MORNING WAR CABLES

A squadron of naval aeroplanes on Friday successfully bombed Bulgarian airbases on the Macedonia front with excellent results.

An air raid on Rhenish Prussia was carried out successfully on Friday also by British naval air craft.

On Saturday the British air raids were continued with great effect.

Gas attacks were used successfully by the British in the Ypres salient on Saturday night.

The French have completed the conquest of Sully-Salviel.

The Russians and Roumanians have taken the offensive again. They have stormed the heights and penetrated fifty miles into Transylvania. The Germans are fighting ground on the western Roumanian front.

It is probable that the line of the eastern front is stationary for the winter.

J. L. Garvin, the American who has been giving his impressions gleaned during a stay in Germany, predicts that the war may last two years longer.

OUR ARMY IN ENGLAND
(Halifax Chronicle)

The London correspondent of the Montreal Star, in a copyright cable with reference to the appointment of Sir George Perley as Overseas Minister of Militia, says that "Canadian military circles in London are wondering what is going to happen next," and he states that "if this appointment really means new broom sweeping conditions overseas, he will be welcomed most of all by the fighting men at the front." Then he goes on to pay a "tribute" to the government management of Canada's hosts of men overseas, by saying that "military men from the Dominion who should know, hint that overlying during the last two months has been tremendous, and that staffs generally on this side could be reduced by one-third." This, of course, refers to the large number of Canadian officers in England who have never seen the front. It tells a tale of how Canada's military administration has been bungled.

AN EXPERT ON COLDS

Comparatively few people realize that a cold is a signal of physical weakness. To treat a cold with weakening physics, alcoholic syrups or drugged pills, may smother the cold but they also reduce the body powers still further and invite more serious sickness.

Scott's Emulsion has always been an expert on colds, because it peculiarly enriches the blood, quickly tones up the forces and strengthens both throat and chest. Try Scott's, Refuse Substitutes.

WEAR RUBBERS TO SAVE SHOES

Economical Housewife is Giving This Advice to Members of Her Family to Defeat High Cost of Shoes

The economical housewife is outfitting her family now with rubber footwear for the fall rains and the winter snows. She is doing this because she knows that rubber is the only staple article that has decreased in price since the war began, and that rubber shoes and overcoats cost no more now than they did before, while leather has reached a price that is almost prohibitive.

"Save your Shoes by Wearing Rubbers" is the thrifty woman's advice to her family. Rubbers cost no more than they did two years ago. Leather has advanced over 50 per cent. The British government has made cheap rubber possible. Show your patriotism by buying rubbers and overcoats to save your leather shoes.

Buried Yesterday

The funeral of Miss Mary Kennedy, who died at Haverhill, Mass., on Friday last, took place yesterday afternoon from the residence of her mother, 98 Exmouth street. There was a large attendance and the floral offerings were many and beautiful. Services were conducted by Rev. Gordon Dickie. Interment was in Fernhill cemetery.

BORDEN ORDERS INQUIRY

Providence Journal Report That Canadian Nickel is Being Taken Back on Deutschland

Ottawa, Nov. 12.—Sir Robert Borden has directed that inquiries be made into the allegations of the Providence Journal that Canadian nickel is being taken back as part of the cargo of the German submarine Deutschland. The question will be taken up by the cabinet today, and an official statement issued.

In the meantime government circles discredit the story, asserting that sufficient safeguards have been provided. It is said that some mines in the United States are producing a limited supply of nickel.
