the bar door when he went into the lavatory.

Read Stories of the Kind.

McCauley said that poverty and the suggestion from newspaper accounts of like occurrences, and the same kind of stories in fiction, had led him to make the attempt. He had been living at 11 Chicora-avenue, Centre Island, during the summer, and was not employed at present. He and Hagan had gone to the Wilton-avenue house Tuesday afternoon. He said that he has an uncle in the city and that he is a Canadian, coming from the east. He does not want his parents, who are living in that section of the country, to hear of his disgrace. When arrested he was wearing a suit and crossbones in gold on a tie.

McCauley was held without bail at the Court-street station.

The Lost Bills. The money which was lost was in 20 ten dollar bills, secured in a roll by an elastic band. Each bill is marked so as to be easily identified. The name and number of each follow: Bank of Montreal, No. 27074, No. 27075, No. 27076, No. 27077, No. 27078, No. 27079, No. 27080, No. 27081, No. 27082, No. 27083, No. 27084, No. 27085, No. 27086, No. 27087, No. 27088, No. 27089, No. 27090, No. 27091, No. 27092, No. 27093, No. 27094, No. 27095, No. 27096, No. 27097, No. 27098, No. 27099, No. 27100. Anyone finding all or any of these bills are requested to turn them over to the police.

NEW HOSPITAL WING OPENED

Ceremony at Hospital for Incurables Yesterday.

The annual meeting of the Hospital for Incurables yesterday afternoon was the occasion of the opening of a new \$50,000 wing, to be known as the Ambrose Kent wing. Mayor Geary presided and also on the platform were Ald. McCarthy, Sir Mortimer Clark, Hon. Mr. Hanna, Sir Edmund Walker, Ambrose Kent and others. His worship emphasized the fact that the hospital should be supported by every citizen.

Miss Green, superintendent, reported that 66 men patients and 73 women were practically all committed for life. In age they vary from 18 to 85. On the staff there are 18 nurses and 2 probationers, while there are 22 men and women domestics. There are 48 physicians on the medical staff. The report of the secretary-treasurer, Miss Groat, stated that the income for the past fiscal year was \$35,103.48, and the expenditure \$34,720.20. The cost of running the institution is estimated at 70 cents per diem for each inmate.

Dr. Griffith reported for the medical staff. Hon. Mr. Hanna and Sir Edmund Walker also spoke, and the presentation of an illuminated address to Ambrose Kent followed by Sir Mortimer Clark, on behalf of the board.

Mrs. Kent then formally declared the wing open. It provides accommodation for 100 patients.

CLOTHES FOR THE NEEDY.

Editor World: It may be early in the season to make an appeal for cast-off clothing for the poor, but the demand is so great that I am going to ask you to assist us, by inserting a few words on the subject. It is true that there has been work during the summer for the men, but it is also true, that there has been a great amount of sickness which has kept many back, and boots and clothes are heavy articles to purchase, after food has been provided. Those who may be good enough to give us their old off garments and boots, need not be afraid that we will paperize the people by giving them to them, as we ask a small sum for them, and then use the money in the work in another way. We can use anything that is specially thankful for children's clothing and boots, as many are kept from Sunday school, and the lack of these articles will have prompt attention. Main 6590 will have prompt attention. (Rev.) H. C. Dixon, Trinity Rector, East King St.

WOMAN TOOK LAUDANUM.

THE C.P.R. AND TORONTO

President Shaughnessy Will Soon Make Plans Public.

Mayor Geary announced yesterday that Sir Thomas Shaughnessy had informed him that the C. P. R. plans for improving the service in Toronto were almost completed, and that a copy would be supplied to the city shortly.

The announcement followed a motion by Controller Church asking that the board seek a conference with the president and manager of the C. P. R. To this the board agreed.

Some of the important issues which Controller Church wishes to have taken up are: North Toronto plans, level crossings, improved passenger and freight service and rolling stock, new union station, suburban service, Esplanade problems, and a full disclosure of the railway's plans for a Greater Toronto.

The city gave the company a million dollars as a bonus to enter Toronto, and this side-and-look policy of the C. P. R. as to its plans is unfair, said the controller. The railway disclosed in full its plans so far as Winnipeg was concerned.

Geo. McCoy of Clarendon Station was fatally crushed when he fell from his wagon.

Travelers' Longest Distance. When informed by the Associated Press of the safety of Hawley and Post, Mr. Lambert said: "I am certain that the war department figures to be furnished our committee will show that Hawley and Post traveled the longest distance. It has been a remarkable contest, fraught with difficulty for the aeronauts and much anxiety for those who remained at home."

To-night President Lambert called a special meeting of the Aero Club Board of Governors to figure distances. L. D. Doster, a member of the contest committee, said the America II must have covered nearly 1000 miles in less than 24 hours, because it was last spoken near Thompsonville, Mich., on Tuesday afternoon at 4:30 o'clock.

Coming Out.

QUEBEC, Oct. 26.—Hawley and Post left St. John at 4:30 p.m. for City Coulin by vehicle, a distance of forty miles.

Word Received in Toronto.

Lew Spindler, who was sent to Toronto as the representative of the St. Louis Aero Club, yesterday received the following wire:

"Hawley landed at Peribonka River, Lake Chiligoma, Saguenay district, Oct. 19th; all well. C. E. Little (G. N. W. Inspector)."

The Peribonka River runs east from Lake St. John. It will mean a trip of at least 1250 miles, winning the Gordon Bennett Cup and \$3000 prize and breaking the record of Count de la Vaux, who in 1902 went from Paris to the Russian frontier, 1195 miles.

ABOUT ALAN HAWLEY

Personality of Aeronaut Who Has Had Whole Continent Anxious.

"Alan Hawley's pet scheme is the supplying of life-saving stations and the lifehouse service with aeroplanes to be used in the saving of the lives of persons shipwrecked. With the later advances in the art of aeroplaning such a thing is possible. After a storm there comes a lull in the wind, but the waves continue high. They are impassable for small boats. But an aeroplane could go out over the break, and if it were impossible to transfer the endangered passengers and crew one at a time to the shore it would be feasible to carry out a line, drop it accurately on the beach and rig up a breech-buoy."

So said Frederick McKay, husband and manager of Miss Blanche Ring, and part owner of "The Yankee Girl," to a World man at the Royal Alexandra Theatre last night. Mr. McKay is an intimate friend of the aeronaut.

Describing Mr. Hawley Mr. McKay said: "He is blonde haired, with a mop of hair about 40 years of age, ruddy cheeked, about 5 feet 8 inches tall, and of stocky build. He is the president of the Aero Club of America. His home is New York, and he has a suite in the Renaissance Hotel, Fifth-avenue and 43rd-street. Besides the Aero Club he is a member of the New York Athletic Club and the Automobile Club of America, and a member of the Y.M.C.A. of New York."

"Mr. Hawley is a broker, being in partnership with his brother in the firm of William Hawley and Company, 20 Broad-street. He is an enthusiastic aviator. The sale of seats of the charter members of the Aero Club. His interest was aroused in Paris, where he took several flights a number of years ago. Mr. McKay is a very likeable man, is a bachelor."

"Mr. Hawley told me some time ago what it was like to go up in a balloon. He said he experienced so sensation of rising. It was as if he was remaining stationary and the earth was falling away. It seemed as though to wonder how the people on earth were enjoying the fall they were having."

"Last summer the three of us, Mr. Hawley, my wife and myself went for a two weeks' automobile tour," said Mr. McKay. "During that time we visited the famous keepers, and Mr. Hawley explained his scheme for facilitating the saving of life. The keepers thought it was an excellent idea."

WARNS BRITAIN

Danger of Not Responding to Fiscal Advances of the Dominions.

LONDON, Oct. 26.—(C.A.P. Cable.)—Bonar Law, addressing the Unionist demonstration at Glasgow, uttered a warning about the danger of failing to respond to the fiscal advances of the dominions. He said that if the dominions own treaties, could not and ought not to have done otherwise, but this tendency, taken by itself, was in the direction of disunion.

Fortunately there was a force in the colonies equally strong, namely, the keen desire for closer commercial union within the empire. The fact that Britain was unable to do anything to counteract the former tendency ought surely to make her all the more determined to do everything to encourage and develop the movement towards union, and that were hopeful indications that this was coming about.
