

NEW GASOLINE AND TIRE MILEAGE RECORDS
ESTABLISHED BY THE
McLAUGHLIN
LIGHT-SIX

Economy and stability of the McLaughlin Light Six is due to the fine balance struck between power and burden. There is not a pound of unnecessary weight nor is it impoverished of a pound that could contribute to its efficiency or its life.

Power, with the famous forty-four horse power valve-in-head Light Six engine, and roomy body in open and closed models set a new standard of value in Canadian built cars. Owners of this model get from 25 to 30 miles to the gallon of gasoline and from 8,000 to 12,000 miles on tires.
