dence in the present board of directors.

Tuesday's papers published a report that the Nipissing board of directors decided Merch 25th to pay a dividend of three perfert, omitting the customary two per cent, bonus, that has been paid each previous quarter.

No doubt the small shareholder who does not know the ins and outs wonders why it is so. Those who are better acquainted with the affairs of the company see in this only another means of squeezing out the small shareholders. Our advice to all shareholders is: Hold tight to every one of those "black and tan" certificates and but more.

There will be no meeting of the Public Ownership League this week owing to Friday being a public holiday, and the holding of a labor convention, which many interested in the success of the public ownership movement will want to attend.

The estimated value of the NON-SHIPPING ore that will be mined in the Cobalt district this year, ore carrying values from \$5 to \$100 per ton. This ore MUST BE TREATED AT THE CAMP. Why? Because freight, sampling and smelter charges eat up the profits when the mineral is shipped in the rock. That means CON-CENTRATION, separating the mineral from the surrounding rock. we consider as an investment at the present price the shares of the Balley Cobalt Mines, Limited, a new company, whose shares we are offering to the public at the very low price of 35c per share.

The Bailey is a Shipping Mine

In addition to the very rich forty acres comprising the well-known Bailey Claim, the company owns 256 acres of valuable mineral claims, most of which are splendidly located with respect to the big shipping mines. Of the entire acreage owned, 256 acres are located in Coleman Township, 40 acres being in Lorrain, adjoining the Abitibi. Nipissing Shares are selling around \$13.00. We are offering the first allotment of Bailey Shares at 35c. Future allotments will be sold at a higher price.

Nipissing and Bailey Compared

The Nipissing owns 846 acres in Coleman, the developed part of which has proven fabulously rich. A number of rich veins have been uncovered on the property which have not as yet been worked. The Bailey Cobalt comprises 256 acres in Coleman, being next to Nipissing in acreage, and 40 acres in Lorrain. The Bailey Mine is well known to those familiar with the district. Development work has been done on only a small part of the other claims, and a number of loads have
