NEUTRALIZATION OF COREA. ference of Foreign Representatives Held to That End.

Held to That End,

London, July 12.—A despatch from Seoul, the capital of Corea, says: A conference of fereign representatives was held to day and proposed the neutralization of Corea treaty ports. The Japanese minister accepted the principle of the proposition as far as Chumelpo was concerned, but reserved his answer of this question in regard to the other ports pending instructions from his Government in Tokyo. Later the King yielding, the Japanese Government appointed three commissioners to discuss the internal administration of the country. "The conditions imposed by the Japanese Government in regard to the neutralization of the port of Chumelpo virtually nullify the concession, as Japan still insists upon retaining the troops within the settlement. The foreign representatives have reminded

For Sojourners at Lake Simcoe.
On the shores of what is known as Kempsofeldt Bay, and commanding a wide view of the beauties of Lake Simcoe, whose pure spring waters, and delightfully bracing breezes and beautiful surroundings have made her shores the queen of Canadian spring waters, and delightfully bracing breezes and beautiful surroundings have made her shores the queen of Canadian summer resorts, stands the Peninsular Park Hotel, furnished, equipped and conducted with a view to making a vacation spent within its hospitalities one of the most delightful experiences of a life-time.

The hotel is owned by and conducted under the personal supervision of Mr. M. O'Connell, a man of wide experience and well-known ability. The structure was erected at a cost of \$50,000, and is surrounded by 40 acres of beautiful grounds, where

erected at a cost of \$50,000, and is surrounded by 40 acres of beautiful grounds, where may be found large lawns for tennis, croquet, bowling and other games.

The boating, bathing and fishing facilities of Lake Simcoe are in themselves a strong attraction for pleasure-seekers. Special attention is given to the dining room, where first-class meals are always dispensed.

A fine line of steamers meet tourists at Barrie, the hotel being within nine miles of that point, thus giving a delightful sail of 40 minutes up the lake.

Editor World: It would be amusing, at the same time childish, for the whole city police force and Queen's Own combined to trot down to the Union Station after a big breakfast Sunday morning and by force to stop there innocent busses going. Of course both can be done by sheer force, but not by moral suasion or strict constitutional law. But there's no harm in making a show of themselves, but is it rational? How long is this nonsensical work to continue? When will those little-minded, intemperate "Temperance" disturbers of the peace quit their evil work?

It is true that within my recollection, and with consent of parties, the 13th Earl of Eglinton was permitted to exercise on condition that it did not involve assumption of the name. This agreement was, however, broken by the late Earl in order that he might acquire with it a sext in the House of Lords. The Wintons must decidedly repudiate any such connection as the assumption of their name by the Earl Eglinton would suggest.

ture in the Northwest of yesterday had some strengthening effect, but lower cables throughout and predictions of cooler weather for spring wheat country took the strength out of the market. The labor situation is considered in much better shape, and the railways are getting well into regular work again. Fair shipping demand for new winter wheat, but arrivals are very small as yet. Clearances of wheat and flour equal in wheat to 365,000 bush. Corn opened strong and higher on firmer wheat and complaints of dry weather in the corn belt. Shippers have been good buyers of September. Fair to good buying by speculative interests against previous sales. Dry weather reports increasing and the trade beginning to be influenced by them.

Schwartz, Dupee & Co. wired Dixon:
Wheatstrong early on wet weather abroad and higher cables. The local crowd caught short and the covering advanced prices almost a cent. Free offerings of winter wheat in the country, a reiteration by The Price Current of its 45,000,000 bushel crop and weak closing cables had most to do with the closing weakness. The Northwest at the outset talked damage from high temperatures Wednesday, but the Northwest was a seller at the close. July was 2 cents under September. The Northwest reported a large cash business with New York, but bids here were about one cent under the market. Exports were fair. Northwestern carlots were about half last year's. It is expected that receipts of winter wheat will be liberal just as soon as the roads are in working order.

ing order.

Provisions firmer early, but worked lower later under some free selling by one or two packers. The volume of business was small and improvement in the railroad strike situation was offset by some trouble with packing bones analyzes.
