

THE TORONTO WORLD.

TUESDAY MORNING, NOV. 4, 1884.

THE STUDENTS OUT AGAIN.

Startling scenes in the streets of Toronto.

Had the general public had a glimpse of the black boards at the medical schools yesterday afternoon they would have known that something unusual was about to happen.

By a preconcerted action, by bullbaiting, by telephone, Toronto, Trinity, Variety and Yets were told to be on hand, and on hand they were and soon after a o'clock several hundred students gathered and paraded the streets.

There is a gang of well-dressed young fellows who make a practice of congregating on the corner of Simcoe and Nelson streets every night and insulting passers-by. They should be looked after.

J. E. Fell warns the benevolent against a man who gave his name as Harold Northcote, and states that he is the nephew of Sir Stafford Northcote. He is a fraud, and travels in college dress.

The standing committee on school management of the public school board will meet this afternoon at 4.30 to investigate charges preferred against the headmaster of Mabel street school by Dr. McCone.

While Wm. Wilkinson and one of the stage hands of the Grand were fooling yesterday, an open pen knife which the carpenter was using slipped and cut Wilkinson on the back of the left hand, inflicting a severe wound.

The cheapest trips to and from England, Ireland and Scotland can be obtained at the office of the Allan royal mail steamship line, 18 Queen street west.

Now Sir John Once Won a Hat. It was when the old parliament of Canada sat in Quebec. John A. Macdonald, Tom Daly, David Straton, Peter Mitchell and poor old Gladstone from New Brunswick sat in the smoking room discussing a bill of Mackenzie's that was to be brought up that night.

When the procession had reached the corner of York and King street the conditions were changed. Like the elements of gunpowder, the students and the "hoboes" are harmless when separated; but bring them together and a very little spark makes a very big row.

When the procession had reached the corner of York and King street the conditions were changed. Like the elements of gunpowder, the students and the "hoboes" are harmless when separated; but bring them together and a very little spark makes a very big row.

Much curiosity was aroused as regards the captured individual. He turns out to be a shoe-maker from Ontario and is said to have been caught in the act of throwing a stone at a constable.

This was the finale: the students returned to their books, and the town quieted down.

A meeting was afterwards held at University college at which the students representing all the different schools were present.

The object of this was to consider the best means of appealing the decision against John L. Boyd and to prosecute the constable who struck Crawford without provocation.

A committee was formed consisting of Messrs. Baldwin and Darling.

The enthusiastic spirit evinced on all sides is plain we have not heard the end of students versus police yet.

Civic Annexation. Editor World: In today's issue of the World Mr. Turner has given expression to extreme views respecting the extension of our city limits and those who reside in East Toronto endorse his sentiments, and a petition is being signed in favor of annexation to the Don river, so that they may get police protection and sanitary improvements carried out.

An anomaly to divide property at the athletic grounds and leave out those romantic valleys that give character and beauty to North Toronto.

His Honor to the Rescue. Frank Power, a well-known English newspaper man, is gifted with a vivid imagination. "A little while before he went to Egypt he was sitting with some friends. 'You know,' he said, 'that I once held high rank in the Austrian army.' The friends said that they learned this for the first time, and he proceeded: 'Well, I went back a few months ago to Vienna, and went to see a play at the Burgtheatre. The empress of Austria was seated in a box, surrounded by her ladies and gentlemen. She recognized me at once, and sent a chamberlain to desire me to come up to her. I found her majesty alone in a small retiring room behind her box, and she pointed to a seat. Then he paused. 'Go on with your story,' said a friend. 'Continued, he continued, 'as an officer and a gentleman, you must allow me to say no more.'"

The Next Great Invention. "What is the next great invention?" was asked of Edison the other day. "I wish I knew," he answered. "It will probably be in the line of obtaining a simpler propelling power for those new-fangled cars of this century—trying experiments on force derived directly from solar heat—oh, no, not the old calorific engine, but a force obtained by concentrating the sun's rays to a focus. He has small machines running in that way—the only question at present being whether it is worth while. I'm busy trying to extract electricity from coal without the present friction and waste—that is, which is burning it and running the force through an engine. The thing has already been done you know."

A letter from Harry Norman, the manager of the St. Quinten opera company, states that they are doing a good business and they are not in difficulties as reported. They play in Owen Sound to night.

LOCAL NEWS PARAPHRASED.

Fifty children for Miss Rye's Niagara home arrived in the city last night. They came over on the Parthian.

By a bright car getting off the track up the line the evening train on the Northern was several hours late last night.

The court of revision yesterday threw out all of E. A. Mackenzie's appeals against assessments in St. Matthew's ward.

The friends of the small boy Murphy, who was run over by a car at Queen and Yonge streets two weeks ago, threaten to bring an action for damages against the street car company.

There is a gang of well-dressed young fellows who make a practice of congregating on the corner of Simcoe and Nelson streets every night and insulting passers-by. They should be looked after.

J. E. Fell warns the benevolent against a man who gave his name as Harold Northcote, and states that he is the nephew of Sir Stafford Northcote. He is a fraud, and travels in college dress.

DOMINION DASHES.

A car load of fowl was last week shipped from Ontario to New York.

A branch of the Ontario school of art has been opened at Kingston.

"Pay up, pay up," is the cry of the country merchants to the farmers.

It is estimated that over 22,000 immigrants have arrived at Winnipeg this year.

St. Thomas parson has abandoned the pulpit for the more exciting life of a tea agent.

Quebec farmers are forwarding large quantities of cabbages and turnips to Montreal and the west.

A little son of Peter Wilson, Rothway, was fatally burned last week, his clothing having caught fire from a stove.

Admiral Lyons treated the residents of Victoria, B.C., to a sham battle between his fleet and a body of troops on shore.

The new Catholic church at Oastio, Brantford township, has been dedicated with the usual ceremony. It cost \$5000.

Hinking bees are all the go in Kent county. Grand suppers, heaps of fun, lots of dancing and little work compose the program.

Out of four thousand men employed in the work of construction at the Rockies this year eight hundred died from disease and accidents.

Halliburton stands at a higher elevation than any other village or town in Ontario. It is nearly a thousand feet higher than the level of the lake Ontario.

The students of Leval, at a recent meeting, decided to protest against the order of the university which compels them to attend lectures in college dress.

The Durham Chronicle will not be published this week. Not because the editor is enjoying a holiday, but that he has a libel suit on hand at Oshawa.

The lumber in Mr. Chubb's yard and saw mill at Bright, were destroyed by fire on Friday morning. Loss \$14,000; no insurance. Supposed work of an incendiary.

Charles McKnight, a hay fore agent living at Warwick, has emigrated to Michigan, leaving a number of business men and farmers sundry debts to remember him by.

Four young men who recently broke up a private party at Weidman, have been fined heavily by Judge Robinson of Sarnia.

Charles Mackenzie, a hay fore agent living at Warwick, has emigrated to Michigan, leaving a number of business men and farmers sundry debts to remember him by.

The Flesherton Advance has been informed that there are and have been disciples of Brigham Young in Proton for some time past. They are being hunted by a number of Protestants who have converted to the faith, and that a number have already departed for Utah.

A Good Guarantee. H. B. Cochran, druggist, Lancaster, Pa., writes that he has guaranteed over 300 bottles of Borden's Blood Bitters for dyspepsia, bilious attacks and liver and kidney troubles. In no case has it disappointed those who used it. In Canada it gives the same general satisfaction.

A Trip to Chicago. The Evening Standard writes that the Inspector of prisons, Mr. Christie, tells a story which shows what a boy can do with a dollar. The little fellow in question was an inmate of an institution in Toronto, and made his money at selling newspapers.

Turn-down collars and cuffs of pure white velvet are worn with dark cloth dresses of a very effective.

Many of the fall frocks are arranged in front with a row of velvet or plush, that serves also as a muff.

Birds, with feet turned up through the wings and covered with gilt, form fashionable trimmings for hats.

Among the newest fashions in lace-trimmed hats are those made of diamonds, emeralds and rubies to represent a peacock feather.

Pale blue and olive-green is a fashionable color for autumn frocks. This is none the less a French dressmaker to harmonize the colors.

The newest purses are made of dusky gold twine and are netted. The silvete hoops that hold them are engraved with the monogram.

A new fancy is to wear the bang in three curled rows, the second one being a half inch shorter than the first and the third an inch shorter than the second.

The reason why "nough Compound" should be used in preference to all other washing preparations. First, it is perfectly harmless. Second, it saves more than half the labor. Third, it is the cheapest in the market. Many more can be given but this should be sufficient. For sale by all grocers. Lowden & Co., Wholesale Agents for Toronto. 2-4-5.

Catarb—A New Treatment. Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Duxbury treatment for catarb. Out of 3000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that the disease is due to the presence of living parasites in the eye. It is not a matter of time, but of degree. The most successful treatment is the regular practitioner or the specialist with the patent medicine and all other advertised cures never record a cure at all. Starting with the claim now generally believed to be the most scientific, the disease is due to the presence of living parasites in the eye. It is not a matter of time, but of degree. The most successful treatment is the regular practitioner or the specialist with the patent medicine and all other advertised cures never record a cure at all.
