There Fassner, —It does one's heart good to see a merry round faced farmer. So independent and yets of free from vanifies and pride, so rich and yets o industrious —aso patient and persevering in his calling, and yet so kind, social and oldiging, man yet so kind, social and to oldiging, man yet so kind, social and the work with double compound interest, as some know will—you are welcome. He wint do you a kindness without expecting no so with every body. He is generally more honest and sincere—less disposed to deal in low and underland current, than many I could name. He gives society its best support—is the firmest pillar that supports do grey—gentlemen !—laugk at him if you will—but believe me he can hang back if he please.
