Man Charged With Receiving Gets
Freedom After Lecture.

Charged with receiving stolen goods Patrick O'Neill, who lives at the R. station in this city, was released by Deputy Magistrate Bartlett this morning. The case was a charge of the theft of a car belonging to Harry A. Ruth last Thursday.

A juvenile, who was charged with the same offense and two juveniles who admitted taking the bicycle were up for trial. These cases were adjourned until Tuesday, the 30th, in order to give the O'Neill admiral the opportunity of the last time to make restitution.

NO TALK OF STRIKE AMONG POSTMEN OF THIS CITY AT LEAST

Carriers, However, Dissatisfied With Conditions.

EX-LODNONER FINDS 'EM Cartoonist Now Speaks "Constables" for Their Speedster Traps.

London letter-carriers are watching with interest the strike of their fellow-workers at Toronto. There is no talk of a strike here, though the local men are just as keen and have been urging the Government in every possible way, that their increase should come through. The men have been urged to make a provisional allowance, but this has never been placed into effect.

The proposal is to give them \$150 a year provisional war allowance in addition to the \$100 already received. This will go to married men and single men with dependents, and is in addition to the \$100 voted in 1917.

That the \$150 grant will be dated back to April 1, but it is not announced whether it will be paid to the men in a lump sum or in monthly installments. This is immaterial to the men, they say.

This offer, however, is said to be temporary. It is understood that the Postmaster-General Blomfield has weakened in his new interest in matters relating to the postal service, and he has made a promise that within two weeks he will have the cabinet settle the whole question of salaries.

There is no little unrest among a large number of civil service employees. The letter-carriers are only a small portion of those who are dissatisfied in a manner in which the service, particularly the postal branch, has been run.

VASTLY DIFFERENT TYPES OF COWFLY FOUND AT LIDERTON

Prove To Be New Varieties
To Agricultural Expert.

Two different types of the "cow flies," the insect pests which are so annoying to farmers in Western Ontario, have been sent to The Advertiser by J. J. Macdonald, a farmer near Liderton. The flies were found on his farm, and he has submitted them to F. R. Higgins of the Ontario Agricultural College at Guelph, who has declared that they are new varieties.

The "flies," which are really more than a fly, will be kept at the local branch of the agricultural department for the purpose of ascertaining an appointment with the invalided soldiers' commission.

REALTY DEALS HIGH IN MAY, BUT DROPPED BACK IN PAST MONTH

Prices Continue to Hold Generally High Percentage

Real estate transactions jumped up considerably in May, to tumble down in June, according to statistics compiled by Assessment Commissioner Stephen Grant's department.

The figures for the past three months are: April-73 transactions; property assessed, \$71,483; and sold for \$8,921, a percentage of 73.5; May-66 transactions; property assessed, \$136,222; and sold for \$10,404, a percentage of 76.4; June-66 transactions; property assessed, \$136,222; and sold for \$10,404, a percentage of 76.4.

There is a general misunderstanding, many believe that the percentage is the assessed value of the property, and when they see a certain percentage quoted they rise to object to Mr. Grant, and his department. The percentage, Mr. Grant says, is the percentage of the amount received for the property sold, as compared to the assessed value of the property.

PERILS OF PAULINE HAVE NOTHING ON THOSE OF HIGHWAY

Hamilton-Toronto Auto Run
Series of Pitfalls.

EX-LODNONER FINDS 'EM Cartoonist Now Speaks "Constables" for Their Speedster Traps.

Harry Moyer, one of The Advertiser's editorial old boys, now cartoonist on the Toronto Star, is in the city accompanied by his family and his fiancée. He took to sketching the famous Canadian artist has crowded the columns of his paper with sketches of the perils of the highway.

He has also turned some gasoline on his expense account to drive out to Burlington, Port Credit and other burgs along the cement speedway Hamilton-Toronto, pictorially to the motorists.

Recently a certain distinguished editor of Toronto appeared in the Port Credit police court—held in the village school, 't'gosh. We are not saying it was Mr. Moyer, but anyway he was fined, he protested that he was only 15 miles an hour, but a squeaky-voiced son of a cross-eyed rabbit got up and produced a book.

"Fourteen dollars and costs," said the buccolic beak.

"Why don't you get a fat and stand out in the road and take it away from us. Get into the hold-up game regularly," said the man charged.

"Commit him for contempt of court, you lot," said the judge, who was a piping tone that must have been acquired by lying under damp hedges.

"Go on and commit," said the prisoner at the bar. "I'll fight you to the privy council."

He stayed for a while and some of the "constabulary" made a remark about his "constabulary" and then quit.

"Commit him for contempt of court," squeaked the fly butt.

But there was a look in the eye of the enraged member of the Independent Order of Filiverters, and as a result Cartoonist Moyer is not languishing in jail, but is spending his vacation in the best city in Canada, among his old friends, and he is enjoying it so much that he may even join the delight of hitting it up at 25 miles an hour or so.

Blow, blow, thou wintry wind,

It was not so hot yesterday. The sun shot a few vertical rays this way, and some sultry breezes waited in every time you passed a window, but the heat was so intense that the city was wilted.

EX-COMMANDER CABLES Sends Reassuring Message of Lieut. H. E. Thompson's Safety in Germany.

Major Billy Bishop, Canada's premier aviator, this morning cabled Lieut. H. E. Thompson of Springfield that his brother, Lieut. H. E. Thompson, a former Western University student, and a member of Bishop's circus squadron of fliers, is now a prisoner. Lieut. Thompson was reported as missing about two weeks ago.

Major Bishop's cable follows: "Your brother is a prisoner, and from all I can learn, unharmed. This is a relief, as he was reported missing. Lieut. Thompson was flying in France with Billy Bishop's circus squadron, and he was reported as missing. He was forced to land. However, fliers have been held that it was the former, since he was reported missing. However, it is now believed that either his machine was damaged or he was forced to land and he was taken a prisoner."

Lieut. Thompson received his flying training in England. He was sent to France, but after a short time was recalled to England to assist in training other cadets. When "Billy" Bishop ordered his circus squadron to move to England, Lieut. Thompson was one of his men.
