STOCKS WERE INACTIVE BUT A FEW ADVANCE

Small business was the feature of the Toronto stock market yesterday and the buoyancy on Wall Street had no perceptible influence even on shares interlisted with New York. Sterling exchange was also comparatively strong, but this did not prevent the continued offering of Brazilian at 37 and at the close the support was lowered to 36%.

Few of the listed issues gave any evidence of strength, but on the curb Brompton and some of the other papers were sold at higher prices. Canada Bread was up over a point, and the interests behind Duluth gave this stock more prominence by bidding it up to 15.

The Sawyer-Massey movement was revived again and ten shares of the common sold at 17, and the preferred changed hands at 55. Investment shares were dull and with only minor changes, and these, if anything, were down.

It was reported yesterday that some money was available for the market from private lenders, and that any present speculative demands were being accommodated by means of these funds.

ANOTHER SEAT SOLD ON TORONTO EXCHANGE

R. A. Daly, secretary of the special Victory bond committee, has bought a seat on the Toronto Stock Exchange. This is the third seat bought by local bond dealers during the past few days, and is accepted as a sure indication that the Victory bonds are shortly to be re-leased from the protective committee, and left for open trading in the mar-ket. A big business in the bonds is ex-pected when this is done. The seats re-cently sold are said to have brought about \$11,000 each.

HIGH CLASS GOLDS ARE ALL WANTED

The underlying strength of the high class gold stocks was again the main reature of the market for mining shares yesterday. There is a continuous demand for Hollinger, McIntyre and Dome, and brokers have orders to pick up any of these shares at reasonable prices. The buyers are not the ordinary speculators, and the presumption is that the stock is being taken by insiders. Hollinger sold up to 592, and was wanted in almost any quantity at that price. McIntyre was allowed to rest yesterday, and the price simply marked time.

Dome sold only for ten shares at 12.50, but there was a fair sized market for Dome Extension at 37, which appears to be the cleaning up price of all loose stock. V. & N. T. was active and steady at 25.

Mar. Montreal, Sept. 17.—Trading in Brompton today on the local stock exchange overshadowed everything else. The stock opened at 78, an over-night enhancement of a large fraction and worked up quietify on a strong demand, with the day's top price of 80 in the closing tractions, leaving the stock a net gainer of 2½ points on the day. Other issues of the paper group were also conspicuous, Abitible opening unchanged at 81½ and firming up to 82¾, with the close at 82½, up a point. The Spanish River retrieved, their lost price fortunes of yesterday.

St. Maurice paper "called" for the first time on the floor of the house, gave a demonstration of strength—in dealings totaling around 500 shares, being bid up to 150, or 5 points above the last transaction reported on the unlisted department yesterday.

WHEAT IS STRONG, OTHER GRAINS OFF

Ottawa, Sept. 17—(By Canadian Press).—Canadian doctors are being sought for service in East and West Africa. A letter addressed to the governor-general, by Lord Milner, secretary of state for the colonies, asks as to the number of young Canadians who would be likely to accept service under the colonial office. If sufficient candidates were available, the letter states, a senior medical officer of the colonial service would be sent to Canada to interview candidates and report as to their suitability.

The report of the Canada Bread Company for the fiscal year ended June 30 last shows, as Mark Bredin, president and general manager, points out, the largest volume of business in the history of the company. The manufacturing profit was \$293,881 which, with the balance of \$103,418 carried over from the previous year and \$16,237 interest from investments, made a total available of \$413,537. This was distributed as follows: Bond interest, \$67,199.50; depreciation on war honds, \$10,214.16; bond purchase, \$12,500; profit tax, 1918, \$13,828,53; preferred dividend, \$87,500; balance June 30.
