Horses and cattle have a habit of leaning and pressing down upon the top wire of a fence.

If persisted in, this continual pressure will ere long cause the long stays on the ordinary fence to bend—then break.

And your fence becomes disfigured.

But not so with the

DILLON Hinge - Stay Fence

Pressure of a horse or other animal on the top wire brings the short hinge-stays into action—

As shown in the picture.

When pressure is removed the fence springs back into place again.

And for the same hinge-stay reason, heavy snows or climbing on the fence do not disfigure or injure the DILLON.

Just write for catalogue containing the whole story of DILLON superiority.

MONARCH Stiff-Stay Fence

This is an all No. 9 Hard Drawn Steel Wire Fence.

The lock is the twin of one that has been in use for years in the United States and pronounced the best lock on a stiff-stay fence.

Each end of the Monarch lock is hooked securely over the lateral—

Cannot spread or loosen.

May we send catalogue with full description of this different kind of a stiff-stay fence?

FENCE AGENTS

Our agents succeed the best because our line is the most complete.

They have both a hinge-stay fence and a stiff-stay fence to offer prospective customers.

As well as a complete line of ornamental fences and gates.

Just write for our agency plan.

A Woman's Sympathy

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

All you need do is to write for a free box of the remedy (Orange Lily) which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 2c. (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. E. CURRAH, Windsor, Ont.

TORONTO and WINNIPEG

Western Canada Factory, 797 Notre Dame Ave., Winnipeg, Man.

Ahead of the Rest As a Sure Hatcher!

There are 40 or 50 different makes of incubators on the market. Enough to stock a museum. Yet the Sure Hatch steadily keeps in the lead—and has for a dozen years. It's because we build the Sure Hatch right and sell it at a lower price than any other dependable machine.

Send today for the Sure Hatch Book that Tells the Inside Facts—FREE

This is the only book that goes to the very bottom of the incubator question. It practically turns all kinds of incubators inside out. Tells what's wrong with scores of machines that are bidding for popular favor on the strength of a "bargain" price. Shows why such machines hatch more trouble than chicks. Puts a crimp in the claims of makers of expensive machines who ask you to pay a fancy price for polish and finish and paint and varnish.

This book takes the Sure Hatch apart and shows its entire mechanism. Explains the correct principle of incubator construction. Proves that these correct ideas are built right into the machine.

A recent addition to the parts which go to make the Sure Hatch the most complete and perfect machine on the market is an Overflow Pipe and Cup. This attachment prevents the possibility of water getting into the lamp or on

the chimney, or dripping down upon the floor.

No other incubator has this feature.

The California Redwood used in the Sure Hatch Incubator gives our machine a more handsome appearance than any that sell for double. But we don't ask you to buy it because of its beauty. Buy it because it does the work better and at less cost than others.

Every Sure Hatch absolutely guaranteed for five years. Sixty days' trial given.

Please send today for the grand FREE Sure Hatch Book. Get the inside facts. Then you can choose from the 40 or 50 different makes a machine that will be a money-maker. You will find the book brimful of valuable information.
