VICTORIAN STILL ON ROCKS.

Straining Montreal, Sept. 4.—(Special.)—The turbiner Victorian is still in the edenturbiner Victorian is still in the edentical position on the rocks and there is no change in the depth of water in her hold. Hugh Allan stated yesterday that the wreckers were continuously at work on the vessel, but that so far the efforts had been directed to making preliminary preparations for attempting to move her. Every precaution against straining the liner is being taken and when the first attempt to float her is made she will be held in a vice-like grip against the current by keel and land anchors.

The steamer now has at her side is a thrilling tale.

Seven of the dead offered their lives as a sacrifice for the rest of the 22 cm board the ill-fated ship. Of those for whom they gave their lives four are dead. The rest reached shore after a night of buffeting by the waves in an open boat, and a trip of more than 24 hours cutting a road thru the wild-erness of Northern Wisconsin. Those who give their lives for the ill-fated ship. Of those for whom they gave their lives for whom they gave their lives four are dead. The rest reached shore after a night of buffeting by the waves in an open boat, and a trip of more than 24 hours cutting a road thru the wild-erness of Northern Wisconsin. Those were:

Capt. E. S. McDonald, Northeast Philadelphia.

First Mate Louis Darwin Medina

grip against the current by keel and land anchors.

The steamer now has at her side ten 15-inch pumps, several powerful wrecking tugs and lighters with a capacity of 2000 tons, besides a schooner for the use of the wreckers. It is expected that pumping will commence to-night and 1100 tons of cargo will then be removed.

Mr. Allan said that while the line had at first intended to have the Victorian lay off at the close of the summer season to undergo an examination

This teamer now has at her side ten 15-inch pumps, several powerful wrecking tugs and lighters with a capacity of the commendation of the sum of the commendation of the commendation of the sum of the commendation of the commendation of the sum of the commendation of the sum of the commendation of the commen

3-YEAR-OLD GIRL KILLED.

New York, Sept. 4.—A murder of unusual cruelty came to light when the body of a 3-year-old girl was found early to-day in a dark stairway in a wost side tenement house, Both legs had been broken at the knees. There were nine stab wounds in the face, evidently made by a penknife, and numerous other bruises. The child was hidden under a newspaper when a janitor to Light McDonald refused to allow him to remain on board, ordering him to take command of the ship's boat; which was to take the women ashore. With Phillipi went Adam Fiden, Nicholas Fiden, C. H. Cluky, two firemen and one deckhand, all of Euffelo.

The storm had battered the third boat to pieces, but a small boat large enough to carry four took the party. The boat, with the women, tried to make Sand Jeland, but was swept past, Nothing could be done except to keep the craft building had walked over the same stairs and found them empty. Eighteen families lived in the tenement, but none for them were found who remains and found them empty. of them were found who remembered

The Piano Section of the Exhibition were nearly swept back into the deep With the many visitors to the piano section of the Canadian National Experience of the Canadian National Experience of the Piano Section of the Exhibition were nearly swept back into the deep water by the surf.

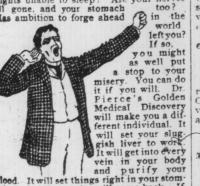

During the night, while the men were water by the surf.

During the night, while the men were hibiton interest in the exhibit of the olde firme of Heintzman & Co. increases daily. It is a very distinguished exhibit, including specimens in the plaudits of the many great foreign artists who have visited Canada from year to year. The greatest home artists—men like Dr. Edward Fisher, F. H. Torrington, A. [S. Vogt, W. O. Forsyth, and many others—have always been unstinted in their commendation of this great Canadian piano.—Interest gathers around the exhibit as a whole, but perhaps specially around the new miniature or quarter grand piano—a curiosity in piano construction that no one should miss seeing. Helped largely, no doubt, by the exhibition display, this firm are putting in a crowdingly busy time at their handsome warerooms, 115-117 West King-street.

DO YOU FEEL THIS WAY.

Water by the each shore, the women were alternately despairing and hopeful. At the wound hopeful. At the would help the sailors bailing and to ther times they would pray for their lives, the men joining, and at other times they would pray for their lives, the men joining, and at other times they would play while came joining, and at other times they would pray for their lives, the men joining, and at other times they would play while came joining, and at other times they would play while came joining, and at other times they would play while came joining, and at other times they would play would pray for their lives, the men joining, and at other times they would play was washed ashore at Little Sand flay was washed ashore at Little Sand party was we shed ashore at Little Sand flay was the inevitable joke sprung been unstinted in their commendation of this great Canadian piano.—Interest gathers around the exhibit as a whole, but perhaps specially around the new miniature or quarter grand piano—a curiosity in piano construction that no one should miss seeling. Helped largely the fall was the crew of the way it was necessary lift was the provided the fishing with the sheet metal

DO YOU FEEL THIS WAY. Do you feel all tired out? Do you some times think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves

and purity your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advices is given freeto all who wish to Spercent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advices is given free to all who wish to write him. His great success has come from his wide experience and varied practice.

O. S. Copenhaver, Esq., of Mount Union, Huntingdon Co...Pa. (Box 222), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused waterbrash and vomiting al a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for about six months with but little benefit. Another physician told me my liver was out of order and that I had indigestion. He gave mea treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than itemporary relief. I then tried Dr. Pierce's medicines, using bis Golden Medical Discovery, and the 'Pleas ant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

EASTERN CUBA THE LAND OF \$ Granted that a Canadian can make money in Eastern Cuba-how about home comforts? Dollars don't make

domestic happiness. Sugar, bananas, oranges, cocoanuts, pineapples, corn and tobacco may be good for a surplus. But a Canadian must turn part of his surplus into home comforts. He must feel that he is on his own home ground, where his \$ \$ are able to buy him just what his tastes prefer. How does Cuba Realty pan out as a home proposition? Well, when Moses wanted to find out about the Valley of Eschol he sent out spies. They came back with big bunches of grapes on poles. For evidence they had the goods. Hear what Mr. J. J. Millikin has to say about Eastern Cuba. He has just come from there:

in Toronto, finished inside with most superbly grained natural woods, and built for less money than it costs to buy some of the shacks in St. John's Ward! Well, such homes were going right up in Bartle when I left it early in August. Why? Because the cost of raw material is low.

"But, how are cottages so cheap in Bartle?"
"A saw mill is running right in the town."
"Suppose a man didn't care to live in a cottage?"

"Suppose a min didn't care to live in a cottage?"

"Simplest thing imaginable—go to the hotel."

"But how about buying goods in Bartle?"

"A large general store is being erected to dispense everything necessary to a man not absolutely spoiled by Cuban luxuries. So you see," concluded Mr. Millikin, "Bartle contains all the essentials to make homes."

For the convenience of all people wanting to learn practical details about BARTLE, Mr. Millikin can be found

at our office. He will give pointed advice to anyone on how to make not only money but a home in Eastern Cuba.

This practical advice will be based on sound, accurate knowledge of what the land is able to produce in the way of fruits and vegetables. Prospective home builders in BARTLE should see Mr. Millikin without delay. He has a distinctive, definite message for every man who wants to make both money and home easier than he can here.

Land cheap, improvements easy, home-building as nat-ural as life—independence certain. Terms are quarter cash down, rest on time.

Don't pinch your purse. Don't pinch your prospects.

Don't work an uphili proposition. Don't forfeit a home.

Buy Cuban Realty Lands. Instead of a tenant, be a landlord. Instead of wages, take money from the land. Own your home.

\$25.00 PRICE OF LAND PER ACRE \$25.00 **DUNCAN O. BULL** 

AGENTS WANTED

Cuban Realty Co., Limited Mr. Allan said that while the the had at first intended to have the Victorian lay off at the close of the summer season to undergo an examination of her turbines to ascertain the real cause of her lack of steaming power compared with the Virginian, this accident might mean that the liner would he laid up for some time.
