

possibility of the London Matriculation Examination being held in January, as well as June. The Government went to considerable trouble in the matter, and has sent us the correspondence on the subject between our government, Mr. Chamberlain, and the University authorities. From these we may announce with authority, that the Examination can be held here any January or any June, or both, provided due notice be given to the University authorities. They ask three months' notice from the Colonies.

We have just given notice to the Government that we are presenting two candidates at the Matriculation Examination, next June. We cannot expect to send in eight candidates every year. Forbes and Atkinson have a heavy responsibility on their shoulders, and a good name to keep up. We believe they are equal to it.

RECENT EXAMINATIONS.

At the recent examinations, the below obtained the "First Ten" places in each of the various classes.

They are placed in order of merit.

MR. HOLLOWAY'S CLASSES.
