Prices are settling downward, with enormous production, but the fact that such production continues shows that the low prices are not ruinous.

Alarm about the money market has passed, and no disturbance need be apprehended this year. Industries are, on the whole, well employed, and it is especially noteworthy this week that there is a better tone in branches of trade which have been most embarrassed. A distinctly better tone in woollen goods is due to the appearance of a spot demand, clothiers having worked off old stocks to a great extent. The demand for overcoating and heavy goods is stimulated by the cold weather. Wool sales continue of good volume, though the western fleece is rather weaker. No important change

appears in boot and shoe manufacturing, but bet'er orders and increased employ ment of works are noted. The most stubborn iron market ever known gives sur-Eggs, 18 to 20 cents a dozen.

The speculation in corn is yielding. Pork products are substantially unchanged, and oats are half a cent higher. Oil has declined a cent, but sugar is a shade stronger, and coffee has risen 3-8 on account of the and coffee has risen 3-8 on account of the Brazilian troubles, which render commerce with that country peculiarly uncertain, Cotton receipts continue to exceed last year's week by week. There was a de-cline to 8.06 cents, but the price recovered on Liverpool buying to 8.12, sales here being 800,000 bales for the week. The money markets of the country are well supplied for legitimate needs, but some points report speculative money tight. One danger is that a great quantity of wheat is now carried abroad, as well as in this country in margins and loans, and there is a probability that a sharp decline might

cause some trouble. The business failures during the last seven days number for the United States 252, and for Canada 33, or a total of 285, as compared with the totals of 291 last week, and 266 the week previous. For the corresponding week of last year the figures were 274, representing 247 failures in the United States and 27 in Canada.

we have an eight page series of colored sketches vividly depicting the adventures in the French Canadian backwoods of a typical John Bull, whose previous shooting experiences had been of the most limited character. The narrative is in dialect, and from the pen of the author of "Lac St. Pierre" and other comic sketches.

With the above array of pictorial supplements added to a beautiful volume comprising THE BEST LITERARY WORK OF THE KIND OBTAINABLE IN CANADA, the publishers do not exaggerate when they state that they are offering to the Canadian public THE FINEST CHRISTMAS NUMBER EVER PUBLISHED.
