### WINNIPEG MARKET LETTER

WINNIPEG MARKET LETTER

General General General Correson, Lin. Make it 20, 1911.

Wheat The part week has seen a heat take an advance of afroid 2 couts per bushel, owing to a better spoot demined and a feeling that is setting it in the American market.

that the decline was over-dong, and the sinter wheat crop is not all that cachier reports, we good to indicate. The Themson for all straight grades has been good. The condition of the winter wheat crop areas to be a hone of contention at the personst time between the hig operators in the Chicago and Minneapolis markets, and seatment is very much mixed. However, it must be remembered that since the British buyers got builty left has Lall when they bought their supplies at a fancy price and the market has been declining about attackly ever since, they have been buying from hand to mouth for the last six months. Any crop scare on this side, or unexpected small market shipments, would probably mean quite a demand for our wheat from Great British. Altage ther the situation holds to us as if wheat will do a little better.

Outs have advanced considerably, many of the nexisons "shorts" having concluded that the docline has gone for enough. More there is a considerable export demand for our nath, and aftegether the situation in outs is improving. We cannot do better than express our formes opinion, that farmers who can hold their east into the summer, will get considerably better prices for them.

Barley. The situation in barley is unchanged. The demand is rather indifferent. Flax is holding practically unchanged.

## Winnipeg Live Stock

Prices offered for choice butcher cattle Prices offered for choice butcher cattle being offered for real good animals. There are however, but few head of good staff coming. Packers are bringing in heef from the East in order to have enough to supply the trade. Dealers, have stated that they think that the apring run of fed cattle will be practically a wedliched mantity and that prices will a negligible quantity and that prices will

he correspondingly high.
