JAMES MILLS, M. A., PRESIDENT,
 GUELPH, ONTARIO.

THE IMPROVED RELIABLE FEED COOKER

Tank Heater and Steam Generator

Is built upon honor and sold on its merits, under a positive guarantee to do everything claimed for it. We claim that it is the most durable in construction; the most economical of feed and fuel, requires the least attention, cooks the quickest; is the safest and lasts the longest. All these claims and many others are backed by the experience of those who have used them. Read this one:

Oak Lodge Stock Farm, Burford, Ont., Feb. 4, '99.
 Messrs. Rippley Hardware Co., Grafton, Ill.:
 Gentlemen,—I am in receipt of your letter of January 19th. I would have replied earlier, but I wished to thoroughly test the Cooker before making any statements. I have made a pretty thorough test of it, and I am satisfied that it does all you claim for it. My hogs have done much better since I started using your Cooker. I am feeding ground grain, which I scald and feed while warm. I am also using the Cooker as a means of heating my hog pens, by having steam pipes running through the pens. Last week when the thermometer was several degrees below zero, the pens were quite comfortable, and I saved several litters of young pigs that I am sure would have perished with the cold. I take pleasure in recommending your Cooker.

Yours truly, J. E. BRETHOUR.

We have hundreds of others equally good, and guarantee all to be genuine, under forfeiture of \$500. REMEMBER this was not designed to be a cheap cooker, but to be the BEST COOKER. They are built of the best galvanized boiler steel, and made in two convenient sizes.

This Cooker is now in use by some of the best breeders in Canada. Special prices quoted for July and August only. See it exhibited in operation at Toronto Industrial Fair, London Fair, Burford Fat Stock Show, and Brandon Fair, Man. Patent applied for in Canada. Write us for circulars, testimonials, prices, etc.

RIPPLEY HARDWARE COMPANY, Patentees and Mfgs., Grafton, Ill.

THE "HANDY" SECTION KNIFE GRINDER

THE picture shows very cleverly our HANDY GRINDER for sharpening machine knives. It is a capital good article and fills a long-felt want. The machine may be clamped to the wheel of a mower or binder, or to any ordinary work bench. The cutter bar with the sections attached is held firmly in the machine and may be twisted, turned or inclined at any angle to the emery wheel. Then the wheel itself can be turned to any direction, or may be moved backwards or forwards and held firmly in any position. When the handle is turned the wheel responds promptly and rapidly. No better machine for its purpose could be devised. The diameter of the wheel is 4 1/2 inches and its width 1 1/2 inches. The drive chain or belt is metal, and cannot wear out. Weight of each machine boxed for shipment is 20 pounds. Price, complete, \$5.00. The edges of the wheel are flat, and thus the machine may be used for other purposes, such as grinding Scissors, Jackknives, Hoes, Butcher Knives, Cutting-box Knives, etc. The Handy Grinder will cost you \$5.00, but you would not take \$25.00 for it if you could not get another. Send \$5.00 in a registered letter for one of these Handy Section Knife Grinders.

STANLEY MILLS & CO., HAMILTON, ONT.
