on the other.

Harry Hughes and George Hopkins of the Buick team, were in the machine which hit the inside fence. All Homer and a youth named Meyers were in the machine that struck the outside railing. The latter car turned a peculiar trick. After crashing through the rail and splintering it for a distance of 20 feet, the car went into a trench and out again, emerging onto the track, with its nose turned the reverse of the course. The other car was a complete wreck. None of the four was hurt. Hughes and Hopkins throwing themselves from the machine when the first car hit the inner fence, and Homer and Meyers escaping through what might be called a miracle.

TRIAL FOR FORGERY

Man Arrested at Winnipeg Taken to Fort Saskatchewan.

Edmonton, Alta., Aug. 7.—Reginald Bruce, alias C. S. Bruce, also known as James Setter, was brought up from Winnipeg, taken to Fort Saskatchewan to await trial for forgery. He was arrested on July 27, on a charge of forgery, and taken to Fort Saskatchewan on a warrant issued by the Calgary police. The time for which he was held was committed at Stettin on July 10. It is alleged that he obtained money there by forgery, and went to Calgary, where he made an attempt to cash a forged check in the name of R. A. Beggs, of Davisburg. It is stated that he sent the check to the Merchants Bank in London, and that the bank, after receiving the check to be a forgery, and informed Acting Chief MacKie of the circumstances under which they had received it. A warrant was issued and the defendant arrested.

EXPERIMENTS WITH WHEAT

British Government Official Trying For Better Grain.

Ottawa, Aug. 7.—Experiments which are being carried on by Prof. F. B. of the British department of agriculture, with the object of improving the milling quality of British-grown wheat, are described in a report by the trade and commerce department by the Canadian trade agent at Leeds. Canadian red wheat is being used, and it is hoped to combine the milling qualities of the Canadian wheat with the growing qualities of the British product. Prof. Biffen expects that as a result of the experiments, the value of wheat will be increased from two to five shillings on every eight bushels. The Leeds agent reports that there is likely to be a short apple crop in England.

A KINGSTON DROWNING.

Kingston, Aug. 6.—This afternoon at 3 o'clock a drowning accident occurred in the harbor. Mr. and Mrs. Charles Steer, Rideau street, and Samuel Murray, 408 Montreal street, were out rowing in Navy Bay. Murray, who was rowing, was changing places with Mr. Steer when the craft split up. Murray was rescued by Ernest Stranbridge, of the Royal Military College, and Dr. Bogart succeeded in resuscitating him. Mrs. Steer was drowned. She was an English woman and leaves a large family of children.

COLLIDED WITH DREDGE.

Amherstburg, Aug. 6.—The steamer Louisiana, bound up with coal, collided with the dredge Columbia, of the Great Lakes Dredge and Dock Company, near Bar Point, at 7 this morning. The dredge is being towed to dry dock. The steamer proceeded with badly-twisted stem.

SWEDISH TROOPS HAVE MUTINIED

Serious Situation Reported From Northern Part of the Country.

Stockholm, Aug. 7.—Swedish troops in the northern part of the country have mutinied, and the Government is much concerned. The mutiny broke out at Falun and the other at Soletta, are affected. They are stationed in the northern country, where labor disturbance was started in the timber trade, and the Government has been haunted by the fear that the soldiers' sympathies were with the strikers. The mutinous troops have been confined to their barracks.

The executive committee of the Swedish union, at a meeting held today, decided to call out all the printers throughout the kingdom. The grave-diggers have defied the orders of the labor union to return to work and have rejoined the strikers.

The entire jubilation in Stockholm shows no improvement today, and the strike continues. The hopes of yesterday that the men would withdraw from their extreme attitude have not been fulfilled.

THE THAW CASE

Jerome and Morschauer Sum Up and the Trial Closes.

White Plains, N. Y., Aug. 7.—Closing arguments were heard by Supreme Court Justice Pitkin today in the application of Harry K. Thaw for his release from the Matteawan insane asylum. The crowd that gathered in expectation of the display of oratory, which marked the closing of the homicide trials, were disappointed. There was no jury to persuade, nothing but a cool-headed trial, and the judge, who had listened intently and made copious notes on every bit of testimony, and Attorney Charles Morschauer and District Attorney Jerome made their final pleas.

Each was confined to an hour, and both had said that they did not need as much time as this.

STRIKE CALLED OFF

Chicago Street Railway Companies Not Likely To Be Tied Up.

Chicago, Aug. 7.—It was the popular opinion today that peace would be maintained between the street car companies and their employees. Mr. Mitten, of the Chicago City Railway Company, intimated that he was willing to grant the required advance in wages provided the men would sign a three years' contract. The union, of the north and west side lines, said he would go as far as Mr. Mitten in this direction. Motormen and conductors seemed justly satisfied with the prospect of peace. They voted to "stand by the demand made upon the companies," but it is said without any real idea that a strike would become necessary.

Mr. Mitten was in his office early, prepared to meet a committee representing the men of his road, to discuss conditions.

GYPSY KING IS MADE FREE MAN

Joseph Adams, of Missouri, Cannot Be Tried in Canada.

Detroit, Aug. 7.—After many months of litigation and repeated attempts on the part of the Canadian authorities to extradite Joseph Adams, of Missouri, who is wanted on a charge of embezzlement in Sandwich East, the "King of the Gypsies" is now a free man.

All charges against Adams were ordered dropped by United States Commissioner Coats, of the Missouri district, at the beginning of this week.

The embezzlement charge against Adams was brought by Nikola George, head of the tribe of gypsies who for years made their headquarters in Sandwich East. George it is said, paid over to Adams on the promise that he would secure the entire band's admission to the United States. Adams, of course, beyond Adams' power and he skipped across the border with the money. He returned to his home in Missouri, where he was arrested.

Adams was taken to the Kansas City courts. During this trial Adams brought forward about 20 witnesses, each of whom swore that he had seen Adams in Missouri. This testimony was contested by the United States marshal at Kansas City, who stated that he met Adams leaving the United States for the first time, and that the man had informed him he had just come from Canada. To combat this testimony Adams swore that he was in Milwaukee during his absence from home.

Both the authorities and Adams, who is very wealthy, have spent thousands of dollars in the conduct of the case, and the "Gypsy King" was acquitted of the charge over two weeks ago, but was re-arrested and the trial continued until this week.

"Adams succeeded in slipping out of the toils by means of a technicality," said Attorney Fleming yesterday. "I have just received word from Provincial Detective Mahoney, now in Los Angeles, telling of Adams' flight, and expect a letter soon with more information." Mr. Fleming is acting in behalf of Nikola George, the complainant.

BOLIVIAN CONGRESS.

Lapaz, Aug. 7.—The Bolivian congress was opened today with all solemnity by President Montes. The ceremonies were preceded by a parade of the troops. The president read a long message to congress, in which he explained the status of the country's foreign relations. He left it to congress to decide whether or not Bolivia should accept the decision in the boundary dispute with Peru, handed down recently by President Alcora of Argentina. He said that Bolivia's relations with the United States were friendly, and he hoped that the present situation would not cause any difficulty with that country.

President-elect Eleodoro Villazon will assume office on Aug. 12.

SVANBERG SAILS.

New York, Aug. 7.—John Svanberg, Marathon runner, sailed today on the steamer Victoria for Sweden, where he will rest for the summer before his coming contest in this country next winter.

Svanberg said he was greatly disappointed because he was unable to get a match with Alfred Shrubbs, the English runner, for a 15-mile contest.

MINARD'S LINIMENT FOR SALE EVERYWHERE.

THE POULTRY BREEDERS HAVE FINE MEETING

London Association Reports Increased Membership and Much Enthusiasm.

The London Poultry Association held its monthly meeting last night in the rooms, Albion Block, with a very large attendance. This old association continues to grow stronger every month, no less than ten new members being received. After the regular business had been transacted a pair of Light Brahmans were scored, and criticized by President McNair in his usual careful and able manner, giving much useful information to breeders of this variety.

It is the intention of the members to send a large exhibit of birds to the Canadian National Exhibition, which is expected to be the largest in years, as a large entry is expected from Alstons, as besides the Canadian judges some of the best from the other side will be there.

Great interest is being taken in the Western Fair this year by this association, and final arrangements were made to have a display of the best cups and other special in good shape to be handed over to the fair board immediately.

On the subject of Vice-President James McCormick, it was decided to hold a Thanksgiving show this year as usual final arrangements to be made by the directors. The next meeting will be held in September, the date to be fixed by the secretary.

THE CEMENT MERGER

Is Now Assured and Will Embrace All Canadian Companies.

Montreal, Aug. 7.—As the result of further arrangements effected within the past few days the success of the big cement merger is now absolutely assured, and it is learned that the new consolidation will embrace all the cement plants in the Dominion. The charter for the new company, which will be known as the Canadian Consolidated Cement Company, has been applied for, and a few formalities remain to be completed. The capitalization of the new company will be \$30,000,000, instead of \$25,000,000 as first contemplated, of which \$11,000,000 will be 7 per cent preferred stock and \$19,000,000 common stock. There will also be a bond issue of \$5,000,000, the bonds bearing 5 per cent.

It is understood that the Bank of Montreal will act as bankers and the auditor during the first year of the consolidated company. J. S. Irvin, managing director of the International Portland Cement Company, announced today that the merger had been practically completed.

REVENUE INCREASING

A Handsome Gain for First Four Months Recorded.

Ottawa, Aug. 7.—The revenue of Canada shows a handsome gain for the first four months of the present year. It totals \$30,030,311, an increase of four and a half millions.

During July the revenue was \$8,427,438, or a million and three-quarters more than during the previous July. The increase in revenue came chiefly from customs collections, which show a gain of three and a half millions during the four months.

There was a decline of a hundred thousand dollars in excess collections, and increase of \$25,000 in the postal revenue, and \$2,000,000 from railways and public works.

The expenditure on consolidated account for the four months, as far as the balance sheet is concerned, was \$2,400,000, which is an increase of about three millions.

The expenditure on capital account, as far as the balance sheet is concerned, is six and a half millions, an increase of about a million.

NEW KIND OF HUNT

To Kodak Wild Animals of Africa From a Balloon.

New York, Aug. 7.—W. D. Boyce, of Chicago, left here yesterday on the Mauretania of the Cunard Line to complete preparations for a trip into East Africa, where he hopes to obtain photographs of the natives and the animals of that country from a balloon. In this way it is the hope of Boyce that he will be able to bring back pictures that will greatly enlighten the people of the United States as to life in "Darkest Africa."

Those associated with Mr. Boyce in this camera hunt are George R. Lawrence, his son, Raymond; E. S. Caywood, and C. A. Hughes. Mr. Lawrence is the chief photographer of the expedition. According to Mr. Boyce, these men will leave here on the Hamburg, of the Hamburg-American Line, and will be back in New York on the Mauretania, Aug. 26, and the whole party will embark Aug. 30 for Mombasa, British East Africa.

On the Hamburg will go a novel equipment. There will be three balloons, forty aeroplanes and thirty cameras. These cameras will range in size from 22 by 35 inches down to 3 1/2 by 5 1/2 inches. Most of the work will be done by flashlight, the animals being attracted by a light in a captive balloon and the cameras and flashlight worked by those in the balloon.

Mr. Boyce is not a photographer himself, but is leading the expedition because of the ability of the men and the excitement of the novel and bloodless hunt. He said he hoped to complete the work by next spring and be in London by March 1 next.

IN PERIL OF FLAMES.

New York, Aug. 7.—Two hundred and four inmates of the House of the Good Shepherd in East Nineteenth street, near the East River, fled from the main building to the courtyard today, where they were surrounded by fire. The girls ran into the courtyard and the policemen threw stones at the heavily screened windows and the flames were extinguished. The fire alarm was then sounded and the girls ran into the courtyard and the policemen threw stones at the heavily screened windows and the flames were extinguished. The fire alarm was then sounded and the girls ran into the courtyard and the policemen threw stones at the heavily screened windows and the flames were extinguished.

A passing policeman who discovered the blaze and was bursting from the windows on the second floor, experienced great difficulty in arousing the occupants, most of whom were girls, and whose chambers were on the third floor. The gates of the tall iron fence were locked, and the policeman threw stones at the heavily screened windows and the flames were extinguished. The fire alarm was then sounded and the girls ran into the courtyard and the policemen threw stones at the heavily screened windows and the flames were extinguished.

The successful development of the activity of the association will essentially depend upon the position taken by the association in the matter of increased inter-colonial trade between the two countries. For this reason it is desirable to bring the existence of the association to the notice of Canadian business and economic circles, and to invite them to consider the advisability of taking part in a membership from Canadians, who can communicate with Dr. E. J. Neisser, secretary and manager.

Baby's Health

The best way to guard the little tot's health during the coming warm weather is to feed him only wholesome food. Infant foods that have been made by the best of the only wholesome food. Such foods are quite sure to have undergone a change that will make them quite safe for the delicate stomach. Baby foods must be fresh, and we handle our stock in such a way that the freshest foods can ever be found here.

Strong's Drug Store

184 DUNDAS ST., London, Ont.

STRONG'S CARMINATIVE will keep the baby good-natured. A mild medicine which regulates the system—prevents peevishness—restlessness—and the disorders of the teething period. Price, 25 cents.

Personal Mention

The Misses H. and E. Duncan, King street, are spending a month visiting relatives and friends in Springfield, Albion and Lansing, Mich., before leaving for California.

Mr. George Southcott has returned home after a week's holiday at Grand Bend.

Miss Beesie Madgett, of Bay Street, Hamilton, is spending her vacation with Mrs. R. J. Rawlings, 111 Chesley avenue, city.

Miss Stella Southcott, of Exeter, has returned home after a pleasant visit with her aunt, Mrs. R. J. Southcott, 1 Maryboro Place.

Miss Edythe Bugg, of Wellington, has returned home after a week's holiday at Locust Nook, Port Stanley.

Miss Ivy Campbell, Hill street, left this morning for Toronto, to spend her holidays.

Mrs. Harry Ranaiah and Miss Jean Pye returned from a vacation from ten weeks' trip to the coast.

Mr. Wm. Grant, of this city, has joined the staff of Wilson Bros., merchants, Thames street, Woodstock.

Mr. R. C. Teller, of the C. & P. R. staff of this city, has returned home from Nantasket Beach, Boston.

Miss Winifred Element, of 257 Princess avenue, is visiting relatives in Toronto for two weeks.

Mrs. Dean and family have returned home after spending a month at Chestnut Grove, Port Stanley.

Mrs. Edward T. Dibb, of 244 Horton street, has returned from Toronto, after spending a pleasant time there.

Mr. Wm. London and son Lloyd, of Cincinnati, are visiting Mrs. London's sister, Mrs. Albert Templar, 54 Beaconsfield avenue, South London.

Master Wilfred and Gordon Campbell have gone to Conibur to spend the remainder of the vacation with their aunt.

Miss Winn, 350 Central avenue, is spending a delightful vacation with the Misses Welsh, Willow Farm, Exeter.

Misses Cora and Irene Russell, of Yorkers, N. Y., are visiting their uncle and aunt, Mr. and Mrs. Edward Dibbs, of 244 Horton street.

Mrs. John Croden and Miss Minnie Croden, of Wellington street south, will leave shortly to visit Hallsport, Mont., and also the Seattle exhibition.

The Misses Wallace, of 82 Blackfriars street, West London, left this week for an extended visit to friends in Paris, St. Catharines, Niagara Falls and Toronto.

Mr. John J. Dyer, of Stirling and Dyer, left tonight for Vancouver, where he will look over the Vancouver branch of their business. Mr. Dyer will also be attending the Seattle exhibition before returning.

Mr. and Mrs. C. A. Whitlam, London, Ont., announce the engagement of their niece and adopted daughter, Janet, to Mr. Harvey Scarff, of the Imperial Bank, Ingersoll, son of Mr. and Mrs. James Scarff, Woodstock. The marriage will take place in the autumn.

Mr. and Mrs. W. J. Sparkman and Miss Gladys Sparkman have arrived in the city from the Pacific coast, where they have been spending the past five years. They visited the coast for some time, and will spend the winter, and will be at home to their friends in September.

TO ADVANCE TRADE

German-Canadian Association Founded in German Capital.

From the German-Canadian Economic Association in Berlin-Charlottenburg, Germany, comes the following statement bearing on the object and aims of this body. The association is composed of a number of manufacturers and merchants of the Kaiser's empire, who are interested in Canadian trade.

It was established at the end of last year under the presidency of Dr. C. Stresemann, a member of the Reichstag. The general purpose of the association is to further the economical relations between Germany and Canada. The efforts of the association will be directed in the first place towards improving the commercial conditions under which at present the trade between the two countries is carried on. But beyond this the association regards it as pre-eminently its task to continue to develop and direct into new ways the business and cultural relations of the two people.

Although the association is yet young, it includes in its membership a significant number of prominent business houses, manufacturers, importers, exporters, and economic bodies. Further, the efforts of the association are encouraged by the most important transportation interests, for example, the Canadian Pacific Railway Company, the Hamburg-American Line, as well as by large banking institutions.

The successful development of the activity of the association will essentially depend upon the position taken by the association in the matter of increased inter-colonial trade between the two countries. For this reason it is desirable to bring the existence of the association to the notice of Canadian business and economic circles, and to invite them to consider the advisability of taking part in a membership from Canadians, who can communicate with Dr. E. J. Neisser, secretary and manager.

YOUR SAVINGS ACCOUNT

MAY BE SMALL at first, but the noticeable feature of Bank of Toronto Savings Accounts is that they grow.

We are constantly opening accounts for small sums, but these usually increase to amounts that are very satisfactory to both Depositor and Banker.

The first deposit acts as a magnet for the odd amounts that are so apt to be wasted.

THE BANK OF TORONTO

THREE OFFICES IN LONDON.

Marine

Manitowoc, Wis., Aug. 6.—With a blinding flash, followed by a mighty roar of thunder lightning struck the car ferry here at Manitowoc, Wis., on Wednesday night. Capt. La Fleur and his mate were knocked to the deck of the pilot house and stunned.

The wheelsman summoned several deckhands, who carried the semi-conscious officers to their respective cabins. There after first-aid-to-the-injured remedies were applied for some time, the two were able to cast off the strange feeling that came over them when the ball of fire bounded across the deck.

All the lights on the ferry were put out by the lightning, which, after leaving the ship, flashed its way to the steamer Durham, lying in the harbor loaded with coal. It damaged the latter vessel, but not to such an extent that she was not able to proceed.

Port Huron, Mich., Aug.
