MORISON'S UNIVERSAL MEDICINE.

NOTICE.
 THE Subscribers, general agents for Morison's Pills, have appointed William Whittaker, Sub-Agent for the Upper Town, No. 27, St. John Street.

LEGG & CO.
 That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. Wing, Clerk to the Stamp Office, Somerset House, in a period of six years, part only of the time that Morison's Pills have been before the public; the number of stamps delivered for that medicine amounted to three million, nine hundred and one thousand.

The object in placing the foregoing powerful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extent that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the Hygeists. How, therefore, can they (much less individually) know any thing about the extent of its properties.

BALDNESS.

A BEAUTIFUL HEAD OF HAIR is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintances; the remainder of their lives consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy-sinking gloom as does the loss of his hair.—To avert all these unpleasant circumstances, **OLDRIDGE'S BALM OF COLUMBIA** stops the hair from falling off on the first application and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

Read the following:
ROBERT WHARTON, Esquire, late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following gentleman:

The undersigned do hereby certify that we have used the Balm of Columbia discovered by J. Oldridge, and have found it highly serviceable not only as a preventative against the falling off of hair, but also a certain restorative

JOHN S. FURRY, 101 Spruce st.
HUGH McCURRY, 243 South 7th st.
JOHN GARD, Jr., 123 Arch st.

It will certainly raise its virtues in the estimation of the public, when it is known that three of the above signers are more than 50 years of age, and the others not less than 30.

From the Mayor, Commonwealth of Pennsylvania, City of Philadelphia.
I, ROBERT WHARTON, Mayor of said city of Philadelphia, do hereby certify that I am well acquainted with Messrs. J. P. English, John S. Furry, and Hugh McCurry, whose names are signed to the above certificate, that they are gentlemen of character and respectability, and as such, full credit should be given to the said certificate.

In witness whereof I have hereunto set my hand, and caused the seal of the city to be affixed, this sixth day of December. &c.
[L. S.] ROBERT WHARTON, Mayor.

DR. BRANDETH requests a perusal of the following article—

LIFE AND DEATH,

Every thing has two distinct principles to its nature; one

THE PRINCIPLE OF LIFE

THE OTHER
THE PRINCIPLE OF DEATH.
 So long as the principle of Life predominates, Health is enjoyed. When the principle of Death, *Sickness takes place.* How is this accounted for? By the principle of Death, I mean the principle of decomposition or decay, which is each hour going on in the human body from the hour of birth, to that of our final exit. While the natural outlets—the pores—the bowels—and all other directories of the body, discharge these decayed particles as fast as they are generated, we are in a state of health; we are free from the presence of the disease.
 When, from breathing an impure atmosphere, living in a vicinity of swamps, or when we are in the constant habit of coming in contact with bad smells—effluvia arising from obnoxious accumulations of animal or vegetable bodies in a state of putridity, being infected from a living body under the influence of disease in a malignant state; or sedentary occupations; or, in short, any cause which promotes decomposition faster than the stomach and bowels and the other excretories can remove, naturally; we are then in a state of disease. And should the cause which produces this state of the body remain, and nothing be done to drive the accumulated and accumulating impurities out of the body, the principle of death or decomposition, will become paramount, and the last glimmering of life depart from the once animated clay.
 How then, shall we counteract these death disorganizing influences? How?

PURGE!—Yes—*I say Purge!* The principle in that word shall yet be understood, if this hand or brain can accomplish so mighty an expedition. Yes, purged be that pain in the head, the back, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause? I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposit of decomposed particles upon the organs or part where the pain is seated. And purging discharges this impurity by the bowels and continuing the practice daily will cure every complication of disease; and will prevent any one from becoming seriously indisposed; even when in constant contact with the most malignant fevers which cannot by possibility seriously affect the body, if we are continually careful to preserve it in a pure state, by frequent and effectual purgation. Hippocrates says, "Purgation expulses what must be expelled, and patients find relief; if on the contrary, they are tormented by purgation, it is a proof there are yet matters which must be expelled."

The subscriber of this has resided in every variety of climate, and by always urging on the first appearance of sickness, has enjoyed for the last ten years, uninterrupted health. For we may call such the state of him who is never sick more than 6 or 8 hours, about the time it takes to secure the effect of a purgative. The purgative I make use of is my grandfather's pills, and they are, to my certain knowledge, the most judiciously balanced purge in existence. I have used them for 8 months daily, a dose of from 2 to 16 pills per day, to satisfy myself as to their innocence. It therefore, cannot be doubted. It is my opinion, that any person, be he ever so prostrated by disease, provided he is capable of taking exercise at all, may lengthen his life to 60 years, by continuing to assist his natural functions with the **BRANDETH VEGETABLE PILLS.** Death never can take place until the Principle of decomposition puts out the lamp of life. And that would seldom be before 60 or 70 years, was this principle of purgation always resorted to on the first appearance of sickness. It is the hope that these remarks may be of some service, I am the public's obedient servant,
D. BRANDETH, M. D.

Great caution is required to procure the genuine Brandeth Pills.
 Druggists and Chemists are never in any place appointed Agents by Dr. B. All his authorised Agents have an engraved certificate of agency, signed by himself; unless this certificate can be shown, do not purchase. This caution is absolutely necessary to guard the public against spurious Pills.

CALEDONIA SPRINGS.

TESTIMONIALS.

I HEREBY certify, that I have been acquainted with the medicinal virtues of the Caledonia Springs, for the last ten or twelve years, during which period I have known numerous instances of the efficacy of those waters in various kinds of disease. In particular, the most obstinate cases of dyspepsia have been radically cured by the use of those waters; of which my own individual case is a striking example; and I have not known a single case of failure in this particular.

These Springs also possess powers of the highest order, in renovating impaired constitutions, and restoring the tone of the system where it has been deranged by warm climates, improper diet, or any other injurious cause.
DAVID PATTEE,
 Judge of the Surrogate Court,
 District of Ottawa.
 West Haverbury, U. C. E.
 August 11th, 1836.

It is with the greatest pleasure that I can testify to the inestimable qualities of the Caledonia Springs, at which place I arrived on the 1st of August 1837, completely crippled with the Rheumatism and suffering for several weeks previous to my leaving Montreal the most acute pains and prostration of strength. I have used the waters freely, both by drinking and showering for fifteen days, and the result has been satisfactory in the highest degree. I therefore recommend them to suffering humanity, as being in my humble opinion, (from what I have seen and experienced) the most valuable medicinal waters in America; and I have only to my regret, that they are not known to thousands of invalids, who by visiting the waters, or partaking of them, might be restored to health as I have been.
