

TURKS SLEW GERMAN OFFICERS AT TREBIZOND

STALLINGS IS WORRIED

Braves Manager Would Like to Keep Twenty-two Players on His String.

Boston, April 24.—The Braves have one more game scheduled with the Robins, but the weather forecast tonight did not give much encouragement to the belief that they will be able to play today, which will mean a couple of double-headers when Brooklyn comes again in June.

The Giants come next for four games, the first tomorrow, and Philadelphia is due here Saturday to open a four-game series, after which Boston will start on a long trip, playing four games in New York before going to Chicago, Pittsburg, Cincinnati and St. Louis, and getting back to the home grounds May 26.

Before leaving Manager Stallings will have to cut his squad to 21 men, and from the way things shape up just now he has a job on his hands.

He would like to keep eight pitchers, six outfielders, five infielders and three catchers, but that makes one more than the limit and it is this extra man that is bothering him. However, he has another week to study the problem which is puzzling him.

The weather has not given him an opportunity to thoroughly try his men. Whereas, according to the schedule, 10 games should have been played, only six have been registered. The few days remaining before the cut must be made may help him out. The limit rule is certainly proving a hardship, and the wisdom of it is doubtful.

No advice was received regarding the Maranville-Olson affair up to a late hour last night.

Brookly did not play the exhibition game arranged with Providence yesterday, and Manager Robinson said last night he did not expect they would be able to play today. He hopes that it will be called off early and give him and his boys an opportunity to save a night trip to Philadelphia, where the Robins go against Moran's boys to the Stalling is very anxious for settled weather. He planned to have the men

GARRISON REVOLTED BEFORE RUSSIANS TOOK TREBIZOND

London, April 25.—A Turkish garrison revolted and slew all its German officers before the Russians captured Trebizond, says the Daily Mail's Odessa correspondent.

Italians Take Position 2,717 Metres Above Sea Level.

Rome, via Paris, April 24.—The official communication from general headquarters says:

"The bad weather did not interrupt the activity of our troops. In the Upper Cordevol, we repulsed new and persistent enemy attacks against the crest of Col Di Lana.

"At the summit of Sexton, on the Drave, we completed the occupation of Passo Della Sentinella, 2,717 metres above the sea level, and took a dozen prisoners, one machine gun, arms and ammunition.

"On the Carso the enemy artillery yesterday poured gusts of fire from guns of all calibres on the trenches we had conquered east of Selz. Our troops evacuated in the north valley of the Selz, a small portion of a trench which was greatly exposed to the enemy fire. In the evening the enemy renewed the attack in force against the trenches in the north valley, but was again vigorously repulsed."

With Russian Armies.

Petrograd via London, April 24.—The official communication from general headquarters today reads:

"His Imperial Majesty, the commander-in-chief of the army, as a sign of the Holy Week religious exercises in union with all the members of his staff.

"Enemy aeroplanes threw bombs on Drinsk. Our aircraft threw three bombs on the station southeast of Friedrichstadt. On the remainder of the front there was only an exchange of fire.

"Caucasus front: In the coast region the enemy made attempts to advance towards Trebizond. They were all out for a lot of morning practice and thus get them in shape for the long trip on the road. The weather is causing the loss of valuable time which could be used to advantage.

BERLIN NOT OVER-ANXIOUS FOR A BREAK

Latest Report Indicates Germany Would Go to Great Lengths to Avoid it.

GOVERNMENT BETWEEN 2 EXTREME FACTIONS.

Ambassador Gerard has Long Conference with Chancellor and Washington Regards Sign as Encouraging.

Washington, April 24.—Indications that powerful influences in German politics are opposed to any action by the Berlin government which might lead to the severance of diplomatic relations with the United States are understood to be contained in confidential despatches received today by the state department from Ambassador Gerard. Socialists and Labor leaders are represented as being particularly adverse to any such move.

Other despatches from Berlin were said to contain strong intimations that the Berlin government would make concessions to the United States in reply to the note demanding the immediate abandonment of present methods of submarine warfare.

It is still uncertain, however, whether the concessions will be sufficiently broad in their scope to meet the American demands.

Officials allowed it to become known that Mr. Gerard's despatches indicated that Germany would go to great lengths to preserve friendly relations with the United States. Mr. Gerard is understood to have gained his views during an interview with Berlin officials including Foreign Minister Von Jagow.

His despatches are said to emphasize the difficulties which the German government is experiencing in endeavoring to find a way to meet the demands of the United States without arousing the element which insists upon a relentless submarine warfare against the shipping of the Entente Allies.

The state department tonight was awaiting a despatch from Mr. Gerard reporting the results of a lengthy conference today with Dr. Von Bethmann-Hollweg, imperial German chancellor. Press despatches announcing the conference had taken place were closely read. Officials express a particular interest in that part of the press reports which indicated that the reply to the American note would not be made until after the chancellor has another opportunity to confer with the Emperor, who is at the front.

The fact that Mr. Gerard's conference was of such length, longer than an hour was regarded as being a hopeful sign, it being pointed out that if the German government was disposed not to meet the American demands it was improbable there would have been a discussion of such length.

All of Mr. Gerard's messages received since the present situation arose are held by administration leaders to be of a highly confidential nature. Consequently only a general knowledge of their contents is obtainable.

Suffered No End of Pain FROM BACKACHES.

If a pain attacks you in the back you should stop and think what it is and what causes it.

If the kidneys are at fault—and in nine cases out of every ten they are—you should attend to them at once, as it is impossible to have a well, strong back unless the kidneys are performing their functions in a proper manner.

Anyone with a bad back should appreciate how to get a good one. It is a very simple matter. Use Doan's Kidney Pills. They regulate the kidneys, and there is no further cause for any kidney trouble to exist.

Mrs. E. J. Graves, Oshawa, Ont., writes: "My complaint lies with my kidneys. I have suffered no end of pain with them and with headaches. I had tried everything, so I thought, until a friend advised me to try a box of Doan's Kidney Pills. I did try them, and one box helped me fine, so I got another, and now feel that I cannot recommend them too highly to anyone suffering with kidney troubles."

Doan's Kidney Pills are the original kidney pills. Do not accept any substitutes put up under similar names. Always see that our trade mark "The Maple Leaf" appears on the label and wrapper.

Doan's Kidney Pills are 50¢ per box, 3 boxes for \$1.25; at all druggists, or direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

TWO INJURED IN PITTSBURG STRIKE RIOT

1,500 Strikers Led by Mysterious Young Woman Wearing Paper Mask—Stream of Hot Water Scattered Mob.

Pittsburg, Pa., April 24.—The first serious rioting in the strike of 13,000 employees of the Westinghouse Electric and Manufacturing Company, in East Pittsburg, occurred tonight. Several shots were fired and an unidentified striker and a detective were injured. The trouble was the climax of a day of disorder during which deputy sheriffs and railroad detectives frequently used their clubs.

Fifteen hundred strikers were returning to East Pittsburg after breaking up a meeting of steel makers in Wilmerding an adjoining borough, when the clash tonight occurred.

When the marchers reached the Cable avenue bridge at the Westinghouse plant, the strikers, it is claimed, charged past deputy sheriffs and mill guards stationed at that point and started across the bridge towards the plant. Unable to check the rush, the guards grabbed riot guns from a shed on the bridge but this failed to intimidate the strikers. In the fight that followed one of the guards discharged a revolver. A detective knoeked an unidentified striker senseless and he was carried away by companions.

As the strikers neared the plant, guards turned a stream of hot water from a fire hose on them. The strikers retreated throwing stones as they ran. Charles Oakes, a detective, was struck by a rock and a deep gash was made in his cheek. The strikers were finally compelled to scatter and order was restored. In Wilmerding late today strikers broke down the doors and windows of a building in which 1,800 shell makers were holding a meeting. The strikers appeared just as a resolution was to be adopted, it is claimed, providing for the men to return to work tomorrow. The strikers overpowered the leaders and threw them out of the buildings and then held a meeting of their own.

Sheriffs professed ignorance of the charge it is said to have been an indirect cause for the strike.

The strikers then left the building and formed in line at the head of the parade. A well dressed young woman, whose face was covered by a paper mask. At a command "forward march," given by the young woman, they marched off towards East Pittsburg. Sheriffs professed ignorance of the identity of their leader, who suddenly disappeared when the tipple in East Pittsburg occurred.

The demands of the men were today presented to R. L. Wilson, assistant general superintendent of the Westinghouse Electric and Manufacturing Company's plant. They asked for an eight hour day, restriction of the men discharged within the past two weeks, no discrimination of those returning to work, the continuation of the bonus system, and the same pay for 48 hours as now received for 52.

VON DER GOLTZ' RIGHT HAND MAN FLED TO ITALY

Said to be Fighting on Trentino Front—Important Point Settled in Probe Into Alleged Plot.

New York, April 24.—Evidence presented here today before the federal grand jury investigating the alleged plot to destroy the Welland Canal established, according to federal authorities, that Captain Franz Von Pape's former office at sixty Wall street, was not a branch of the German embassy when Von Igel was arrested there on April 15, and papers claimed by the German ambassador were seized. The papers are now in the custody of the department of justice in Washington.

Attorney-General Gregory and the local prosecuting officers insisted that the former office of Von Pape was not German territory. The state department announced that the return of the papers rested on this point. It also had an important bearing, it was said on the status of Von Igel, whose release the German ambassador demanded, representing that he became a member of the embassy staff in December, 1915.

Assistant United States Attorney Roger Wood, in charge of the prosecution, is understood to be confident that as a result of today's testimony Von Igel will have to stand trial and that the papers will not be returned.

Arthur A. Hessel, agent for the building at sixty Wall street, testifying before the grand jury, it was said, identified the leases for Von Pape's office. On the lease was the signature of Wolfe Von Igel as lessee. Swearing before a notary public Von Igel left before the grand jury, it was said, to be used by him as an advertising agent and for no other purpose.

Von Igel's own sworn statement, federal officers here assert, denies the claim of the American ambassador that Von Igel was a member of his staff and that the rooms were a part of the German embassy.

Agents of the department of justice announced tonight that they had received positive information that Constantino Covan, one of the five indicted for complicity in the alleged plot to blow up the Welland Canal, escaped to Italy and joined a regiment now fighting on the Trentino front.

Federal investigators declared Covan was "the right hand man" of Horst Von Der Goltz, whose "confession" resulted in the arrests of Von Igel and Captain Hans Taucher.
