

CAST STEEL CHURCH BELLS.

THE Subscribers having been appointed AGENTS for CANADA, for the sale of CAST STEEL CHURCH and FACTORY BELLS, are now prepared to execute Orders for them to any extent that may be required.

These Bells are made by Messrs. NAYLOR, VICKERS & CO., of Sheffield, England. They have a pure, melodious sound, peculiar to steel, owing to the elasticity of the metal the sound penetrates to a great distance.

Cast Steel Bells are much lighter than those made of ordinary bell-metal of the same size, and are consequently more easily rung; and owing to the density and also to the well-known strength of the material, it is almost impossible to break them with ordinary usage.

These bells have been successfully introduced in some of the largest cities and towns in the United States and Canada, for Fire Alarms, Churches, Factories, &c., and being sold much cheaper than Composition Bells, this fact in connection with their lightness, strength and sweetness of tone, cannot fail to commend them to public favor.

Cast Steel Bells combine, therefore an improvement in quality and power of tone, with greater facility for placing and ringing them, from their diminished weight and a very material saving in price.

CHIMES CAST TO ORDER WITH GREAT ACCURACY. Every Bell is warranted for one year, with proper usage, in any climate.

Printed Circulars, with descriptions, recommendations, prices, &c., will be furnished on application to FROTHINGHAM & WORKMAN, Montreal, Agents for Canada.

The Quebec Mercury of December 17 says:—Of the many preparations that are thrown into our Canadian Market for Lung diseases, we believe none can be found to equal that staunch old remedy, Dr. Wistar's Balsam of Wild Cherry.

Contrary to the general rule, with preparations of this kind, this remedy maintains everywhere its primitive popularity, and every season brings fresh witnesses of its remarkable efficacy in curing coughs and colds, whilst even cases of what has appeared to be confirmed Consumption, have yielded to its magic influence. We can, with an uncommon degree of confidence, recommend it.

A CURE FOR WHOOPING COUGH.

St. HYACINTHE, CANADA E., Aug. 21, 1856.

Messrs. SETH W. FOWLE & Co. Gentlemen:—Several months since a little daughter of mine, ten years of age, was taken with Whooping Cough in a very aggravated form, and nothing we could do for her seemed in any way to relieve her suffering.

We at length decided to try a bottle of your Dr. Wistar's Balsam of Wild Cherry. In three hours after she had commenced using it, she was greatly relieved, and in less than three days was entirely cured, and is now well. I have since recommended the Balsam to many of my neighbors, who have used it, and in no case have I known it fail of effecting a speedy cure.

You are at liberty to make any use of the above you think proper. If it shall induce any body to use your Balsam I shall be glad, for I have great confidence in it.

Yours, P. GUITTE, Proprietor of the Courrier de St. Hyacinthe. CERTIFICATE FROM L. J. RACINE, ESQ., OF MINERVA.

MONTREAL, L. C., Oct. 30, 1858. S. W. FOWLE & Co., Boston.

Gentlemen:—Having experienced the most gratifying results from the use of Dr. Wistar's Balsam of Wild Cherry, I am induced to express the great confidence which I have in its efficacy. For nine months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter. In October the symptoms increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned.

At this juncture I commenced taking the Balsam, from which I found immediate relief, and after having used four bottles I was completely restored to health. I have also used the Balsam in my family and administered it to my children with the happiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. It is a preparation which has only to be tried to be acknowledged as the remedy par excellence.

Your obedient servant, L. J. RACINE.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medicinal skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYTHEMA and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSI, or BRYZEPHILA, PUPULES, PUSTULES, BRUCCER, BLAINS and BOILS, TUMORS, TERTIARY and SALT RHEUM, SORE THROAT, RINGWORM, RINGWORM, SPITTING and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DERMITIS, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED or IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely be sustained or cured. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Headache, Headache arising from disordered Stomach, Nausea, Indigestion, Pains in the Bowels, Stomach, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.

branches of a wide-spreading sycamore; and they told us they had travelled for the past two weeks, and they were refused a night's lodging at every place they stopped; and that too, by their own countrymen. Put that and that together! Already there is a movement in Ireland, among the small tenant farmers, consequent upon the statements of Dr. Cahill. They are beginning to sell out their little substance to cross the Atlantic in search of that El Dorado mentioned in these letters. Alas! ye know not the misfortunes and privations you will encounter here. We would say to our fellow countrymen in Ireland, heed not these statements. Hold on to the little you have, and do not, by any means, expose yourself and your poor family to ruin, indigence and exile. Follow Smith O'Brien's advice. If you can live at home in peace and comfort, stay in the old land. Yes, stay; for your country needs you.—Most urgently do we ask our Irish exchanges to warn their all for nothing. Warn them to take no notice of Dr. Cahill's accounts, for he will have his eyes opened ere long, and we are positive he will retract those statements when it will be, we fear, too late."

THE DEFAULTING STATE TREASURER OF MAINE.—It now seems that B. D. Peck, the State Treasurer of Maine, was lately one of the "irrepressible conflict" preachers in Portland. He was pastor of the Casco street Church in that city until he abandoned the cause of his Heavenly Master, and engaged in the negro and old John Brown cause; and as a reward for his apostasy received from his abolition friends his election as the keeper, and, as it turns out, the holder of the "thirty pieces of silver," or rather, as the disclosures are made to appear, the stealer of from one hundred to one hundred and fifty thousand dollars! While preaching gospel in the pulpit, he also preached Maine-Lawism, as editor of the Temperance Journal. For this and that, old Neal Dow, the inventor of the Maine Law, and the head of the whisky crusade, had him nominated for Treasurer, the Abolitionists elected him. Neal Dow went soon his bond, and now Rev. Mr. P. pays them all off by pocketing the State funds. Characteristic all over.

"NORTHERN LIGHTS" OF THE NO-POBRY FIRMAMENT.—Of the persons who figured at the North in the Know-Nothing and Abolitionist excitements, already some dozen or more have attained notoriety by bigamy, adultery, seduction, embezzlement, peculation and other such handsome titles to fame. But the end is not yet. Here is another, the latest so far, but not to be the last case.—U. S. Cat. Mis.—

A DRUNKARD'S BRAIN.—The startling doctrine taught in "Youman's Basis of Prohibition," is fully corroborated by the following passage from the Boston Medical Journal:—"Hyrri, by far the greatest anatomist of the age, used to say that he could distinguish in the darkest room, by one stroke of the scalpel, the brain of the inebriate from that of the person who had lived soberly. Now and then he would congratulate his class upon the possession of a drunkard's brain, admirably fitted, from its hardness and more complete preservation, for the purpose of demonstration. When the anatomist wishes to preserve a human brain for any length of time, he effects his object by keeping that organ in a vessel of alcohol. From a soft, pulpy substance, it then becomes comparatively hard; but the inebriate, anticipating the anatomist, begins the indurating process before death—begins it while the brain remains the consecrated temple of the soul—while its delicate and gossamer tissues still throb with the pulse of heaven-born light. Strange infatuation, thus to desecrate the god-like! Terrible enchantment, that dries up all the fountains of generous feeling, petrifies all the tender humanities and sweet charities of life, leaving only the brain of lead, and a heart of stone!

A NOT SURPRISING RESULT.—The correspondent of the Philadelphia Ledger referring to the late attempt to get up a religious daily paper in this city, says:—"The project has exploded, mainly through the impossibility of reconciling conflicting opinions as to what should be the denominational bias of the proposed daily. The Roman Catholics were to be excluded from a share in its management entirely, and only a few Episcopalians, of the low-church type, could be persuaded to have anything to do with it, and there wasn't unity enough among the rest to put the machine in motion."

A QUEER ORDER TO AN EXPRESSMAN.—The following is a copy of an order to an expressman, received in Boston a day or two since:—"Send me 10 gallons of your best gin for \$10. I want it for my mother's wake and funeral. She is on her last breath. Sometimes she knows us, and sometimes she don't. Send it this evening precisely."

THE LATEST NOVELTY IN NEWSPAPERS.—In addition to "Births, Marriages and Deaths," the Liverpool Mercury now adds the "Divorces."

Bad company is like a nail driven into a post, which after the first or second blow may be drawn out with little difficulty; but being once driven up to the head, the pinners cannot take hold to draw it out—it can only be done by the destruction of the wood.

It costs a deal of money to be rich, and it is a question if so much be worth so little.—After all, is wealth worth the cost—first, in acquiring it; next, in supporting it; and lastly, in bearing up under it when you have lost it.

A man who undertakes to reach a high position by making speeches, is like a parrot that climbs with its beak.

A year of plagues passes like a floating breeze, but a moment of misfortune seems an age of pain.

Those are the best instructors whose lives speak for themselves.

BORNETT'S TOILET PREPARATIONS.—Of the many preparations that are thrown into the market for toilet purposes, few can be found to excel those of the well-known chemist, Messrs. Joseph Borrett & Co., of Boston. One result of their excellence is that those who use them once, are always sure to give them the preference as standard articles for the toilet. The Cocoon and Kallistion and, in fact, all the articles in constant demand in this city and are giving perfect satisfaction.—New Bedford Mercury.
