## ROOFING

**I**F you will write to-day for a free sample of Amatite, the end of your roofing troubles is in sight. It is the one roofing that needs no painting after it is once laid on the roof.

If you would sit down and figure out exactly how much it cost to paint a smooth surfaced roofing during its life, you would find that the cost of this paint is more than the roofing itself.

Amatite, on the other hand, has

a real mineral surface, and we sell the goods on the broad statement that it needs no painting of any kind.

The man who puts Amatite on his buildings is insured against leaks and trouble for many years to come.

Send name and address for a sample and booklet, which will prove conclusively how much better Amatite is than the old-fashioned "rubber roofings" which require constant painting and care to keep them tight.
