"Peace Hath Her Victories

No less renowned than war," said Milton, and now, in the Spring, is the time to get a peaceful victory over the impurities which have been accumulating in the blood during Winter's hearty eating. The banner of peace is borne aloft by Hood's Sarsaparilla.

It brings rest and comfort to the weary body racked by pains of all sorts and kinds. Its beneficial effects prove it to be the great specific to be relied upon for victory. Hood's never disappoints. Scrofula — "Running scrofula sores made me shunned by neighbors. Medical treatment failed A relative urged me to try Hood's Sarsaparilla. Did so and in few months the sores completely healed." Mrs. J. M. HATCH, Etna, N. H.

Catarrh-" Disagreeable catarrhal droppings in my throat made me nervous and dizzy. My liver was torpid. Hood's Sarsaparilla corrected both troubles, a My health is very good." Mrs. ELVIRA J. SMILEY, 171 Main St., Auburn, Maine.

Tumors - " A tumor as big as a large marble came under my tongue and instead of letting my physician operate on it, I used my favorite spring tonic, Hood's Sarsaparilla. The bunch soon disappeared." Mrs. H. M. Coburn, 8 Union St., Lowell, Mass.

Hood's Sarsaparilla Never Disappoints

Hood's Fills cure liver ills, the non-irritating and the only cathartic to take with Hood's Sarsaparilla.

The assertion is fully borne out by facts, and were it not that there is a means of checking and curing Kid-ney Disease the number of its victims would be trebled. But the use of Dodd's Kidney Pills keeps the death-rate from this com-

plaint, quite low compared to its If Dodd's Kidney Pills were used, in every case of Kidney Disease, there would be no deaths from it

UNFLINCHING

Will Not Entertain Propositions of the Filipinos.

Spanish Colony in Mexico City Predicts

Manila, May 20.—(10:45 a. m.)—Two military and two civil Filipino commissiouers appointed to co-operate with three citizens of Manila in regotiating terms of peace, arrived here at 8:15 a.m. today.

They have submitted no new proposition, but want an armistice pending the session of the Filipin Congress. Maj. Gen. Otis has refused to entertain

The party was closeted with Gen. Otis for more than an hour, but the interview was decidedly unsatisfactory, the commission having nothing definite to propose and being unempowered to negotiate terms. The commissioners brought a communication direct from Aguinaldo asking for an armistice, pending the decision of the Filipino congress as to what policy should be adopted. As before, Gen. Otis re-fused to entertain the proposition. The commissioners, after leaving the city hall, accepted an invitation to visit the Oregon and the other vessels of the American fleet in the bay, and they were also granted permission to see their families before returning.

FIGHTING.

Manila, May 20-7:30 p.m.-The expedition up the Rio Grande River met with resistance at the outskirts of San Luis, where several hundred Filipinos were entrenched on the banks of the stream. The rebels retreated beyond Candaba, and the gunboats steamed ahead, all the way training their Gatling guns upon the banks and dropping shells wherever uniforms appeared on the shore. The gunboats dispersed the insurg-ents before San Luis. After they had passed, sharpshooters from trees across the river, a hundred yards distant, harassed the 17th Infantry which was marching by fours along the the narrow wooded road, from which the troops were unable to see the enemy. The members of one battalion laid on their faces in the road for a quarter hour trying to locate the riflemen and return their fire. Two Americans were wounded. The road wound close to the stream and was thickly settled. It was a picturesqe march; many groups of hundreds of natives were clustered under the trees on the opposite bank, displaying white shirts, towels, sheats or anything white on poles. Some shouted welcomes to the American soldiers, but most of them maintained a sullen silence.

An old man, in a carriage, met the troops two miles outside of the town. He said, "I have lived in England and I have told the people that Americans are like the English and that they need not be afraid." THEY HOPE SO.

As soon as Maj. Kobbe reached San Luis the natives raided the insurgent rice stores. All day a stream of half naked people emerged from the storehouse, in the manner of ants, rushing to their homes with bags of rice on their heads.

CONTINUOUS EXODUS.

The Rio Grande, since Maj. Kobbe started, has been the highway for the exodus of the natives, and today there is a continuous procession of thatched cascoes with white flags, drifting down the river, and containing whole families of from 20 to 30 persons with their household goods and animals on board. Thousands of these boats have passed the army gunboats.

Letter From Rev. Dr. Johnston on the

Subject. To the Editor of The Advertiser:

Sir,-As so much publicity has been given to my action in the case of Marion Brown, I deem it but right, not for my sake, but for the sake of truth and for the sake of those who lent me their support in the matter, that the following statement should

be made: First-I never entertained the opinion that Brown was innocent of killing the policeman, Toohey; the identification and evidence of the crown was too complete to admit of doubt in this matter.

Second—I never asked for mercy for Brown, nor did I desire that he should receive such. On the contrary, so serlous was the crime and so aggravated by his previous and succeeding conduct that I desired only that he should receive the most severe and rigorous punishment provided by law for his offense. I am no sentimentalist, de-siring to see justice usurped by mercy,

in the administration of law. Third—The killing of Toohey by Brown I held to be manslaughter, as that crime is described by the statue. This I held, and still hold. And, without entering on the argument, let me say that in this view of the crime viz., that it was manslaughter, and not murder, I am supported by thous-ands of the most thoughtful persons in London, among whom are a majority of all the members of the legal profession in the city, leading members of the other professions, the medical, educational and clerical, a large number of representative and prominent men in business and other callings, all of whom approve of the

efforts made on Brown's behalf. Fourth-The protest which I uttered on the morning of Brown's execution, I uttered quietly and calmly to the sheriff of the county while he was waiting in one of the rooms of the jail for the hour of execution to arrive, and after I had asked his permission, and been assured that there was no objection to my doing so. I neither asked for the presence of reporters nor desired their absence; but the dramatic effect so vividly described in the reports was apparent neither to myself nor to the sheriff whom I addressed. It was evidently the creation of the vivid imagination and facile pencils of men whose calling encourages them to add color to their pen pictures.

With regard to the ungenerous ascription of motives to me for my actions in this whole matter, I am not careful to make any reply. If my life is no answer to such, no words can avail. At every stage of the judicial system at which it was possible to stay proceedings and to secure a just punishment for a great crime, I did my utmost for the friendless and homeless wanderer. I have delivered my soul and my judgment is with my God. I am, Sir. respectfully yours, ROBERT JOHNSTON.
