How They Avenged Their Comof circulating capita as follows: rades and General Who Fell nce 12, Germany Italy 1 1-5, Holland at Magersfontein. ssesses on an ave.

A Grim Charge-The Boers Were Routed With Cold Steel.

How the Gordon Highlanders at haba Nchu avenged their comrades beloved general who fell at Magerstein, is told graphically in the London aily News by A. G. Hales. Mr. Hales

When, a few months ago I stood upon he yeldt almost within the shadow of frowning brow of Magersfontein's urly heights, and looked upon the cold, ern faces of Scotland's dead, and lismy soul that a day would dawn when otland would demand an eye for an blood for blood. I read it written n the faces of the men who strode with

his feelings.

Six Thousand of the Foe,

under Louis Botha, cool, crafty, longheaded resourceful, have held the kopjes. Again and again we have manoeuvred to trap them, but no wolf in winter is more wary than Botha, no weasels more watchful than the men he commanded. When we advanced they fell back, when we fell back they advanced, until the merest tyro in the art of war could see that a frontal attack unless made in almost hopeless positions was impossible. Hamilton swept round their right flank, ten miles north of Thaba Nchu, and gave them a taste of his skill and their positions, and holding them firmly ed upon was Scotland sweeping on her best roper, a cow-puncher born on the himself, so threatening their rear and foes.

one expects he will attempt to do. The Gordons' Revenge.

was the hero of the hour. He is a fine with Towse the day he won the cross." igure of a man, well set up, good lookstrong, active. He was, I think, about the only soldier I have seen who could wear an eye glass and not lose by In age he looked about forty. I ember snapping a "photo" of him as was "tidying up" the grave of galant young Huddart, an Australian "middy," who lay buried on the veldt,

On this fateful day Capt. Towse, with about fifty of the Gordons, got isolated en one end of the copper wire as to from the main body of British troops, give it the shape of a pencil. Rub off the hours of daylight, though the men of claim on Big Horn mountain. A CURIOUS EXPERIMENT.

How to Make Your Writing Grow Visibly Before Your Eyes,

A curious experiment which anyone can perform at the cost of a few cents be gathered from the fact that in walkherewith explained, says the Scien- ing directly back from our rear line one tific American: "Buy one ounce of liquid had to traverse a mile and a half of but the Boers collected that portrait sodium amalgam, a sheet of aluminum veldt before the bullets ceased to throw costing a few cents and about six inches up the dust in his neighborhood. It was of stout copper wire. With a file sharp- obviously impossible to get stretchers up coming famous, sized up the position ment. Dip the pointed end of the wire could be recovered. It was simply what happens.

Then they will rise above the metallic harmless, for the Boers were using may wipe out the white substance which has thus spring from the same metal; it will develop again with the line of fire plenty of time to escape. Moreover, the smoke made a splendid target so that our field please put the same vigor as would some kind of mushroom gifted with the rather abnormal property of theiving on metallic ground.

ground.

These white formations consist principles of the principles of the principles of Britain's army. Boys stood side by side with old men, lads braced themselves shoulder to shoulder with men in their manhood's prime, ragged beards fell on still more ragged shirt fronts. But there were many hearts behind hose ragged garments, hearts that beard light with love of home and country, learts that seldom qualled in the hour of peril. Their trices lay in hands steady and strong. The Boer was face to face the mercury to adhere to get the mercury to adhere to the side of the Boer, but the bayonet in the Briton; the mercury to adhere to the aluminum. Sodium facilities also the law in the Briton; the product of which is aluminated by the Briton.

Throw un vor heads of the Boer was face to face aluminum. Sodium facilities also the law in the Briton; the product of which is aluminated by the Briton.

The British America Corporation being now satisfied as to the mercury and the group, adjoining the Ymir mine, have now quieted by our shrappe!

All day long the Boers had used very little shrappel, having but small quantities of that commodity, so that their itses of that commodity, so that their these of that commodity, so that their shell fire was not nearly so destructive shell fire was not nearly so dest "These white formations consist prin- a gun posted between the river and the aluminum. Sodium facilities also the ing with Methuen's Division," by H. J. adhesion of mercury to the copper wire, Whigham, in Scribner's.

der." The language was English, but The best results are obtained in damp the accent was Dutch; a moment, an weather. If the air is dry at the moawful second of time, the rifle barrels ment of the experiment, results just as gleamed coldly towards that little group good will be obtained by breathing of men, who stood their ground as pine gently from time to time on the drawing, trees stand on their mountain sides in so as to slightly moisten the amalgam or

BARBED WIRE IN THE WEST.

What the Introduction of Wire Fences Has Meant to Man and Beast.

In the Century magazine Mr. E. Gough, author of "The Story of the Cowboy," tells of the introduction of that "fourfold abomination" which marked out the path of civilization in the Far West:

A few years ago a villager down in Illi-Charge!" and the dauntless Scotchman nois bent a bit of iron about a strand of fence wire, and noticed that his cattle The Boer's heart is a brave heart, and avoided it. Out of this idea grew a system of fencing which has preserved our er before had they faced so grim a pine forests a few decades longer, but charge, never before had they seen a which brought to an end many decades torrent of steel advancing on their lines earlier the glorious free days of the open in front of a tornado of flesh and blood, and unfenced west. The great cattle On rushed the Scots, on over fallen ranges, over which roamed one of the comrades, on over rocks and clefts, on to most independent populations ever seen the ranks of the foe, and onward on earth, could never have been fenced through them, sweeping them down as by rails, stone walls, or boards of pine I have seen wild horses sweep through a It was difficult enough for the spiderfield of ripening corn. The bayonets like genius of advancing civilization is hissed as they crashed through breast- keep them fenced with the ever-renewed ened to the weird wailing of the bag- bone and backbone. Vainly the Boer web of the fatal wire against which the pipes, whilst Cronje gazed triumphantly clubbed his rifle and smote back. As wild men of the early days rebelled so own from his inaccessible mountain well might the wild goat strike with tronghold upon his handiwork, I knew puny hoofs when the tiger springs. Nothout across the west and held it hard and firm. You can never uncoil the deadly web, neither can you replace the victim

another vein, running through the lower Hennessey took O'Hara; Hennigan McFee-

> Dutch" at the battle of Dundee. The sun was sinking slowly, the lasting rolled along; The man that Murphy "handed In" was cousin of Maud Gonne

> Then Flannigan dropped his ritle, show hands with Bill McGuire, For both had carried a piece of furf light the schoolroom fire. Then Rafferty took in Flaherty; nell got Major McGue;

O'Keeffe got hold of Sergeant a Belfast lad or two. Some swore that "Old Man Kruger" had come down to see the fun; But the man they thought was "The

Paul" was a Galway man manned Dunn. Though war may have worse borress 'twas a frightful sight to see The way the "English fought the Date"

at the battle of Dundee. Just when the sound of firing in the tance fainter grew, Byan caught McCloskey, and Orderly Donegan, too. O'Toole he found McCarthy; O'Mahony

got Malone, Duffy got a pair of lads from County near Athlone. Then Dineen took O'Hagan; I'helan

Kehoe. Dempsey captured Callahan, but Calla gher let him go. You'd have thought the "Reifast Chicken" had tackled the "Dublin Flea." The way the "English fought the Date"

at the battle of Dundee. Then Powers began to hitervene-libe Waterford Powers I mean-And took a lad named Keenau and racange tain named Mulqueen;

Then Brady captured Noonan; Maher : pot McIdoo: McGovern got O'Hanlon and Colones Inc. Loughlin, too. Twas now the hour of sunset, the builde

was nearly o'er, When McCormick came in with Recia and Lieutenant Roger Moore. But 'twas a great day for Ireland, as you can easily see; That's how the "English fought the

Dutch' at the battle of Dunder. They marched them all to Kruger's town for supper and a bed. O'Halloran was the rear guard; the

McNulty led. When they got them to the race course the Boens were full of glee, While Kruger never expected "so same English to see."

They told him they were Irish; it pursies the old man's head, For the Irish he'd seen were dressed be green, while these were togged

But 'tis a passing story; on history's gose you'll see, it "'Twas the Faglish fought Dutch" at the battle of Dundee.

DELLA FOX BETTER. New York, June 28.—Della Fox, the ress, who has been an inmate of the Liver Crest Sanatarium in Astoria weeks, will leave that institution to day. ts manager, Dr. Kindred, says that ally she has rec vered fully, and is great ly improved physically.

OBJECT TO MES. LANGTRY.
