

LABORERS STRIKE AT EXPERIMENTAL FARM

Ask 40 Cents an Hour and 3 1/2 Cents is the Limit—Fredericton Has Modern Yachts.

Special to The Standard. Fredericton, N. B., May 30.—Operations at the Dominion Experimental Farm here have been held up somewhat, recently, by a strike of the laborers employed at the farm.

Not so long ago jobs at the Experimental Farm were sought after, but times have changed. Dr. G. G. Vanwart is leaving tomorrow for Ottawa, where he will attend the 8th annual meeting of the Medical Council of Canada.

A youth, under eighteen years of age, who was reported for driving an automobile contrary to law, appeared before Magistrate Limerick on Saturday and was fined \$25.00.

Ex-Alderman D. J. Shea has asked to have it stated that he is not a member of the Prohibition Executive as given out in the reports after organization meeting here.

K. O'Rourke, M. S. C., has been elected an Associate member of the American Institute of Electrical Engineers.

Dr. G. G. Vanwart is leaving tomorrow for Ottawa, where he will attend the 8th annual meeting of the Medical Council of Canada.

DE VALERA CONFERS WITH CANADIAN FRIENDS

Plans of the Self-Determination League for Ireland Discussed.

Plattsburgh, N. Y., May 30.—(Canadian Press)—Eamon De Valera, President of the Irish Republic, was in this city today in conference with a number of Canadians.

De Valera, who is the first of the recently formed Self-Determination League for Ireland, met with a number of Canadian men and women met De Valera and the plans of the recently formed Self-Determination League for Ireland.

GREEKS OCCUPY TURKISH THRACE

The Occupation So Far Has Been Without Particular Incident.

Constantinople, May 30.—Greek troops began the occupation of Turkish Thrace on Friday, and the first trainload has arrived at a point outside Adrianople.

M. Canelopoulos stated that he did not know whether the complete occupation of Turkish Thrace would be carried out at once.

BRITISH SHIP ASKS FOR POLICE AID

Wireless Picked up from Steamer Tregantle Calling for Police and a Surgeon.

Baltimore, Md., May 30.—Wireless calls from the British steamship Tregantle, inside the Chesapeake, received tonight asked for police assistance and a surgeon.

SIX YEAR OLD BOY FALLS UNDER TRUCK

Montreal, May 30.—Joseph Desjardins, while driving out of his yard at 143 Jeanne D'Arc Street yesterday killed his own little six year old son, who, while attempting to jump onto the running board of his father's truck, fell beneath the wheels.

BOLSHEVIK TO MAKE NO FURTHER PERSONAL ADVANCE

London, May 30.—The Bolshevik authorities, replying to Persia's protest against the bombardment of Basra, indicate that they do not intend to advance further into Persia, according to advices received in official quarters.

Claims \$100,000 From Yankees

Demands Heavy Damages for "Humiliation" at Baseball Game.

New York, May 29.—Louis A. Hirsch, composer and author of many popular songs, "Going Up," and "The Rainbow Girl," among them, brought suit today in the Supreme Court against the American Baseball Club, of New York, Inc. (the Yankees), for \$100,000 damages.

Hirsch therefore demands \$100,000 damages for "humiliation" at a baseball game which he changed his seat Monday afternoon to avoid the smoke from a cigar which was wafted in his direction.

According to the complaint, filed by former Assistant United States District Attorney Lawrence Axman, of 141 Broadway, the plaintiff and his brother were sitting in the bleachers enjoying the game, when a man began to puff a cigar.

As a result of an argument that ensued the composer was ejected from the grounds, and when he got back to his home at Madison avenue and Ninety-fifth street, he had to send for a physician to patch him up.

TRADERS ASSENT ON SAT. MARKET

(Published by McDougall & Cowan.) New York, May 29.—The market was pretty much a perfunctory affair owing to the absence of many traders.

After the close the New York Federal Reserve Bank announced an increase in the discount rate on commercial paper from 5 to 6 per cent, and corresponding increases in rates on other classes of paper.

Surplus and \$18,000,000 in loans and discounts reflects what the New York institutions are doing to help the interior banks carry their burden.

BERT LYTELL'S BROTHER PLAYS LEAD IN NEW METRO PRODUCTION

Wilfred Lytell younger brother of Bert Lytell, has been engaged by Metro to play the Hon. Nigel Villiers, lieutenant in the Coldstream Guards, in the production of Cecil De Mille's "The Sign of the Cross."

Mr. Lytell, coming from an old theatrical family, was brought up in the city and played in the stock company at the Albany. On the stage he played in "The Sign of the Cross" and "The Sign of the Cross."

LIVER TROUBLE AND HEARTBURN

All liver diseases of whatever character are diseases of the highest importance and demand close attention.

The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile, and serve as one of the filters of the body, cleansing it of all impurities and poisons.

Keep the liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn, constipation, biliousness, sick or bilious headaches, dull, yellow eyes, brown blotches, salivary complexion, coated tongue, jaundice, catarrh of the stomach, or the painful protruding internal or bleeding piles.

Milburn's Laxa-Liver Pills are 25c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

OUR OWN MOVIES

SOLVING THE MYSTERY. A BLOCK HOPES, THE GREAT DE-TECTIVE. REE-MARKABLE!

WHAT WINDOW HAS BEEN BROKEN? AHA! THE PLOT THICKENS! THIS IS MORE SERIOUS THAN I EXPECTED. GENTLEMEN, I FIND THAT THE WINDOW HAS BEEN BROKEN ON BOTH SIDES. I THANK YOU.

CRITICAL PERIODS IN THE HISTORY OF MANY FIRMS PASSED THROUGH WITH AID OF BUSINESS INSURANCE

TWO FORMS OF POLICY THE FAVORITES

The Straight Life and the Twenty-Payment Life Policies Are the Ones Generally Adopted in Writing Business Insurance.

TOO MANY BIG FIRES

Twenty-Three Industrial Fires Accounted for Seventy Per Cent. of Last Year's Loss in Province of Ontario.

Canada as a whole and the Province of Ontario in particular have every reason to be thankful for the reduction in fire losses in the respective territories during 1919. It is equally satisfactory that the fire insurance companies throughout the Dominion have probably had the best year in 1919 that they ever had in Canada.

Nevertheless, in spite of this happy result, Canada, 1919, lost over \$23,000,000 by fire, and in the same period, the Province of Ontario lost nearly 1 1/2 millions of dollars.

There are many reasons for the adoption of business life insurance today; the uncertainty of life; the value of the individual to the firm; and the difficulty of satisfactorily replacing him; provision against loss through the reorganization of any industry and as a means of strengthening credit.

Large business corporations are taking out life insurance as a remedy for the possible injury that may befall the leading member or members of the company's credit.

There are four leading sources from which the fire waste of the Province of Ontario came in 1919. They are as follows: 1. Factories, embracing manufacturing and special business, 447 \$2,268,973.

2. Stores, wholesale and retail, 1,008 1,897,054. 3. Dwellings, 5,895 1,623,930. 4. Other, 74 1,224,300.

A further analysis shows that out of 447 fires in our factories, 23 fires accounted for a loss of \$1,500,000 or 71 per cent. of the total.

Of the 23 fires, 4 were in excess of \$100,000; 2 were between \$50,000 and \$100,000; 17 were between \$20,000 and \$50,000.

Of the 1,008 fires in mercantile establishments, 18 were responsible for \$250,000 of loss, so that less than 2 per cent. of the number cost the Province 50 per cent. of the total loss in that class of establishment.

In the 5,895 fires in dwellings, 2 were over \$100,000; 5 were between \$50,000 and \$100,000; 11 were between \$20,000 and \$50,000.

Johnson Unpopular

New York, May 29.—If Jess Willard actually intends to come back to the ring, he should drop all idea of meeting Jack Johnson. Willard's fight with him is at the moment a moot question.

Johnson returning and being accepted by boxing is ridiculous. It might have been possible in the dead era of prize fighting. But in this enlightened period boxing has no place for such a Johnson. The negro is through—dead pugilistically and as one of a thousand salt herring crammed into a barrel.

At for Willard, devotees of the ring are through—dead pugilistically and as one of a thousand salt herring crammed into a barrel.

BORN

HEINZE—On Sunday, May 30th, to Mr. and Mrs. Fred E. Heinze, 200 Waterloo street, a son.

TURKS REQUEST FURTHER TIME

Paris, May 30.—The Turkish peace delegation has sent a note to the Peace Conference asking a further delay until July 11, to present the delegation's answer to the Allies regarding the Peace Treaty. It was officially announced today.

CRITICAL PERIODS IN THE HISTORY OF MANY FIRMS PASSED THROUGH WITH AID OF BUSINESS INSURANCE

Instances Are Cited of How Companies Have Used Commercial Life Insurance to Protect Them from Loss of Brain Power.

TWO FORMS OF POLICY THE FAVORITES

The Straight Life and the Twenty-Payment Life Policies Are the Ones Generally Adopted in Writing Business Insurance.

Two ingredients are essential to the successful operation of a business enterprise, capital and brains. The success cannot prosper without a liberal allowance of each. This is the age of specialization in industry and there is a growing realization among business men of the financial loss that the institution would suffer in the event of the death of an individual.

Loss would be incurred not only through the interruption of production and the reorganization necessary but in the difficulty, or perhaps impossibility, of securing a successor with adequate qualifications to fill his place. To guard against financial loss arising from such an eventuality many business firms have adopted the plan of placing a large amount of life insurance upon the life of such a man, payable on his death directly to the company.

There are many reasons for the adoption of business life insurance today; the uncertainty of life; the value of the individual to the firm; and the difficulty of satisfactorily replacing him; provision against loss through the reorganization of any industry and as a means of strengthening credit.

Large business corporations are taking out life insurance as a remedy for the possible injury that may befall the leading member or members of the company's credit.

There are four leading sources from which the fire waste of the Province of Ontario came in 1919. They are as follows: 1. Factories, embracing manufacturing and special business, 447 \$2,268,973.

2. Stores, wholesale and retail, 1,008 1,897,054. 3. Dwellings, 5,895 1,623,930. 4. Other, 74 1,224,300.

A further analysis shows that out of 447 fires in our factories, 23 fires accounted for a loss of \$1,500,000 or 71 per cent. of the total.

In the 1,008 fires in mercantile establishments, 18 were responsible for \$250,000 of loss, so that less than 2 per cent. of the number cost the Province 50 per cent. of the total loss in that class of establishment.

In the 5,895 fires in dwellings, 2 were over \$100,000; 5 were between \$50,000 and \$100,000; 11 were between \$20,000 and \$50,000.

To Avoid Large Fires.

It is manifest, therefore, that the outstanding demand is as to how the large fire can be avoided. Of course, to prevent a fire starting is the crux of the whole problem but fire will start, and the question of how to prevent such fires gaining headway and involving significance is of supreme moment.

Our records show that in 1919 there were nearly 2000 fires in 1919 and 1918 showed a similar advantage over the preceding year, so that apparently some benefit is being gained by the continuous attention for care and cleanliness and by the propaganda of education. This must be continued, intensively, and the habits of the rising generation are so formed and developed as to completely change the carelessness and indifference which is so generally manifested on all hands of the present generation. This propaganda will be continued and enhanced and we believe the result will be shown in a continuing reduction in the number of our fire losses.

It is self evident that our building methods must be better. This involves suitable building laws and officials of integrity to administer them; neglect, evasion, design and incompetence alike have contributed to the erection of buildings contrary to by-law, while in many villages, towns, or even cities, the building by-laws are either non-existent or too ridiculous to be worthy of the name. The securing of adequate building codes by municipalities, and even perhaps a safe and sane minimum Provincial code may be necessary, and this must have early consideration.

How to prevent the large fire is easily answered. The Canadian Manufacturers' Association has answered it by favoring the greater use of the automatic sprinkler system—they are squarely on record in this advocacy. Will the time ever come when by law, manufacturers, merchants, trustees of educational and charitable institutions where human lives and immensurable valuable property are at stake will be compelled to

"Isn't It Comforting"—To know absolutely that every infusion is going to be Uniformly good, and "Just Right" to your taste?

Why use? In no other way shall we pass the period in which occur fires causing heavy monetary damage and a large toll of human life; there is no other practical available way of meeting the emergency.

Hold this proud "Quality" distinction.

protection their property in this way? Montreal. Cleared on 29th, Scandinavian, M.M. Montreal. Cleared on May 30—Minneapolis, Liverpool; Megantic, Liverpool; Cassandra, Glasgow; Lake Elva, for sea. Southampton, May 29.—Ard. Mauritanika, New York. Liverpool, May 29.—Ard. Vaughan, New York.

Quebec, May 30.—(By Canadian Press)—Arrived on May 29: Scandinavian, Antwerp and Southampton, steam large T. J. Drummond, Sydney, N. S.; Minneapolis, Montreal; Megantic, Montreal; Cassandra, Montreal; Lake Elva, from Great Lakes; Manchester, Montreal.

Oh, what a happy time there will be in many farmers' homes during the next couple of months! Chief tiller of the soil will have nothing to do after his day's work is over but tell his wife all about the speeches he made in the Legislature.

MOIR'S Chocolates. MEN who once gave no thought to candy are buying Moir's Chocolates in all their tempting assortments because they find it satisfies that mid-afternoon craving. Moir's Chocolates are made in more than one hundred varieties. There are sharp flavors and the rich, heavier flavors as well as the most delicious fruit centres, and chocolate coated nuts of many sorts. Men like them—their wives and sweethearts know it.

NON RUSTABLE D & A CORSETS

By NATE COLLIER

DO YOU KNOW THAT—When washing colored woolen garments you should put them in strong, cold salt water an hour before washing. This will set the color. To clean tarnished silver you can use a piece of raw potato, dipped in baking soda.

To wash white silk take lukewarm water, make it quite clear with one quart add two teaspoonfuls of pure ammonia. Use a good white soap, rinse in water prepared the same way, roll up in a wet towel, and wring with an iron not too hot. This will make silk look like new and it does not get yellow in the process.

To wash a hairbrush you should use soda instead of soap? Soap softens the bristles, while soda does not, and it cleans very quickly. When you take cakes from oven, place tins on damp cloth, and allow them to stand there for a few moments, then invert tins and the cakes will slip right out. This is especially good for sponge cakes and other cakes where the tins are only greased or floured.

79th Anniversary Of Sunday School

Special Interest Marked Services in Ludlow Street Baptist Church Yesterday—Sermons and Programme.

The services in the Ludlow street Baptist church, West End, yesterday was of special interest, as they marked the 79th anniversary of the Sunday school.

At the morning service the pastor, Rev. W. R. Robinson, gave an illustrated talk to young people. His subject was "The Drawing Power of Christ," and it was listened to with rapt attention by the number of young scholars who were present in the course of the sermon.

In the afternoon the special anniversary services were held. The superintendent of the Sunday school, R. H. Parsons, who presided, referred to last year as being the best year in the history of the Sunday school. He called to the platform Miss Alberta Beattie, who was present at the organization seventy-nine years ago.

Then followed a review of the primary department. The scholars—about 90 in all—marched from their room to the main hall, marshalled by their teacher, Miss E. G. Cochran, and formed a complete circle around the Sunday school. The children then sang very sweetly, "Jesus Loves Me, This I Know." Miss Ruth Christy, the youngest member of the primary department, was given a place on the platform. She is a great-granddaughter of John C. Christopher, Sr., one of the first superintendents of the Sunday school.

Following a duet sweetly rendered by Ruth and Sadie Carvell, Deacon John F. Ring, superintendent, read a list of former superintendents and a Sunday school. R. H. Parsons, the present incumbent, has been superintendent for over ten years.

The anniversary address was delivered by Rev. Isaac Brindley, pastor of Tabernacle church. His subject was "Climbing Mount Everest," and his address was both inspiring and instructive.

In the evening the anniversary sermon was eloquently delivered by the pastor. The officers of the Sunday school took part in the service and the singing was led by the young men's choir composed of members of the "Comrades Club" and other groups. A very choice programme of music was rendered. A duet was sung by E. Clyde Parsons and R. J. Parsons, as well as a solo by E. Clyde Parsons.

It is rather interesting to note that Geo. H. Estabrooks, who taught Sunday school in Ludlow street Baptist church before going overseas in the present Rhodes scholar for Nova Scotia.

Preparing Things For Dorsal Opening

Montreal, May 29.—The work on the alterations at Dorsal race course for the spring meeting from Tuesday, June 1, to Tuesday, June 8, inclusive, have been completed and the plant presents a better appearance than at any time since the building of the course. The club house has been made more attractive, while the stands, the betting ring and other buildings have all been gone over.

The track, which was slow and heavy for the last meeting held by the club during the season of 1919, has been redressed and from the time made by the horses working over it will be faster for the meeting. Horses are credited with working six turkeys over the course in as good as 1:10, which was almost unheard of in this work previous to its suspension of racing.

The officials for the meeting will arrive in Montreal on Sunday morning and will go to the course on their arrival in Montreal. Trainer's representative, Joseph McEllan, of the Canadian Racing Association will accept applications for riders and trainers' licenses at 10 o'clock on Sunday morning.

The majority of the Canadian owned horses which have been in training at Blue Bonnets have been shipped to Dorsal for their final preparations for the opening of the senior circuit racing in Montreal. There are several likely horses in the stable trained by Allan Bulcroft, which will be fitted at Dorsal. Three of the string are owned by Donat Raymond.

DO YOU KNOW THAT—When washing colored woolen garments you should put them in strong, cold salt water an hour before washing. This will set the color. To clean tarnished silver you can use a piece of raw potato, dipped in baking soda.

To wash white silk take lukewarm water, make it quite clear with one quart add two teaspoonfuls of pure ammonia. Use a good white soap, rinse in water prepared the same way, roll up in a wet towel, and wring with an iron not too hot. This will make silk look like new and it does not get yellow in the process.

To wash a hairbrush you should use soda instead of soap? Soap softens the bristles, while soda does not, and it cleans very quickly. When you take cakes from oven, place tins on damp cloth, and allow them to stand there for a few moments, then invert tins and the cakes will slip right out. This is especially good for sponge cakes and other cakes where the tins are only greased or floured.
