## JEREMIAH STOUT OF FAIRVILLE DEAD

Prominent Resident was in  
73rd Year—End Came  
Suddenly.

A pioneer who came out from Scotland in 1862 and settled here passed away early this morning in the person of Jeremiah Stout, at his residence in Fairville. Although in failing health for the last two years, the end came suddenly and as a shock to the many friends and relatives of this old gentleman. He was in his 73rd year. Besides his sorrowing wife, he is survived by one daughter, Mrs. H. B. Doherty, Beverly, Mass.; three sons, Learmont A., Winnipeg; H. Marshall and Stanley M., at home; and one brother, Alexander M., of Bathurst, N. B. The funeral will be held on Saturday afternoon at 2:30 o'clock, from the Fairville Methodist church.

Born on Fair Isle, Scotland, in 1851, Mr. Stout came to this country when a lad with a band of Scottish settlers, among them his future wife. He first located on the North Shore, later coming to St. John. For a time he followed the sea, but on giving up the seafaring vocation he opened the business that he had maintained for many years in Main street, Fairville.

He was a leader for many years in the affairs of the Fairville Methodist church, being treasurer for a long time. For a quarter of a century he was superintendent of the Sunday school, and for 30 years he was leader of the choir. He was a member of the Independent Order of Foresters and for a time auditor of the Fairville school board. His death will be deeply regretted by the many who knew him and admired his lovable character.

## CASE AGAINST WM. LEAN IS DROPPED

It Followed Auto Accident  
in Which Two Women  
Figured.

William M. Ryan appeared in the police court this morning in the case against William Lean of the Loch Lomond road, who was summoned to court on suspicion of supplying liquor to Raymond Pyne and his daughter Mable, who figured in an automobile accident on the Loch Lomond road. In summing up his case before Magistrate Henderson, Mr. Ryan said the evidence was unconvincing and while he was of the opinion that there had been an offense committed under the evidence he would not ask for a conviction. Magistrate Henderson said he concurred with Mr. Ryan and had arrived at the same conclusion. He was of opinion that the evidence for the prosecution, who were the two women in the case, could have given more evidence had they been so inclined. He then dismissed the case.

The men in the case said they had received only soft drinks at Mr. Lean's. When testifying the women said they would not say positively that they had received intoxicating liquor.

After testifying yesterday afternoon the women were sent to the hospital for treatment. Both had sustained quite bad lacerations and bruises and it was feared that blood poisoning might set in if they were not cared for. When asked today regarding their case, Magistrate Henderson said he had disposed of it. He said that the only charge against them was for drunkenness.

Raymond Pyne was taken into custody yesterday afternoon and charged with speeding, reckless driving in the Loch Lomond road and operating a car while under the influence of liquor were made out against him. His case was heard before Stipendiary Magistrate Adams at East St. John and he was remanded until Friday morning to give the prosecution a chance to procure witnesses.

## LITTLE ONE IN TRAFFIC PRESS

Stella May Flanagan, aged two years, gave Traffic Policeman James McNeil quite a scare this morning while he was on duty at the intersection of Mill and Pond streets. While vehicles were passing he suddenly caught up the little tot passing between two heavy slovens. He quickly signalled for all traffic to stop, fearing that the little one would be run over, and then, taking her by the hand, he led her back to the sidewalk. When questioned, she answered: "I can't find mammy."

The child was sent to the police station for safe keeping and while there was kept amused. Later her mother, Mrs. Annie Flanagan, of Pond street, arrived and took her home.

## NEW LIGHTHOUSE.

The Dominion Public Works Department has been doing considerable dredging recently in Yarmouth harbor on what is known as Bunker Light shoal. This dredging has now been completed, making a straight run in and out of the harbor. While the work was going along the marine and fishery department maintained a lightship and also built a new lighthouse on the shore of Bunker Island, at an approximate cost of \$25,000. The new lighthouse has been placed in operation and the lightship will be removed next Saturday.

This tank is capable of holding the material from about 70 catch basins. The machine can be operated by two men.

## CITY WILL HAVE EQUIPMENT TO SELL

Get Clear of Some Articles  
Not Needed—Tax Ex-  
emption Matter.

The city commissioners in committee session this morning decided to have a sort of house-cleaning sale of material belonging to the city that has long since outlived its usefulness. The decision resulted in a discussion started by Commissioner Frink who asked for authority to sell two old trip carts now stored away in the Exhibition building. This reminded Commissioner Harding he had an old motor ambulance for which someone had offered him \$50. Commissioner Wigmore recalled he had an old motor truck for which he had received a bid of \$175. He said he tried to get \$200 and if the Council would give permission, he would make the best sale possible.

Mayor Potts expressed the opinion that public sentiment was against any private sale of the city's property. He suggested it would be wise to have each commissioner submit a list and call for tenders for the entire lot. Commissioner Wigmore said that probably would be the better way and hold a public sale. Commissioner Bullock objected. It was his idea to have each commissioner submit his list to the Council and let the Council give each one authority to dispose of the list. "You can sell the Ludlow on your list," interjected His Worship. It was finally decided to follow the Mayor's idea and hold a public sale.

## General Business.

Commissioner Frink reported the N. B. Telephone Co. Ltd. had requested permission to lay a conduit in Princess street, between Carmarthen and Wentworth. Approval will be granted subject to city regulations. An application from the Civic Power Commission for authority to order line materials was approved. Lewis Connors wrote through his solicitors, Barnhill, Sanford and Harrison, asking what action the city intended taking in regard to taxation exemption for his proposed manufacturing plant in West St. John. He reported he had leased the land from the C. P. R.

The Common Clerk had a resolution prepared on this matter giving Mr. Connors five years exemption from the tax on his property, except on school and water taxes. As there was no information available respecting the exact nature of what Mr. Connors proposed to manufacture, the matter was placed on the table until this information was to hand.

Commissioner Frink said the council could not grant exemption if there was another company in the city manufacturing the same article. A request from Commissioner Wigmore for authority to modify the city's vacant lots in Brunswick Place where paving operations will commence soon to install water and sewerage on their premises was granted. If work is not done within 15 days from date of notice, the city can do the work and the owners must foot the bill.

Commissioner Harding presented a bill from John Magee for repairs to the city market building amounting to \$268.08. This was approved for payment.
