

GRANBY CO. OFFICIALS LEAVE FOR PHOENIX

GRAND FORKS, B. C., July 23.—The visiting officials of the Granby company, including President S. H. C. Miner of Granby, Quebec, leave here tomorrow for Phoenix with the object of inspecting the Granby mines. It is understood that as a result of their visit an order will be placed shortly with a Chicago firm for the installation of two additional furnaces, bringing the capacity of the local smelter up to 2100 tons per day. Arrangements have been made with the Cascade Power Company for the supply of the extra electrical power that will be required here and at the Phoenix mines. The Cascade company has just completed the survey of its proposed pipe line into the Granby smelter. The work of building the line will be started immediately.

DESTRUCTIVE FIRE IN GREENWOOD

(Special to The Miner.)
GREENWOOD, B. C., July 24.—A fire broke out just after 9 o'clock tonight in George F. Williams' dry goods store, which is situated right in the heart of the business section of the town. For a short time it looked as if it would be difficult to get it under control, as it was burning fiercely before the fire department was called to the scene, and as the building was of lumber and filled with inflammable stock. Fortunately on one side was the brick wall of a business block built by George A. Guess, assayer, which acted as a break on that side. Smith & McRae's book store on the other side was in imminent danger of destruction, so numbers of men commenced hastily removing the stock, but the firemen, with three streams of water, got the flames under control and confined the damage to the Williams buildings.

The amount of the loss is not ascertainable tonight. The insurance is known to be not less than \$2500. It is likely that the loss will be considerably above \$5000. Mr. Williams left on a trip to the east last week, but the business is being conducted by assistants in his absence.

The fire was first seen by a patient in Dr. Spankie's rooms, which is situated on the upper floor of the Guess block. This lady is suffering from typhoid fever, but was immediately removed to a near-by hotel. It is not yet known whether the shock will affect her seriously.

ANOTHER DISPATCH

GREENWOOD, B. C., July 24.—At 9 o'clock tonight a fire completely destroyed the dry goods store of George F. Williams, located in the centre of the principal business block, and in close proximity to the new Windsor hotel. The loss is about \$10,000. The quick and effectual work of the firemen saved adjoining buildings, which were but slightly damaged. The origin of the fire is unknown.

NEWS OF INTEREST FROM GREENWOOD

(Special to The Miner.)
GREENWOOD, B. C., July 25.—Cameron Bros., proprietors of the Fashion Livery Stables, Greenwood, have sold out to M. A. Harvey, proprietor of the Palace Livery Stable, also in Greenwood. Mr. Harvey takes possession today. The two stables are adjoining and have heretofore been in competition for the livery business of the town and vicinity.

Grierson, Willis and Evans have formed a partnership and have commenced business in Greenwood on their own account as painters and paper-hangers. Most of this kind of business has for some time past been done by J. W. Mellor, who has kept several tradesmen in his employ to do the work, but he is not continuing this branch of his business.

It has been ascertained that the estimated value of the stock of dry goods, men's furnishings, etc., contained in the store of George F. Williams, at which a fire occurred last night, is about \$9000 and of the building about \$1000. As the total insurance was \$3500 on the stock and \$500 on the building, there will probably be a considerable loss, for the stock, although not destroyed by fire, was saturated with water and is generally of a class that will be much reduced in selling value for this reason. There does not appear to be any reasonable grounds to suspect arson, since apart from the heavy loss on the stock the fire evidently started in or near the roof and in an exposed part that was easily accessible to the firemen. Further, no incendiary would be liable to start a fire when there were numbers of people about the streets. It is thought that either a spark from a neighboring restaurant or possibly the electric wires that were under the roof was responsible for the fire, but the manager of the electric light company says that his examination convinced him that the latter was not the cause of the blaze.

NEWS AND COMMENT FROM GREENWOOD

(Special to The Miner.)
GREENWOOD, B. C., July 26.—The return baseball match, Married vs. Single, took place on the Greenwood sports ground yesterday afternoon. The result was two to one in favor of the single men, the score being 23 and 46 respectively.

A number of the stores initiated yesterday what is hoped will be made a weekly Friday half-holiday during the weather that is suitable for out-door sports. This enabled those employed in the stores to either participate in the baseball game or to otherwise enjoy themselves in the open air.

An incident happened to Mr. and Mrs. F. W. McLaine when driving at Midway yesterday. Their horse bolted, capizing the buggy and throwing them out at the roadside. The buggy was badly damaged, but the occupants escaped without serious injury, although Mrs. McLaine had one of her wrists sprained.

Mr. and Mrs. A. W. English welcomed their first-born baby—a 14-pound girl—at their home in Greenwood yesterday. Mr. English was for some time on the staff of the Canadian Bank of Commerce.

Government Agent William G. McCann has returned from a trip to Cascade in connection with the annual improvements and repairs to the main roads between that town and Grand Forks on the west and Gladstone on the east. Much better results may be looked for from the present method of doing more permanent work on the main roads of the district rather than simply making temporary repairs, as had been the custom in too many instances in previous years.

NEWS NOTES FROM KASLO-ON-KOOTENAY

(Special to The Miner.)
KASLO, B. C., July 24.—The tug Tmhr returns from the Lardo this afternoon, bringing back the party of C. P. R. officials who have been inspecting the A. & K. new branch line. The members of the inspection party comprised D. McNeill, Montreal; E. McHenry, Montreal; R. Kerr, Montreal; R. Marpole, Vancouver; W. Downie, Nelson; R. Bainbridge, H. Cambie and several others.

There is a "trust" movement on foot amongst the leading merchants of Kaslo which will shortly materialize, and is likely to create considerable changes in the business outlook of this community.

The No. 4 company, R. M. R., had their full drill in their new hall this evening, and though the building is not yet completed the initial drill within its portals proved that the hall is up to the requirements of the corps.

Miss Maggie McKenzie of Victoria, known as one of the best teachers on the coast, has accepted the vacancy in the public school staff of this city.

The city council are going into the work of reform and revision these days, and are introducing a bylaw on the license lines, outlined by the new act of the legislature, wherein barristers

and lawyers, express companies and insurance companies or their agents, loan, electric light companies and all others of a similar nature, will be obliged to pay a considerably heavier license than before. They are also contemplating various needed improvements on the water front and round the wharves.

Among the visitors who arrived in town today are J. D. Chaplin and his brother, both of St. Catharines, Ont. These gentlemen, together with their father, William Chaplin, are financially interested in the Rambler-Cariboo, the president of The Maritime Mining company, operating at New Denver. They all have considerable interest in the Pontiac and other claims on Woodberry creek, and have made arrangements to visit these latter properties tomorrow.

GRANBY SMELTER.
Is Operating Only Three Furnaces, Owing to Coke Famine.

GRAND FORKS, B. C., July 25.—During the week ended today the Granby smelter, operating only three furnaces, owing to the coke famine, treated 6335 tons of ore. Grand total treated to date, 474,027 tons.

LATE NEWS FROM THE SMELTER CITY

TRAIL, B. C., July 27.—As a result of yesterday's visit of the C. P. R. officials the last obstacle to platting and improving the strip of land known as the gulch has been removed. In response to a telegram, Mayor Binns and Alderman Schofield met the officials at Smelter Junction, and went over the land in question. It was agreed by the company to deed to the city thirty feet of its right-of-way on either side of the gulch through the gulch, in return for which the city is to deed a strip of land on the side-hill along the switchback from the city. This will permit of the construction of a street alongside the track instead of the road now in use. Several houses will have to be moved off the proposed street, but they will have the road in back of them to compensate for the land they have given up. Owing to the delay in this matter it will not be possible to include the gulch lands on the assessment roll this year. The roll has been received by the council and the court of revision will sit on August 8th.

Jr. of this city. The photograph is reproduced as an illustration of a typical Canadian trooper. Mr. White was a member of the last contingent from this city.

T. W. Coleman, member of the school board, has received from Victoria the diplomas for Trail pupils who passed the high school examination. The Trail pupils had the highest average of any school. Olof Auestad was number one among the applicants examined at Rossland, receiving a total of 804. Miss Nellie Westcott and Miss Mona Wigen were second and third, respectively of the applicants at Nelson, where they went for their examination. Miss Westcott's total was 773 and Miss Wigen's 764.

TRAIL'S CONTINGENT.
Word from the east, announces that Sergeant of the Trail contingent to South Africa has the honor of having made the highest score in his squad at Cape Town, and at the Halifax rifle range the Trail contingent also made the highest score.

PROGRESSIVE WHIST.
Mrs. F. George Morin and Miss Brooks were the hostesses at a surprise party given Thursday evening to Miss J. L. O'Brien at the Arlington Hotel. Progressive whist occupied the evening. Miss Emma Degagne won the first prize, a handsome mirror, and Mrs. A. E. Steele the booby prize, a rattie.

NEWS NOTES.
Orvan Shoemaker, one of the crack lacrosse players of the Vancouver team, is in the city. He was formerly in charge of the News.

Arthur Chapman leaves Monday for a week's holiday in Grand Forks.

Hon. William Ross, M. P., of Port Perry, was a guest at the home of his nephew, Robert E. Strong, this week. Mrs. Ross and daughter accompanied him.

IN GOOD REPAIR.
The work of repairing the wagon road to Sayward, on the east side of the river, has been completed and the road is now in thoroughly good repair. The bridges have been strengthened and several new cuts have been made to avoid the slides in dangerous places. The work was done by Samuel Bauer of Sayward.

A TYPICAL TROOPER.

SECOND DAY AT NELSON

Rossland Took First Money in Baseball Tournament—Hose Races the Most Satisfactory of the Kind Ever Run in the Kootenays

(Reported by Bert Loughheed.)

NELSON, July 26.—Rossland took first money in the baseball tournament by defeating Nelson today, the score standing at the end of the ninth inning 14 to 8. While the game was replete with errors on both sides, it was close and interesting up to the sixth, when Rossland pulled away from the home team and the Nelson rooters closed their pipes.

The score of today's game follows:

ROSSLAND.		NELSON.				
A	B	R	H	O	A	E
Holland, 2b.....	5	2	2	4	1	1
Vaughan, lf.....	5	0	2	3	0	0
Gibson, 1b.....	5	1	2	5	0	2
Loughheed, c.....	5	3	2	13	1	0
Worth, ss.....	5	3	2	0	2	2
Costello, p.....	4	2	1	0	3	1
Nudell, rf.....	5	1	0	0	0	0
Leighton, cf.....	5	1	0	0	1	0
McDonald, 3b.....	4	1	0	2	4	2
Totals.....	43	14	12	27	11	9

Rossland went first to the bat, and although they made four hits in the inning no runs were scored through a bit of poor base running and poorer decisions by the umpire. The Nelsonites in their first inning failed to score, but in the second made one run and in the third two more. Meanwhile Rossland scored one run, leaving the score 3 to 1 in favor of Nelson. Up to this time "Weary Willie" did not seem to be just himself, while Oleson for the home team was pitching great ball. It was during these first few innings that the breasts of the Nelsonites and their supporters were filled with exceeding joy.

What was going to be done to the visitors wasn't much, and the bleachers good naturedly complimented several of the Rosslanders on their inability to show up well, as compared with some of the home bunch.

But in the sixth inning the playfulness of the fans received a slight setback when the score was tied, 4 to 4, and the relapse was complete in the seventh, when Rossland scored eight runs. The spirits (enthusiasm) which had intoxicated the fans in the early part of the game had by this time completely oozed out, and in their place was a dull thumping of the heart—a thumping that thumped the weary vital liquid through the veins of the weary fans till, in the same tune with Marianne, they said:

"Alas, we are weary, weary; We cannot win," they said. "This game it is so dreary, We wish that we were dead."

The mighty Olsen had fallen, and with the errors behind him he could not stand the strain. "Weary Willie," while not at his best, was steady throughout the game and deserved to win. In the eighth inning Nelson scored another run, and in the ninth two. Rossland also scored two in the ninth.

Tomorrow afternoon Rossland will play an exhibition game with Nelson.

HOSE RACES.
The hose races which were run in Nelson today were by far the most satisfactory races of the kind ever run in the Kootenays. Greenwood, Rossland and Nelson teams lined up at 9:30 sharp for the hub-and-hub event, which was a fast and exciting race and was witnessed by a large crowd of people.

The Rossland team was heavily handicapped in this race, as they were short of men, but luckily the Rossland ball team came to the rescue and strengthened their home team with Paul Wilcox, who wore a pair of gum boots, Ralph McDonald, who wore a pair of No. 11 baseball shoes, and Loughheed. The results of the race were: Nelson, first; Greenwood, second; Rossland, third. All three teams making a close and exciting finish.

In the wet test the baseball members of the Rossland team stripped for action and got down to business. Rossland ran first and lowered the Kootenay record, making the run and getting water in 25.1-5 seconds. Nelson was the next to compete, and they made a faster run than the Rossland team, but were not as swift on connections. They made the same time as Rossland—25.1-5 seconds. Greenwood came last. Time, 26 seconds. The financial results were that each team won \$100 of the \$300 in prizes. The members of the Rossland team wish to state that they were royally entertained by the Nelson fire department and the celebration committee.

The lineup of the Rossland team was: Raabe, captain; Wilson, Martin, cuppers; Collins, McDonald, hydrant; Jordan, Empey, Wilcox, Loughheed, McDonald.

FOUR MEN PERISHED.

Believed to Have Been Lost in a Gale Off Fraser River.
(Special to The Miner.)
VICTORIA, B. C., July 25.—Four men are believed to have perished in a gale off Fraser river yesterday. The Times' Ottawa special says that Dundonald will arrive in Ottawa tonight.

A SENSIBLE ORDER.

Prohibiting Export of Timber Cut on Government Land.
VICTORIA, B. C., July 24.—An ordinance-council has been passed by the provincial government prohibiting the export of timber of any kind cut from government lands. Heretofore the prohibition has only applied to cedar.

ROBERT ALLEN.

Dropped Dead Yesterday While Fighting a Grass Fire.
VICTORIA, B. C., July 24.—Robert Allen, caretaker of the Ross Bay cemetery, dropped dead today while fighting a grass fire from overexertion and the heat.

THE SALMON ARE RUNNING.

35,000 Were Taken Out of the Traps Yesterday.
(Special to The Miner.)
VICTORIA, B. C., July 23.—The salmon have started running in great numbers on the Fraser. Thirty-five thousand were taken out of the traps this morning at Point Roberts.

\$100,000 WORTH OF CATTLE.

Winnipeg, July 25.—Mr. H. A. Mullins, M. P. P., has just returned from an extended trip over the western ranches, and states that the condition of the cattle throughout the entire district are most satisfactory. East of Calgary the grass is matured, and there they are prime for export, the effects of protracted wet weather having disappeared so far as the cattle are concerned, although the great floods wrought general havoc among the homesteads in the low-lying districts.

SEALING SCHOONERS.

Returned to Victoria Yesterday From the Copper Islands.
VICTORIA, B. C., July 26.—The sealing schooner City of San Diego returned today from Copper Island with 621 skins. She reported the Oscar and Nattie with 780, the South Bound with 280 and the Casco with 600. The Sacy Lass, the other schooner of the Copper Island fleet, has not been reported and there is some anxiety for her.

MAX YOHE'S DIAMONDS.

\$1000 Reward For the Arrest of Suspected Thief.
NEW YORK, July 26.—Max Yohé says she will offer the above reward for the arrest of Captain Strong, but has not made good the intention by any direct offer.

The following is a list of the gems she had in the safe depository vault:
Diamond and ruby pendant.
Tourquoise and diamond necklace, with a tourquoise and diamond pendant.
Diamond and tourquoise bracelet.
Cluster diamond brooch.
Large diamond heart.
Small diamond heart.
Tourquoise and diamond arrow.
Two cluster and diamond and tourquoise bracelets.
Small diamond bracelet.
Large diamond bracelet, containing nine big stones.
Pearl and diamond bracelet.
Gold chatailene, inlaid with diamonds, with eleven pendants.
Black lace fan with tortoise shell sticks, inlaid with diamonds.
Two mother of pearl fans with white lace.
Small diamond and pearl necklace.
Diamond belt.
Diamond pin, diamond ring, three diamonds, ruby or sapphiric bands and some twenty or thirty smaller trinkets, such as rings, brooches and pins.

The value of the above is given by Miss Yohé at \$300,000.

SOUTH AFRICAN FREIGHTS.

Long-Term Contracts of Houston Line May Hold Them Again.
NEW YORK, July 26.—The Houston Line, which has a fleet of 21 steamships in the South African trade, announced yesterday that it had obtained contracts, covering several years, for shipping from England and America to South Africa all machinery and mercantile goods needed by the principal corporations, companies and firms there, including the British South Africa company, the Rhodesia Railway, the Consolidated Gold Mines, De Beers and all affiliated firms. A representative of the Houston line said that the present ruinous freight rate of \$2.50 a ton between New York and South African ports might be put up because of the success of the line in getting the contracts. The Houston and Prince lines have been in a rate war with the combined Hansa, American and South African and Union Class lines for the last seven months.

GOLD BEATERS ON STRIKE.

Want 75 Per Cent Advance in Wages and Girls Fired.
NEW YORK, July 26.—The organized gold beaters of the country, only about 400 in number, went on strike yesterday for better pay. There are 200 of them in New York, 90 in Philadelphia, 60 in Boston and 50 in Chicago. If they should continue on strike very long many gliders, bookbinders and decorators would have to quit work for want of material. Some of the factories employ girls in addition to the men gold beaters.

NEW YORK, July 26.—

The New York branch of the Gold Beaters' Protective Union demanded last week an increase in wages from \$3.20 and \$4 to \$6.40 a week, or \$2 a week when paid by the week, and the discharge of all the girls. The weekly wage had been \$12.

The employers met on Saturday and issued a statement offering a compromise. They said the wages demanded would raise the price so as to make it profitable to import gold leaf. They offered to pay \$15 a week or its equivalent in piece prices, and refused to discharge the girls, as there was steady work for every competent gold beater.

Mrs. Gillespie, who has been the guest of her brother, Dr. Campbell, Le Roy avenue, for some time, left last night for her home in Toronto.

Soft Harness
You can make your harness last as long as a life by using Eureka Harness Oil. You can keep it in its prime condition as long as it is used.

EUREKA Harness Oil
It is the best looking harness oil in the world. It is made of the finest oils and is guaranteed to last.

CERTIFICATE OF IMPROVEMENTS
Notice.
"Golden West" and "Maple Leaf" fractional mineral claims, situate in the Trail Creek Mining Division of West Kootenay district.
Where located: On the northeast slope of Monte Christo mountain, about one and one-fourth miles north of Rossland, and adjoining the "Eric" and "Viking" mineral claims.
Take notice that I, Thomas S. Gilmour, free miner's certificate No. B7143, acting as agent for Andrew D. Provand, London, England, free miner's certificate No. B7144, intend, sixty days from the date hereof, to apply to the mining recorder for certificates of improvements for the purpose of obtaining crown grants of the above claims.
And further take notice, that action under Section 37 must be commenced before the issuance of such certificates of improvements.
Dated the 2nd day of June, 1902.
