URGES FARMERS TO STAND FIRM

Men From Back Concessions Must Do Future Lobbying, Says Morrison.

REAL DEMOCRACY NEEDED

Meeting Held At Melbourne Last Night Was Largely Attended.

(By Staff Reporter.) MELBOURNE, May 28. - Farmers from all over the district gathered in the town hall here tonight to hear J. J. Morrison of Toronto, secretary of the years director, discuss plans for a campaign to raise funds for U. F. O. work. The objective of the campaign is \$250,000. Mr. Morrison told of the work being done. Last year he said the U. F. Q. stores did \$8,000,000 worth of business. This year it is expected the turnover will be \$30,000,000.

will be \$30.000,000.

Expect an Election.

In the course of his address Mr. Morrison said that a Dominion election is expected soon, and he urged the farmers to stand together as they had done when they swept Ontario. In the past, he said, the big concerns did the lobbying and got whatever they wished. In the future the men from the back concessions should do the lobbying and see to it that they got what they wanted. England and France Agree to it that they got what they wanted. On Italy's Request.

Rome, May 29.—England and France have agreed, upon request of Premier Nitti, to postpone the Allied-German conference at Spa from June 21 to July 15, according to the Tribuna. This will allow the Italian premier to participate in parliamentary work here for almost a month longer than would otherwise have been possible.

For the same reason, the newspaper says, the financial conference at Brussels will also be postponed.

The speaker told of the results government policy has had in depopulating the rural districts. In one school in his home section, where they were formerly forty pupils, there are now only three or four. People were moving off the farms and into the cities, and he hated to see the land going to strangers and in some foreigners.

Harold Curry eulogized Secretary Morrison and told of the work he has done. Mr. Morrison, he declared, will be revered when the names of men like Halcrow of Hamilton and MacBride of Brantford are forgotten.

Farmers Are Losers.

Discussing conditions he declared that in many cases the farmers are giving good honest goods which they work fourteen hours a day to produce to the city man who only works eight hours and produces shoddy. He denounced itarism, declaring that if given Continued on Page Thirteen.

JUDEA FOR JEWS TERMED MIRACLE

Dr. Joel Blau Calls It Event of Present Hebrew Era.

Detroit, May 29.—Dr. Joel Blau, lew York City, speaking before that the San Remo declaration of "Palestine for the Jews," was the first step toward a motherland for the 6,000,000 Zionists.

Tive detective for Crowley, Milner & Co., fought the youth into subjection Friday afternoon after a battle lasting several minutes, and turned him over 100,000 Zionists.

Dr. Blau said the Balfour declaration Detective Louis Grossman from tion, made at the San Remo conference of the league of nations, was one of the twin miracles of the present Jewish era. The other miracle, he said, was the Zionists' declaration to build up and restore Judea. Some of his outstanding remarks were that it was the American spirit and belief in world democracy which helped to force through the San Remo declaration, that its enforcement by the league of nations will no longer allow the heel of the Turk to crush the pative Judean: that the crescent was severely bitten. tion, made at the San Remo conferthe native Judean; that the crescent was severely bitten. will cease to fly over Palestine towers; and that the world is at last to do justice to the earth's eternal wanderer who may now know that he has a

Time-Honored Principles.

References were made by Mr. Purdom to the time-honored principles on which Liberalism was founded, both in Canada and Great Britain, and its historical importance and grandeur in first championing responsible government and popular rights. Liberalism of the past had left high traditions to maintain. It was a cardinal doctrine of Liberalism that the will of the people should be respected, but despite the lessons of history, there were still men and parties so blinded by dictatorial ambitions and propensities, that they imagined they could override the people had peen made in attempting to use the city of London bill to secure money for projects the people had voted against.

Mr. Buchner, it was thought at first that no one would ever be found to take his place in the forefront of Canadian Liberalism.
