### TORONTO'S FRUIT MARKET.

After a Brief Passage of Arms the Dealers Won a Victory Over the G. T. R.

The Grand Trunk Railway and the Whole sale Fruit Dealers' Association of Toronto have not for over a year been on the best

The trouble was caused by the railway mposing a market fee on all packages of fruit that was sold on the market, which is held in old Great Western freight shed at the foot of Yonge-street.

At the latter end of last season the toll was abolished, but reimposed this season after the Wholesale Dealers' had got settled down to business in hteir old stands. The railway people evidently thought that the dealers would put up with the imposition for another season, but such was not to be, for yesterday war was declared by the dealers early in the day by moving out one and all to the Toronto Fruit Austion warehouse on Malloy's wharf.

During the afternoon Mr. White, traffic superintendent for the Grand Trunk Railway, met a deputation from the Fruit Dealers' Association, and agreed to their demands.

The fight was about the Toronto Fruit Australia and Australia and

The fight was short, sharp and decisive, The night was short, sharp and decisive, the fruit dealers gaining the victory, the railway company having made an unconditional surrender in reference to the collection of the fees, which it is now positively asserted are to abolished. Under these conditions the fruitmen will go back to their quarters. All the claimed has been granted, and peace reigns once

Archbishon Lewis. Kingston, June 24.-The Synod of Ontarlo yesterday passed the canon providing for hte appointment of a bishop coadjutor, owing to the advanced age and consequent owing to the advanced age and consequent feeble health of Archbishop Lewis, the Metropolitan of Canada. It was also decided that the coadjutor shall have the right of succession to the archiepiscopal see, and that he shall have the same authority over the temporal affairs of the diocese as the archbishop.

The Archbisop and Mrs. Lewis will sail for England on June 30th.

The Redoubtable Rupert. Mr. Anthony Hope's great sequel to "The Prisoner of Zenda," which he has named "Rupert of Hentzau," is to be published "Rupert of Hentzau," is to be published on the same day in London, New York and Toronto. Simultaneous publication is necessary to meet the demads of international copyright. Mr. George N. Morang, who has acquired the Canadian rights of the book, has printed the largest edition ever attempted of a Canadian copyright book. He has had printing presses at work for three weeks on the job, the volume is now ready for issue in Canada, and very large advance orders have been booked. As a matter of fact, however, Canada has to wait for the United States and England, neither London nor New York being ready with their nor New York being ready with their editions. This is a feather in the cap of the Canadian publishing enterprise.

When Some Quack Doctor Tells You You Have "Galloping Consumption" and that He Alone Can Cure You,

so, and save yourself a long sickness and a longer doctor's bill.

Mr. J. O. Nissley, Middletown. Pa., writes us:
"My little old engineer had such a cold and cough that at times it caused him to vomit. I took compassion on him and bought a 50-cent bottle of Shiloh's Cough and Consumption Cure, telling him to take a teaspoonful every hour. Instead, he took a tablespoonful, keeping that up all night. Next morning his cough had entirely left him. I never saw any medicine work so quick."

Neglect of a cold is neither manly nor intelligent, knowing how disastrous are the results. The strongest people live moderately, never needlessly over-exposing themselves, but keeping in good health by regular habits.

If Shiloh does not cure you, take the bottle to your druggist and he will refund your money. That is a fair and generous proposition; you surely cannot quarrel with it.

Sold throughout the United States and Canada at 25c., 5oc. and \$1 a bottle; in

Canada at 25c., 5oc. and \$1 a bottle; in England at 1s. 2d., 2s. 3d. and 4s. 6d.
