

BERMUDA RUGBY TEAM WILL PLAY IN SAINT JOHN

Probably Here Next Month—Good Local Football Season Expected

From present indications football fans in Saint John will be given some rare gridiron treats this fall. A Bermuda Rugby team will probably stack up against the Trojans on Wednesday, Oct. 27, although Manager Walter Golding, of the locals, said last night that he was endeavoring to arrange the game for a Saturday afternoon. The Trojans, if present plans mature, will bring University of New Brunswick and Mount Allison football squads, and possibly others, here for contests.

The tour of the Canadian provinces by a Rugby team representing Bermuda in October is pretty well determined now, and the following is the schedule of the tour so far as is known at present:

Sept. 28—Leave Bermuda for Montreal via New York.
Oct. 1—To arrive at Montreal.
Oct. 2—To play McGill.
Oct. 6—To play Sun Life Insurance Company.
Oct. 8—To play Montreal English Rugby Club.
Oct. 13—To play University of New Brunswick (at Fredericton).
Oct. 16—To play the Wanderers (at Halifax).
Oct. 20—To play Dalhousie (at Halifax).
Oct. 23—To play Acadia (at Wolfville).

AMATEUR OUTFIT

The Bermuda 16, which is touring under the auspices of the Bermuda Athletic Association (affiliated to the Amateur Athletic Association of England), is composed chiefly of Bermudians, but it has been found necessary to include a few players from the army now stationed in Bermuda.

Manager Golding said last night that he had been in communication with the Bermudian management and that they had suggested Wednesday, Oct. 27, as a convenient date for them to play here. Manager Golding said he was endeavoring to have the southern aggregation show here on a Saturday as the crowds would naturally be larger than on a mid-week afternoon. Mr. Golding said the Trojans would be under a considerable expense in bringing the visitors

No More Piles

Thousands Bless Dr. Leonard's, the Physician Who Discovered This Common Sense Remedy

If you think that the surgeon's knife is the only method of escape from the misery of piles, it's because you haven't heard of the new remedy known as Dr. Leonard's HEM-ROID.

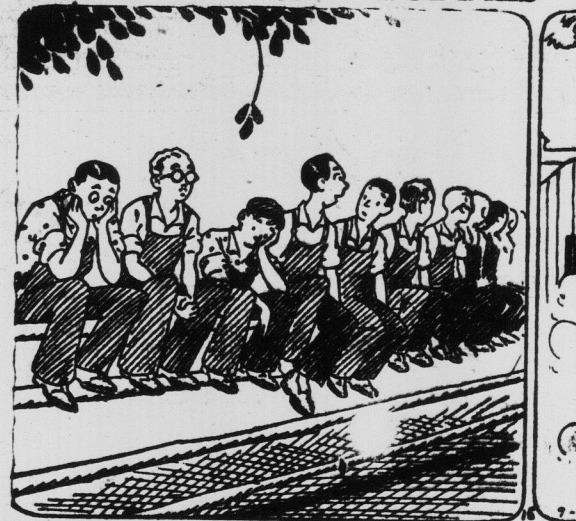

This Doctor's treatment is internal. By experimenting for years he discovered the exact cause of piles and then went further and compounded a remedy that would cure them without surgery. Dr. Leonard wants every sufferer to benefit by his discovery, and he has authorized to sell HEM-ROID with guarantee that it will do as stated or money back.

On that honorable basis every sufferer should secure a package of Dr. Leonard's HEM-ROID today.

Texas Stars Beam In Film Sky

Moviemakers thank Texas for this galaxy. Left to right above: Florence Vidor, Ellen Sedgwick, Ruth Renick. Center: Corinne Griffith. Left to right below: Mary Brian, King Vidor, Edward Sedgwick, Bebe Daniels.

By DAN THOMAS

TEXAS—So often spoken of as the "State of Stars," you will find at least eight products of Texas in the cinema heavens if you count carefully. Bebe Daniels, Mary Brian, Florence Vidor, Corinne Griffith, King Vidor, Edward Sedgwick, Ellen Sedgwick, Ruth Renick—that's the list. King Vidor and Edward Sedgwick have gained their prominence behind the camera as directors, the others out in front.

Bebe Daniels was born in Dallas. Much of her early life was spent backstage with a small stock company in which her father was an actor. About seven years ago Bebe "crashed" the movies, playing opposite Harold Lloyd in two-reel comedies. Now she has her

own comedy unit on the Famous Players-Lasky lot.

Mary Brian was born in Corsicana, but spent most of her school-girl days on her uncle's ranch in west Texas. To this day she retains a great knowledge of horses, and still can throw a mean lariat. Mary rose to cinema fame as Wendy in "Peter Pan."

Houston claims Florence Vidor as a native daughter. And the Houston picture lovers never fail to turn out en masse when one of Florence's films comes to town.

Corinne Griffith's home town is Texarkana. She has been in pictures many years, but not until she signed a contract with First National did she become a real top-notch star.

King Vidor hails from Galveston. His work in films started right at home, where he wrote, directed, and acted in one-reel comedies. Then he came to Hollywood, started in as a camera man, and worked up to his present position. He became recognized as one of Hollywood's leading directors almost overnight with the making of "The Big Parade."

Galveston is also the birthplace of Edward Sedgwick and his daughter, Ellen. His theatrical work started at the age of three. Before coming to Hollywood, Sedgwick was a newspaper writer.

Red-headed Ruth Renick made her bow to the world in Colorado. Texas. She started out to be an opera soloist, but found the movies more remunerative.

TUNNEY IS ANXIOUS NOT TO GO STALE

Challenger Expects to Enter The Ring at 186 Pounds—Has a Two-day Rest

STROUDSBURG, Pa., Sept. 16.—With two full days of rest from boxing under his belt, Gene Tunney declared today that he felt much better and was ready to resume swapping punches with his sparring mates. The challenger decided yesterday that he would make his lay-off two days instead of one, the decision being prompted by the discovery that he was getting down to his fighting weight at a faster clip than he desired.

With the expectation of entering the ring at 186 pounds, Tunney found yesterday that he was only one pound over that figure. From the first there has been only one worry about condition in the Tunney camp—a fear that the contender might go stale.

Billy Gibson, Tunney's manager, today had received no reply to his telegram offering to make a "modest wager" with the Prince of Wales on Tunney's chances against Dempsey.

However, Gibson's cable was sent to London, while the Prince is in Paris. The cablegram followed a published statement that His Royal Highness liked the champion rather than the challenger.

OFFICIAL STRICKEN AS POLLS CLOSED

Returning Officer at Ste. Anne de Bellevue Ill.—Raid Report Denied

MONTREAL, Sept. 16.—Armand Lefebvre, returning officer at Ste. Anne de Bellevue, was stricken with apoplexy just after the polls closed at 7 o'clock, daylight saving time, on election day. The collapse of Mr. Lefebvre led to the circulation of a report that the polls had been raided by a gang and a number of ballot boxes stolen.

Mayor Boileau denied this report of a raid. "Everything is in order," he declared. "No ballot boxes are missing. The illness of Mr. Lefebvre is due to the strain of a hectic day's work."

The stricken returning officer was taken to his home, where he is reported to be doing well.

Class 1 railroads of the United States spend in the neighborhood of \$200,000,000 annually for forest products, and thus constitute the market for about 2 per cent of the country's lumber production.

The British Empire covers about one fourth of the world's habitable land surface.

BERLIN, Sept. 15.—Contaminated meat served in Duisburg has caused 55 persons to become ill with typhoid fever.

Reports from Warsaw say that there is alarm there over an epidemic of scarlet fever. Eight hundred persons suffering with the disease are said to be in hospitals, while an equal number are ill in their homes.

The first American railway, built for steam locomotives, was begun in 1830.

Insulin Demand Is Heavy In Ontario

TORONTO, Sept. 16.—At a total cost of \$2,806 to the province, 838 patients received 623,850 units of insulin during the month of August from the provincial laboratories, according to a statement handed to Dr. Forbes Godfrey, Minister of Health. Distribution and manufacture was at the average cost of \$3.26 per patient. In Toronto 177 patients received treatment of 222,280 units, at a cost of \$1,000. In London, 11 patients received 18,900 units, at a cost of \$82. Ottawa had 22 patients, who received 17,200 units at a cost of \$77. Windsor had 11 patients who received 12,500 units at a cost of \$56.

PILLOW SAVES LIFE OF CHILD IN FALL

Three Year Old Plunges Five Stories But Carries Cushion With Him

NEW YORK, Sept. 16.—Mrs. Anna L'Hommieu, of the Bronx, put her three-year-old son Rudolph in the bedroom when she went to prepare dinner, and left him sitting on the floor happily tearing leaves from a book. But he soon tired of this and lugged a pillow from the bed to the window, where he put it on the sill and rested his elbow on it, looking across the courtyard.

Something attracted Rudolph's attention and he leaned eagerly out of the window, clutching the book in one hand and the pillow in the other. The pillow slipped and Rudolph plunged out of the window headfirst to the ground, five stories below. But during the fall he kept his hold on the pillow and when he landed the pillow was underneath. It broke his fall and when an ambulance surgeon came he found that the boy had suffered a lacerated scalp and a possible fracture of the skull.

He was sent to Fordham Hospital, where it was said he probably would recover.

Poplar trees grow satisfactorily only when they receive plenty of light.

Now Gray Hair Can Be Bobbed

The tinting gray streak shows up when the hair is bobbed. Make it youthful with Brownatone. Easy to use, no delay. Apply once and thereafter only as new hair grows in. Positively safe, contains no harmful ingredients. Natural shades assured. Brownatone is sold and recommended by all dealers. Two sizes—26c and \$1.20. Two colors, lightest blonde to medium brown, and dark brown to black. Trial bottle for test sent for 20c. Indicate color wanted. The National Pharmaceutical Co., 1508 Stearns Bldg., Windsor, Ont.

MORSE IS DECLARED TOO ILL FOR TRIAL

Shipbuilder Excused But Case of Others, Including Three Sons, to go on

NEW YORK, Sept. 16.—Fletcher Dobbins and Sylvester R. Rush, special assistant U. S. attorney general, in charge of the prosecution of Charles W. Morse and 21 others for alleged use of the mails to defraud investors in three corporations capitalized at \$90,000,000, have filed with Judge Louis H. Burns in the Federal Court a report that Morse is not in a condition to go to trial.

The report was submitted to them by Dr. S. Philip Goddard, professor of clinical neurology at the College of Physicians and Surgeons, of Columbia University. Dr. Goddard's report said: "At present I do not regard the subject as able to undergo the excitement and strain as defendant in a protracted trial. I am also of the opinion that he is not now competent to give intelligent aid to his counsel in adequately and properly preparing his case."

Mr. Dobbins said that, in view of the report, Mr. Morse would not be placed on trial October 4. He said the trial of the other defendants, including Morse's three sons, Harry, Edwin and Benjamin W. Morse, would go on as scheduled.

Mr. Morse, who is 70 years old, was said by the physician to be suffering from arterio-sclerosis that has especially affected the circulatory mechanism of the brain.

The corporation, investors of which it is alleged Morse and his associates fraudulently are the United States Steamship Company, the United States Transport Company and the United States Ship Corporation, all Morse organizations.

How to Keep Age-Lines and Flabbiness Away

Don't forget that the woman who smiles will have a skin more free from wrinkles than the woman who frowns. When wrinkles begin to appear it is a good plan to bathe the face once a day for a while in a harmless solution made by dissolving an ounce of powdered salicylic acid in a half pint of witch hazel.

This is remarkably effective in erasing the hateful lines, not only because the skin and thus from out the lines, but also because of a helpful tonic effect which improves capillary circulation and nerve tone. There is nothing better for flabby cheeks or chin. Be sure to ask the druggist for the powdered salicylic.

Klan Asks U. S. To Disregard Mexico

WASHINGTON, Sept. 16.—Winding up its third biennial convention, the Ku Klux Klan yesterday adopted unanimously a resolution requesting the American government not to interfere in the religious controversy in Mexico.

Rheumatic Pains Go Swollen Joints Vanish

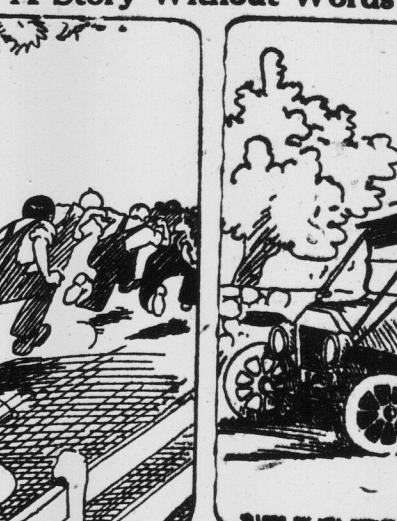

Thousands of sufferers have freed themselves from the bondage of rheumatism, and themselves of the torturing pain; reduced the swollen joints; thrown off heavy chains and crutches, and from helpless beings became able to work and be of use to themselves and families.

They took Rheuma: the modern enemy of rheumatism and gout.

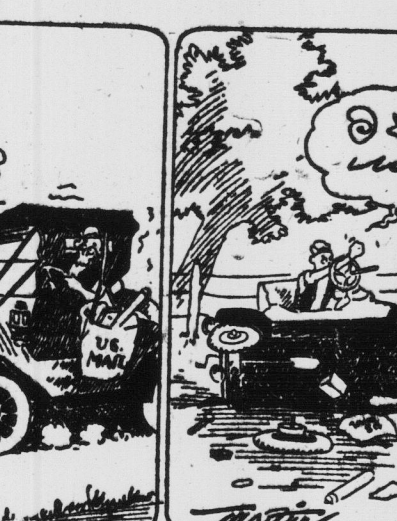

Don't be skeptical about Rheuma. You will know in a few days after beginning the treatment that the dangerous poisons are leaving your system through the natural channels. Rheuma should please you in a day and make you hopeful of quick recovery in a week or more.

Rheuma acts on the blood, stomach and liver, and must quickly bring boggy, strained or congested organs to normal for comfort to distressed sufferers or money back. Watson's stores and druggists everywhere sell it with this guarantee.
