## THE TORONTO WOBLD ON THE TURF AT NIAGARA

THESDAY MORNING, SEPT. 6, 1887.

The Toronty Industrial and the Dominion.

Exhibitions combined will be formally opened to-day by the Governor General. All the indications point this year to a most successful Exhibition, and in the number of exhibits and in attendance the records of former years, though great, will be surpassed. The outside attractions are also interesting and numerous. Toronto has got up a good two weeks program and she invites the farmers and citizens of this great province and of the Dominion at large to come forward and participate in the feetivities. The railway fares to Toronto are low, our hotels are numerous and large, our feetings of this great province and of the Dominion at large to come forward and participate in the feetivities. The railway fares to Toronto are low, our hotels are numerous and large, our manufacture of the present and following weeks. Ring up the curtain and let the fat ox be introduced?

The Canadian Farmer speaks For Hismaelf.

The advance guard of "helpless and hopeless Canadian farmers" reached Toronto yesterday, and to-day the main body is streaming into town. They do not come as they would have come had Mr. Wiman's famous description of them been any more accurate than are the majority of his statements in that contention:

Hark! the dogs begin to bark,

Hark! the dogs begin to bark,
The beggars come to town;
Some in rags and some in jags,
And ope in a torn gown!"

Upon the contrary, the Canadian farmers come to town, some in cars and some in carriages, and all well dressed, with wherewithal in their pockets and an embarrasument of riches for exhibition. As a class they compare favorably with any other class in the community. There is a greater percentage of farmers in the enjoyment of all the comforts and many of the luxuries of life than there is of any other class in Canada. There are few states of the Union that can produce as prosperous, progressive and intelligent farmers as may be seen by the thousand in the capital of Ontario during the present week. Retween them and the struggling agriculturists of the Southern and Western States of the Union ti is simply Bengal tigers to singed cats. He anything could shame the Wiman-Butterworth combination and their Toronto organs into a decent silence this practical demonstration of the difference between the Canadian farmer as they have pictured him and the Canadian farmer as they have pictured him and the Canadian farmer as they have pictured him and the Canadian farmer as be is would do so.

Why Ceal is Beart.

\*\*EQUIRTH RACE—Brewers purse, 2500; 2 to 10 to 3 to 5 to 10 to 5 to 5 to 10 to 10 to 3 to 10 to 10 to 3 to 20 to 3 to 20 to 20

why Coal is Dear. According to some who have been investigating the matter, coal has gone up to high figures lately, not altogether because of combination among the operators, although that is always to be counted on—but in great part because of fack of transportation facilities and higher railway freights. And for the higher regibts the new Interstate Commerce Law is mainly blaned. Thus we have the thing explained in one American paper;

The real cause, according to intelligent authorities on the coal question, is to be found in the lack of facilities for transportation. There is much more to be carried between the

ust be paid for at a higher rate, a remedy for this condition of things will and in the readjustment of the proportion of the supply and demand of transportateween the east and west. For some

Now, business is very active, and the supply of transportation facilities falls below the demand. This condition will result in the building of new vessels and the increase, in every possible direction, of means of transport. It will not be long before this increase will have

bear it for a while.

The Hamilton Spectator points without pride to Ireland as a fine sample of the results of political commercial union, which threw her people entirely upon the land and left her farmers without home markets such as only a manufacturing population can supply. "Manufacture nothing at home, but export all your raw material" is the cry here as twas there. Left we all the cry here as the control of the cont threw her deeple entirely upon the such as only a manufacturing population can supply. "Manufacture nothing at home, but export all your raw material" is the cry here as it was there. Let us add that the Irish Parliament was "boodled" into consummating the union, and there is "boodle" ready to provide our Parliament with similar "reasons" for doing likewise. Considerable of that "beodle" is being expended upon preliminary the being expended upon preliminary and the being expended upon preliminary the being expended upon preliminary that we have no fear that the balliance where the being expended upon preliminary that we have no fear that the balliance where the balliance was a supplied to the provide our particles. The provide the provide our particles are the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the balliance was a provided to the provided that the provided that the balliance was a provided that the provided th trols the Canadian Parliament.

was rue msane," queries The Globe in a question only two columns long. No! But the editor who clamored for his life until he died, and then clamored for mercy for him, naust have had a vacuum under his hat.

Batteries: Clarkson and Flint, Getzein and Bennett.

At New York: Washington. 000100000 Reference.

The Hanover Post tells of a great Canadian hen in that bailiwick which "laid four eggs at one sitting and then fell dead upon her nest." Brave but misguided Canadian hen! "Twas ever thus!, Thou hadst read "Ras" speech to the effect that eggs and broilers could coin money in New York were the duty thereupon removed, and thou didst die for thy country amon that understanding, but couldst thou The Hanover Post tells of a great Canadian Br have lived to know that have flapped the said, there being no duty upon fowls or their eggs, thou wouldst have flapped the American Association Baseball Clubs met in conference here to day. After the magnates

## THE CANADIANS AMONG THE WIN-NERS YESTERDAY. and the same

NIAGARA FALLS, N.Y., Sept. 5.-This was an Niadara Falis, N.Y.; Sept. 5.—This was an extra day, and it being a holiday in this State there was a large attendance at the races. The weather was fine and warm, the racing good and the betting lively. The Canadians were successful in two events, Roddy Pringle pulling off the first race in fast time from a field of twelve and Valour winning the steeplechuse. It was a bad day for the favorites, none of them being able to finish in front.

will not be long before this increase will have the effect to lessen the pressure for transportation, and the prices of freight, including coal, will fall probably below the average, with the consequence that fuel will be as much below what it abould be as it is now above a fair value.

Across the lakes, as a general thing, the retail buyer has to pay 50 cents more per ton for his coal this season than he had to pay last. Apparently all we can do is to grin and

R. H. E. 2 0 0 0 1 2 0 0 2 - 4 7 4 2 0 0 0 1 0 2 9 - 14 23 3 lain and Cross, Toole and

their eggs, thou wouldst have flapped thy wings and cackled unto him: "Hens, horrid egotist, hence!"

An English member of Parliament, and of the good old name of Stanhope, faking part with Irish Nationalists in defiance of the Crimes Act, as their spokesman, looks odd. Mr. Stanhope practically says: "Put me in fail along with the others." None of them was put in jail, though all had rendered them alves liable to arrest, which is in Ireland the eddest thing of all.

It has come to pass that those able London ditors who assailed The World as a sensationalist, because it alone gave the bottom facts of the London financial trouble, did not go upon Henry Taylor's bond after he had been arrested, and that he had therefore to go without bail. Friendship is mighty cheap so long as a man does not want it, but when he does need is at generally comes too high to the content of the gate receipts of the gate receipts to the putter area of the gate receipts of the gate receipts of the sach.

The list action of the afternoon session was the vote to exclude Mr. O. P. Caylor retired in very bad humor. After the discussion of some miner matters the question of the adoption of the percentage system came up. Mr. Byrne and afterwards unanimously adoption of the Brooklyn club proposed a scheme for the percentage of the gate receipts to go to the visiting club, with a guarantee of at least \$150. A resolution was adopted that a fine of \$150 should be imposed upon any visiting club, with a guarantee of the unspire. The fine was to be taken from the gate receipts of the game at which the dispute arose, or if the visiting club's receipts were not sufficient, the fine was to be collected at future games. The fine is to be given to the disappointed club. Several names of would be imapped.

committee, and "Jerry" Sullivan was chosen EVIDENCE BY ALDERMEN

The Bankers Win.

A match was played yesterday afternoon on the Toronto Grounds between two teams representing finance and law v. bankers. The bankers won by a score of 18 to 17 in five innings. The teams were:

Bankers: Meldrum, Charlie Maddock, Conolly, Bothune, Scott, Cowan, Rankin, Downing and Netherley. THE WIMBLEDON TEAM LIST.

From These will be Chesen the Riflemer Who will Represent Canada Next Year.

OTAWA, Sept. 5.—The list telegraphed or Friday night as the Wimbledon team gave only the twenty highest, a number of whom may not be able to go. The following is a complete list of the sixty from whom the team of twenty will be selected, in the order in which they stand on the list:

t E A Smith, St John Rifles. Sgt Case, H.G.A.
Lt H. C.Chamberlain, 43d.
Staff-Sgt W Ashall, Q.O.B.
Lt O K Piske, 68d.
Lt J Dover, 78th.
Pte W S Duncan, Q.O.R.

NEW YORK, Sept. 5.—Capt. Barr of the Thistle says he will not take out the yacht again until the City of Rome comes in on Wednesday, with Mr. Bell, the yacht's owner, aboard. Then he will pack on all sall and give her owner a view of her from the steamship's dock.

THE MEDICAL CONGRESS.

Theatre to-day. Sir James Grant represented Ontario on the platform. All the sections are crowded, continental representative men being here. The papers are of a high class. Dr. Bryce of Toronto presided to-day in the dimatology and demography section. A paper will be read to-morrow on artificial climate, by Dr. Cameron of Montreal, and a paper on Tuesday on the influence of leukamie on pregnancy, by Dr. MacCallum of Montreal.

Drs. Ghantock, Grailey and Hewitt of London, England, are here.

Drs. Charles O'Reilly, Burns, Temple, J. E. White, John King, Wm. Canniff, and Bryce of Toronto; Sullivan and Dickson of Kingston; Rae of Oshawa, Hingston, Cameron, Stewart and MacCallum of Montreal; Hewitt and Mo-Phatter of Guelph; Sir James Grant of Ottawa, Moore of Brockville, Olmstead and Leslie of Hamilton represent Canada.

The Pilgrimage to Hawarden.

LONDON, Sept. 5.—Many noted Americans went to Hawarden yesterday to pay their respects to Mr. Gledstone and attended church, where he read the lesson of the day. After service the path from the church door was lined on both sides by American visitors who greeted Mr. Gladstone with much warmth as he passed on his way home. He returned each greeting cordially.

—Ayer's Ague Cure acts directly on the liver and bill-ary apparatus, and drives out the malarial poison which induces liver complaints and billous disorders. Warranted to cure, or money refunded. WITNESSES EXAMINED YESTERDAY Council oresiding.

Ex-Aid. George Evans and Daniel Lamb and Aid. Honison Consider Nr. Venables a Competent Official — The Slip-Shod Methods of Old.

All. Besies Consider Nr. Vesibles a Competent official — The Slip-Shed Methods of Old.

Judge McDougall satin the Council Chamber yesterday and resumed the waterworks or quirty.

James McKenzie, weighmaster at the pumping house, examined by Mr. Keni, said that when possible he kept a separate account of the coal somework by Mr. Keni, said that when possible he kept a separate account of the coal somework by Mr. Keni, said that when possible he kept a separate account of the coal somework by Mr. Keni, said that when possible he kept a separate account of the coal somework by Mr. Veniligion engines No. 7 bollers had not been in commission since March last, being under repair.

Mr. Kent proceeded to examine the witness as to the amount of coal consumed by the different request of the Judge it was decided to tabulate a statement on the point and have it submitted. Witness undertook to have the request of the Judge it was decided to tabulate a statement on the point and have it submitted. Witness undertook to have the request of the Judge it was decided to tabulate a statement on the point and have it submitted. Witness undertook to have the request of the Judge it was decided to tabulate a statement on the point and have it submitted. Witness undertook to have the request of the Judge it was decided to tabulate a statement of the point and the submitted. He also triple the submitted in the submitted witness and the set and the submitted as to consumption. The wifness had been adopted. Say sen to see a decided to the was removed, and this needs to foosien, was read from Mr. E. All George Evansteposed to Mr. Mellon and the submitted as to consumption of coal from Junary. Its, and the estimated approximate to the same provision made for light and all, when the consumited to the was made was an the Waterworks Committee.

The submitted is to consumption of coal from Junary its, and the estimated and the submitted as to coalcand the committed of the submitted as to coalcand the committed of the submitted as to coalcand t

beneved that those of Toronto would compare favorably with the best of them.

His Honor asked: "De you think from your experience that the system of management adopted there is conductive to order, economy and to the benefit of the citizens?"

The Mayor said that certain newspaper reports were calculated to do Parkdale a great

His Honor accessed and were all considered to the constraint of the public press mount of minry.

The reply was: In my time I through it sort were calculated to a population of minry.

The reply was: In my time I through it sort were calculated to a population of minry.

The reply was: In my time I through it sort were calculated to a population of minry.

The reply was: In my time I through it sort were calculated to a population of the public press in connection with Mr. Burns. It was insignated that I was spin bled with coal for nothing. I wish to deny that, I have best several dealings with Mr. Burns. It was insignated that I was spin bled with coal for nothing. I wish to deny that, I have best several dealings with Mr. Burns. It was insignated that I was spin bled with coal for nothing. I wish to deny that, I have best several dealings with Mr. Burns. It was insignated that I was spin bled with coal for nothing. I wish to deny that, I have best several dealings with Mr. Burns. It was insignated that the compound to coal feet that the form of the public press in connection with the Waterworks Committee.

The Mayor said that co ports were alcoal entirely was calculated to the public press mounted to the public press in connection with the waterworks committee appointed, who set to work to fin the constant of the department and stanted in and read. The complaints (which were dated in the large hall in the Club and the management of the department and stanted in the large hall in the Club and the management of the department and stanted and the completing graws assembled in the large hall in the Club and the committee durin

well-founced someone pocketed the money, and you were unable to find out how it was managed."

Witness confessed that he could not detect where the money had gone to, but under the system introduced by the committee these "mistakes" could not occur without detection. Examined by Mr. Bigelow, witness said that there were comort of the Waterworks Committee who were chronic grumblers and found fault with everything about the works.

Mr. John Perkins, who built the boilers in use at the Waterworks, said that they were made of steel, and according to plans and specifications. At the earlierstage of the work Mr. Yenables was overlooking the work. Mr. Hamilton subsequently appointed Mr. Cloudsley superintendent of the work. Mr. Venables gave no authority to winness to use inferior material, or to punch the holes instead of drilling them.

His Honor read his notes of the evidence already given at the earlier stages of the investigation, from which it seemed that the holes in the boiler were being punched instead of being drilled. This was contrary to the terms of the contract, and Mr. Cloudsley was then appointed to oversee the work.

Witness here became very indignant, and said that this popit talk was doning him a lot of injury. "There are thousands of the holes drilled, and the boiler was tested with fitteen pounds more pressure than was contracted for."

His Honor: "That may be, but the fact remains that while you contracted to drill the holes you were punching them, and an inspector had to be appointed to see that you fulfilled your contract."

Ald Denison was examined as to the condition of the Waterworks Denariment.

spector had to be appointed to see that you fulfilled your contract."

Aid. Denison was examined as to the condition of the Waterworks Department. He believed the engine house to be well kept considering the accommodation afforded. He also considered Mr. Venables a very competent engineer.
The enquiry will be resumed at 2 o'clock this afternoon.

In Brief, and to the Point. In Brief, and to the Point.

Dyspenia is dreadrift Disordered liver is misery indisection is a fee to good nature.

The human directive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Gressy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad, business and making the American people so healthy that they can enjoy their mesis and be happy.

Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents. —We know of no mode of treatment which offers, to sufferers from chronic diseases, a more certain hope of cure than that which is comprehended in the use of Ayer's Sarsaparilla. For purifying and invigorating the blood, this preparation is unequaled. "Queen City" and "Hand-in-Hand."

ter.]
The Mayor said that certain newspaper reports were calculated to do Parkdale a great deal of injury.
Concilior Atkinson asked the Mayor, having drawn his attention to the wording of the Municipal Act on the point, if it were his intention to recommend the appointment of an extra police force for the protection of Parkdale. dale.

The Mayor said that he did not consider it necessary to recommend additional police protection. One of the leading citizens had suggested the use of a beculiar whistle, the sounding of which would summon a policeman. These whistles might be sold at a nominal cost, and a heavy fine imposed upon any person misusing them. If more protection could be afforded in the northwest section it might be well. Paristale did not now require extrapolice, but the time was not very distant when they might.

police, but the time was not very distant when they might.

Mr. Gowanlock thought they had a sufficient number of police in Parkdale, and very little trime. He, however, considered they should have two extra men on duty during exhibition time. This suggestion was agreed to.

Councillor Sinclair took exception to as entry of \$13.15 appearing in the estimates of the Sire and Gas Committee for "caps" for the police. It, however, turned out that the work should be "capes," and the bill passed.

The, committee appointed to consider the
