

Responses by Sector

Chart showing the distribution of responses by sector.

The responses by sector are very similar to the distribution of surveys sent to clients. Those that make up larger percentages of responses than surveys sent are Aerospace and Defense, Education, Manufacturing Technology, Ocean Technology and Service Industries and Coastal Projects. Those with lower rates of response are Building Projects and Construction, Forest Industries and Information and Communications Technology. The highest rates of response are Space at 33.3%, Ocean Technology at 32.3% and Chemicals at 25.8%. The lowest response rates are Agricultural Technology and Equipment at 10.2% and Forest Industries at 11.48%.
