perience the disappointment of being turned away. In the opening of the Horse Show yes-terday, St. John ranked itself with the leading cities of America in the hold-ing of an event which is as much a so-clety achievement as it is a mere dis-play of equine beauty. Society, togged in its best, graced the show with its presence last night and the horse kings divided honors with the queens of the boxes.

e work of judging the horses wa taken up by Dr. Alloway and Mr Ness. First and second prizes are being awarded. The torm, highly commend-ed. into Mr. Armstrong's, on the corner. Dr. Berryman was telephoned for and the antulence summende, the isjured man being removed to the hospital. Mr. Murphy, on being interviewed, said that he thought No. 2 had the right of way, as it was impossible for the driver to stop in time to avoid the accident, and that he thought that the horse of No. 1 was under control. Mc-Beath, who is a fireman of No. 1 com-pany, caught on to No. 2 hose wagon coming down and was thrown off, but uninjured. Murphy said that he had helped to plok up many people hurt by accidents, but never in all his experi-ence had he seen such a sight as the man McGinley. His face was all torn apart and he thinks it will be nothing short of a miracle if the man survives. Nothing could be gleaned from the firemen respecting the matter; they are reticent in giving out information bear-ing on the case. Johnson, the driver of No. 2, has been in the service four or five years and is reported as being a good, careful driv-er. He is a young man, between 25 and 30 years of age. E. D. Jswett, who took out No. 1 en-gine, could not give any definite parti-culars regarding the incident, saving that he knew of the fact of the acci-dent. "Chief," the horse of No. 1 hose wa-

According to the report on the slate in No. 1 engine house, Charlotte street, an alarm was rung in from box 46 at 8.47 a. m. today. The fire was in the Woods house, Britain street. It was simply an overturned tarpot, which was used in making some repairs to the house. "Our Own Make" of Derby is the best hat on the market for \$2.00. Woods house, Britain street. It was simply an overturned tarpot, which house. Perhaps what may be a fatality on account of the alarm occurred as the house. Perhaps what may be a fatality on account of the alarm occurred as the hore carts of No.1 and No.2, respond-ing to the call of duty, collided at the corner of St. James and Sydney streets. As soon as the alarm came, amid the jingle of bells and the rushing of horese, Wm. McGinley, a man of about 60 years of ags, who had seen much active service in the fire depart-ment, took his place on the hose cart to proceed on his way to help subdue the flames as he had often done before. Mc-Ginley is the engine driver of No. 1, but in the absence of Drakk the regu-lar driver, who had gone to breakfast, he took his place on the hose cart. Hose cart No. 1 proceeded down Char-lotte street until it came to St. James, when it turned the corner, then the horse quickened its speed until a prot-ty good clip was obtained. No. 2 hose cart also responded to the call, with Driver Harry Johnson in charge. No. 2 hose cart is made up of a double team, while that of No. 1 is but a single team. Down Sydney street at a rapid gait went No. 2. Nearing St. James street, the horses still kept on their speed, while along St. James street, nearing Sydney, dashed No. 1 eager to "get to the fire firt." At this juncture, James Murphy, who keeps a butcher shop at the corner of St. James and Sydney streets, frantle-ally waved to the driver of No. 1 to "pull up," as No.2 came tearing down Sydney street with a rush. It was a vain appeal, however. Then came the collaion. It was an awful crash and caused what may prove a fatality. The wheel of No. 2 struck the fore shoulder of No. 1 hose company's horse, and, as Mf. Murphy tells it, "McGinley tumbled on to to hestreet, going head first, tumbiling over and over."
