To Dyspeptics.

The most common signs of Dyspepsia, or Indigestion, are an oppression at the stomach, nausea, flatulency, water-brash, heart-burn, vomiting, loss of appetite, and constipation. Dyspeptic patients suffer untold miseries, bodily and mental. They should stimulate the digestion, and secure regular daily action of the bowels, by the use of moderate doses of

Ayer's Pills.

After the bowels are regulated, one of these Pills, taken each day after dinner, is usually all that is required to complete the cure.

Ayer's Pills are sugar-coated and purely vegetable—a pleasant, entirely safe, and reliable medicine for the cure of all disorders of the stomach and bowels. They are the best of all purgatives for family use.

Scientific and Useful.

FOR WASHING PAINT.—It is recommended for cleaning paint to wring a flannel cloth out of warm water, dip it into whiting, and rub the paint up and down until it is clean. Wash off with cold water, and rub until dry.

IMPROVED LEMONADE.—Here is a recipe for a cool and pleasant drink for summer, which will be found quite a good variation from lemonade: Take the juice of six oranges and six lemons, adding sugar to suit the taste. Put to this a quantity of pounded ice and some sliced pine-apple, pouring over it two quarts of water.

LYDIA E. PINKHAM'S Vegetable Compound is a most valuable medicine for ladies of all ages who may be afflicted with any form of disease peculiar to the sex. Her Remedies are not only put up in liquid form but in Pills and Lozenges in which form they are securely sent through the mails.

VEAL CREAM SOUP.—Boil the remnants of a roast of veal until the meat falls from the bones. Strain and cool. The next day put on to boil, with a slice of onion and one-third of a cupful of raw rice. Let it simmer slowly for an hour. Add salt and pepper to taste. Just before serving add one cupful of rich milk, or cream if you have it, heated in a separate dish.

TIN BOXES FOR FLOWERS.—Botanists collecting flowers carry tin boxes. These will keep flowers perfectly fresh for some hours, the moisture in the flowers being preserved from evaporation by the close tin. For unprofessionals, a large-sized baking powder box would be a convenience for bringing home trophies from the woods, or the garden of a friend.

YORKSHIRE PUDDING.—To every pound of flour, one teaspoonful of carbonate of soda, well mixed, add buttermilk (no matter how sour) to make it a thick batter, beat well up; put it into a very hot tin in the oven with some fat nearly boiling, or in a large frying pan over the fire; take care it does not burn; turn it, gravy, sirup or preserve is nice with it. Serve it at once.

FOR BRONCHIAL AND THORACIC AFFECTIONS, Allen's Lung Balsam is recommended. (See adv.)

ORANGE MARMALADE.—Wash the oranges, and cut off any discoloured part; cut them into round slices; to each pound add one lemon, also sliced; pour them into a preserving pan with water in the proportion of three pints to a pound of fruit; boil till reduced to one pint; strain through a sieve, and to every pint of liquor add a pound of pounded sugar; boil them together for ten minutes; skim it well, and when nearly cold put into moulds or jars.

THE PERFUME OF AN HEMISPHERE.—Throughout an area occupied by more than one hundred millions of civilized beings Murray & Lanman's Florida Water is today the standard perfume in society.

TO PRESERVE RHUBARB.—Rhubarb may not only be preserved in cans, but may be made into jelly. After rinsing the stalks in cold water, cut them in pieces, and wash only about enough water to cover them; put them in a porcelain kettle; let them boil until nothing seems to be left but a soft pulp. Strain through a flannel jelly bag. To each pint of this juice add a pound of sugar; try it by taking out a little and putting it on a cold plate; when it "jellies" at once it is safe to pour into bowls.

HOW TO CURE A COLD.—Takes some gentle opening medicine, bath the feet in warm water, adding a teaspoonful of mustard; remain indoors; equalize the circulation with warm bath and friction; drink warm ginger tea, and take Haggard's Pectoral Balsam, the most perfect and safest cough cure that can be procured.

HINTS TO THE HOUSEWIFE.—Keep tea in a close chest or canister. Keep coffee by itself, as its odour affects other articles. Bread and cake should be kept in a tin box or a stone jar. Oranges and lemons keep best wrapped close in soft paper and laid in a drawer. Soft soap should be kept in a dry place in a cellar, and should not be used till three months old. Meat of any kind should not be washed, but wiped with a towel to preserve the juices and quality. An ointment made by mixing carbolic acid, or coal-oil and lard, is sure death to vermin on poultry.

A FACT.
 There are some white, and oils black, But Haggard's Yellow Oil, for pain, Is the very best oil of all.
 It cures rheumatism, neuralgia, delecto sprains, twinges, contracted cords, sore throat (best bites, burns and all soreness of the flesh. It is for external and internal use.

She was in the handsome show-room of Petley & Petley's dry-goods store on Saturday, and walking up to the tall mirror placed against the wall, remarked, "Why, how came you here?" Then, observing surprise, not to say amusement, in the faces of the other occupants of the room, she saw her mistake, and explained, in great confusion, "I thought it was my sister; we're twins."

Advertising Cheats!!!

"It has become so common to write the beginning of an article, in an elegant, interesting manner,
 "Th' n run it into some advertisement that we avoid all snob,
 "And simply call attention to the merits of Hop Bitters in as plain, honest terms as possible,
 "To induce people
 "To give them one trial, which so proves their value that they will never use anything else."

"THE REMEDY so favorably noticed in all the papers,
 "Religious and secular, is
 "Having a large sale, and is supplanting all other medicines.
 "There is no denying the virtues of the Hop plant, and the proprietors of Hop Bitters have shown great shrewdness
 "And ability
 "In compounding a medicine whose virtues are so palpable to every one's observation."

Did She Die? 8/52

"No!
 "She lingered and suffered along, pining away all the time for years."
 "The doctors doing her no good;"
 "And at last was cured by this Hop Bitters the papers say so much about."
 "Indeed! Indeed!"
 "How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,
 "From a complication of kidney, liver, rheumatic trouble and Nervous debility,
 "Under the care of the best physicians,
 "Who gave her disease various names,
 "But no relief,
 "And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had abandoned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters says:
 "How much better father is since he used Hop Bitters."
 "He is getting well after his long suffering from a disease declared incurable."
 "And we are so glad, that he used your Bitters." A LADY, of Utica, N. Y.

A CELEBRATED CASE.—The remarkable case of W. A. Edgars, of Frankville, who suffered from disease of the liver and kidneys so badly that all hope of recovery was abandoned. He remained ten and thirteen days without action of the bowels. Four bottles of Burdock Blood Bitters restored him to perfect health, which he had not known for twenty years before.

RICE AS FOOD.—One pound of rice prepared for the table gives eighty-eight per cent. of nutriment, and consequently a relatively proportional ability to labour compared with other articles of food. A pound of beef, costing fifteen cents, gives only twenty-five per cent. of nutriment. Yet countless numbers of the poor in New York strain a point daily to purchase beef at fifteen cents a pound, when they could get a pound of rice for one-third of the amount; the rice, too, having three times as much nutriment as beef—making a practical difference of 800 per cent., aside from the fact that boiled rice is three times easier of digestion than roast beef, the rice being digested in about one hour, roast beef requiring three hours and a-half. There is meaning, then, in the reputed fact that two-fifths of the human family live on rice.

MR. R. C. WINLOW, Toronto, writes: "Northrop & Lyman's Vegetable Discovery is a valuable medicine to all who are troubled with indigestion. I tried a bottle of it after suffering for some ten years, and the results are certainly beyond my expectations. It assists digestion wonderfully. I digest my food with no apparent effort, and am now entirely free from that sensation, which every dyspeptic well knows, of unpleasant fullness after each meal."
