## NO WATER TO DRINK WHEN THEY REACHED LEMNOS

First Contingent of British Naval Forces Supplied with Mineral Water Brought in Shiploads.

London, Nov. 12.—When the first British naval forces landed at Lemnos, near the entrance of the Dardanelles, they were surprised to find that the island, which has an area of nearly 200 square miles and a population of 30,000, was practically destitute of drinking water, except for uncertain supplies from a few small springs. The allied troops were supplied with mineral water sent in shiploads through the generosity of a French woman in Marseilles. The British authorities promptly sent to Canada for engineers, who are now engaged in sinking artesian wells, which will guarantee the people of Lemnos a reliable and abundant water supply.

## German Ambassador Behind Plot To Wreck Munitions Plants in U.S.?

Former Austro-German Consul at San Francisco Says Von Bernstorff Directed Austrian Consuls in Scheme to Destroy Factories and Instigate Strikes.

Washington, Nov. 12.—Published charges, attributed to Dr. Joseph Gorlick, former Austro-Hungarian consul at San Francisco, that American consuls in the United States, working under the direction of Consul General Von Nuber and Count Von Bernstorff, the German ambassador, are active in propaganda for destruction of munition factories and fomenting strikes among the workers, will be referred by the State Department to the department of justice for investigation. The Austrian embassy here denounced Gorlick's published statement as untrue in every particular, and announced it would try to find some way to prosecute him for it. Gorlick, the embassy said, left his post on leave and failed to return. Secretary Lansing today declined to comment on the charges, as had been the invariable custom when dealing with like cases, which were of an unofficial character.

FRENCH CITIZENS IN MONTENEGRO

Berlin, Nov. 12, via London.—Despatches received by the Bulgarian legation here report that the Bulgarian army, marching from Nish to Leskovac, captured enormous military supplies of all kinds which the Serbians had abandoned. The demoralization of the Serbians, it was gathered from advices, had evidently reached such a point that their serious resistance, on a large scale, was no longer to be expected.  
A member of the legation called attention to the statements that a great number of rifles had been picked up along the line of march, as also were pieces of artillery and ammunition. Wagon with the harness cut and the horses gone. He regarded it as improbable that any considerable body of troops would escape across the Montenegro or Albanian frontiers.

## DISEASES OF THE NERVES

Are Due to Poor Blood and Only Curable Through the Blood.

There is an excellent reason why Dr. Williams' Pink Pills have cured the most severe cases of neuritis, sciatica and other complaints in the group known as disorders of the nerves. This group also included nervousness and excitability. Each of these complaints exists because the nerves are not getting a proper nourishment from the blood. The reason why Dr. Williams' Pink Pills cure nervous disorders is because they make the rich, red blood upon which the nerves depend for proper tone. It is thus seen that Dr. Williams' Pink Pills cure nervous disorders because they go to the root of the trouble in the blood, and while they are doing this they strengthen and fortify the whole system against disease. Among the many who have found relief from pain through this great medicine is Miss Ethel Smith, residing near Burford, Ont., who says:—"Some years ago I was seized with a great pain in my right leg, between the hip and knee. It became so bad that I got no rest, day or night, and often cried with the pain. The doctor said the trouble was rheumatism of the sciatic nerve. Liniments were used until they actually took the skin off, and still the pain grew worse and worse. Then all the other nerves in the limb seemed to be affected, and it kept jerking and twitching, until it would have to be held to keep it still. Then the doctor put the limb in a paper mache case, but it was not long until the trouble began in my other limb and it had to be treated in the same way. I lay in that condition for three years with my whole nervous system so badly shattered that it would make me scream if any one walked across the floor. Then my throat became partially paralyzed and I could scarcely speak. During this time I had been attended by three different doctors, who did all in their power, but each said I would never be able to walk again. Then my father decided to get me Dr. Williams' Pink Pills. Before I had used them long I felt them helping me. This so encouraged us that the use of the pills was continued and in a few months I was able to walk half a mile each day to get the mail. I used in all eighteen or twenty boxes of the Pills and they did what three years of doctoring had not been able to do. I am as well as ever I was in my life, and have had no return of the trouble. My family and friends think my cure was a miracle, and we give all the credit to Dr. Williams' Pink Pills.  
You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
