Kingston, June 11.—It transpires that the Colne woman, popularly known as "Venus" Cote, is not serving two years in Portmouth Penitentiary for wearing male attire, as was first reported. The story was that she was sent to the penitentiary for her connection with a man while working as a driver on the Restigouche River, and on the strength of this application has been made to the department of justice for her release.

The facts of the case are that the woman was sent for five years for the theft, she having broken into a house and stolen a quantity of silverware, clothing, etc. In addition, she broke jail after her arrest, and was not captured for several days.

CORN DOING WELL, SAYS CROP REPORT

Excellent Germination Has Been a Surprising Feature of This Season.

Excellent germination of seed corn has been a surprising feature this season, according to the weekly report on farm conditions, issued by the department of agriculture yesterday. In the Lake Erie section the crop is considered to be very forward in growth. In the same district sugar beets and mangels have already been shinned, and potatoes are well advanced. In Kent and Norfolk strawberries have been sold at 30 cents a crate.

The report states that spring grains never looked better at the end of the first week in June. Fall wheat is beginning to head in some of the western counties, but the yield will be low. Prospects are good for fairly full hay crops to be cut about a week or two later.

Summer and fall apples give promise of good yields, but sprays and blights have done much to reduce the crop. The report continues to improve upon excellent pastures, which are now at their best. Choice beef animals are scarce and prices are high. Hogs are in good demand at from \$10.00 to \$14.00 each. The milk flow is at its height, and cheese factories claim an increased output.

Hogs have decreased in value, says the report, but young pigs are still in strong demand. A pair of sows, bred in one locality for a pair, \$15.00; hay is selling at \$10 to \$12 a ton, but grain is a scarce commodity.

CROP ABOVE AVERAGE.
Weekly Report by Canadian Northern Hides Out Good Prospects.

Winnipeg, June 11.—The Canadian Northern railway today issued its weekly crop report which is a very optimistic document. With the advent of warm weather the conditions would seem to be excellent along the lines of the railway. Every section of the country is doing well. C.N.R. in western Canada has reported and the general verdict is that a more than average crop is being raised.
