

Never Delay

We cannot help but seriously think what an unpleasant task it would be to hold over the stock that the backward season has caused.

We decided to make an extra appeal to shrewd buyers in general to come and secure their present needs at actually their own reasonable offer.

Just Try Us

You cannot possibly lose anything by it, and stand a good chance of making some money by it.

HALL'S Hair Renewer

Always restores color to gray hair, all the dark, rich color it used to have. The hair stops falling, grows long and heavy, and all dandruff disappears. An elegant dressing.

ATHENS HIGH SCHOOL

We feel that the high success attained by the students who wrote on the recent departmental exams at Athens High School is a meritorious one. While we do not wish, nor is it our intention, to disparage the efforts made by similar institutions, yet we feel that the A. H. S. took a higher standing than many of its competitors—a standing which it has kept up for years—nearly every year reaching the top notch in the number of successful students.

Since the establishment of the A. H. S. nearly a half century has gone by, each year making the residents of this town feel proud of its success. As evidence of this fact everywhere successful students in the past are filling posts of honor and distinction and are proud to claim the fact that the A. H. S. was their alma mater.

A great measure of this success is due the successive school boards who have always watched the institutions progress most zealously, in selecting the most competent teachers to be had—and it is to this fact the A. H. S. has continued to grow not only in size but in the estimation of the public at large.

Each year our citizens unite in extending the freedom of the village to the large number of students who attend the school. It is needless to say that much depends on the welcome a new student gets whether he or she gets along quickly with the different studies.

At a recent meeting of the H. S. Board the old staff were engaged,

with the exception of the science master, Mr. Graham, who resigned. It is safe to state that it means much to a school to be able to retain practically the same efficient staff year after year. The staff for 1905-6 is as follows:—

N. L. Massey, B. A., Principal and Mathematical Master.

C. P. Bishop, B. A., Moderns and Commercial Master.

W. C. Dowsley, M. A., English and Classical Master.

A. Williams, Science Master. Mr. Williams comes with a very successful Public and High School experience.

BIRTHS

TOWNSEND—At Athens, on Thursday, Aug. 17th, 1905, to Mr. and Mrs. J. Townsend, a son.

MORRIS—At Glen Morris, on Friday, Aug. 18th, 1905, to Mr. and Mrs. Johnson Morris, a daughter.

Additional Locals

Mr. Jerry Townsend has been appointed caretaker of the new public and model school.

Mr. Walter Landers of Toronto is spending a short time the guest of old friends in town and vicinity.

We understand Mr. and Mrs. N. Benedict of Plum Hollow will soon move back to Athens, owing to Mrs. B's poor health.

Coal is being put in the cellars of a number of our residents. "A stitch in time" is the watchword of our progressive citizens.

Mr. and Mrs. Dowsley drove to Frankville on Friday to pay their last respects to the late Mrs. (Dr.) Haskins, nee Ethel Richards.

Mr. Chas. Jones of Richville, N. Y., and Miss Ina McVeigh of Brockville are guests of Mine Host McVeigh at the Armstrong House.

The two political parties are busily engaged getting their appeals ready for the different Courts of Revision. From present appearances they will be numerous.

On Sunday next, August 27th, Mr. Hilliard Jones will take the services in at Athens and Plum Hollow churches. The annual offering for Grand Ligne will be taken up at this service.

Miss Jessie Taplin is presiding at the organ at the Methodist church, during the absence of Miss B. Lester. Miss Taplin is a sympathetic and accomplished organist and has already won golden opinions by her fine playing.

Miss Jessie Addison, who sustained a broken leg while camping at Charleston lake last week, is progressing favorably under the care of Dr. H. Moore. Miss Jessie is domiciled at the residence of her sister, Mrs. (Dr.) Lillie.

Mr. I. J. Mansell of Brockville was in town Tuesday in connection with the Farmersville Plank Road Co. It is rumored that the Public School trustees disposed of all the unused stone to Mr. Mansell, who will use it to improve the company's already good road.

The end of the early closing of the stores in town three evenings a week is in sight—there being only four more closing nights. On the whole the by-law has proved a success. The hard-worked merchants and their clerks have thus been enabled to get a needed rest.

Invitations are out for the marriage of Miss Edith E., youngest daughter of Mr. Phil. Wiltse, of Athens, to Mr. Edgar A. Robertson, of Montreal, in St. Paul's Presbyterian church, on Wednesday next, August 30th, at 8.30 a.m. The young couple will hold a reception at Mr. Wiltse's home, Main street east after 9.30 a.m.

The Smith's Falls News says—Mr. John Warren of town was cutting hay on the farm of Duncan McNab of North Elmsley and brought a sample to the News office which measured 5 1/2 feet. This was a fair sample of the field, and we would like to hear of anyone who can beat it." The REPORTER announced a few weeks ago the growth of a stalk of timothy 6 feet 7 inches in height, which is 1 foot 1 inch taller than the North Elmsley farmer's. The stalk was grown on the farm of Mr. Clark Eaton, Frankville.

Rev. Dr. Taylor, until lately a professor at Wycliffe College, Toronto, addressed the congregation of Christ church, Athens, on Sunday night. Mr. Taylor is a young man to have occupied so high a position, but those who had the pleasure of hearing him easily understood how he reached such a high position. He has a good voice, is an earnest and convincing speaker and has a fine command over the English language. We understand the reverend gentleman leaves shortly at the head of a band of young college graduates to undertake work among Chinese students in China. He expects to live in the city of Hanchow, Central China.

LOOKS LIKE A FRAUD—A few weeks ago there appeared in several papers a request for information concerning the Merrick family of Leeds County. There was supposed to be a fortune awaiting the lucky heir. It now transpires that Dr. S. S. Southworth of Bolinas, Cal., saw the item, and communicated with the police of San Francisco for information, and has received a reply expressing surprise that such an enquiry should be made. It certainly has every appearance of being a swindler's trick to practice a fraud upon those who answered the advertisement. People in these days should beware of such tempting baits—especially when they emanate from Yankee sources—unless they know for a certainty that the offer is genuine.

Mrs. Marlett of Brantford is the guest of Mrs. G. Derbyshire.

The Gamble House looks quite neat after its painting by Artists, Pierce and Compo.

Mrs. J. Delbert Boddy spent a few days last week with Lyn friends, spending Sunday in Brockville. Mr. Boddy also spent Sunday in the county town.

Rev. L. M. Weeks, B.D., and daughter, Miss Rose, of Athens, were the guests of Mr. and Mrs. E. G. Adams for a few days of last week.—Westport Mirror.

On Tuesday evening next, Aug. 23rd, Rev. S. Sheldon, a former pastor of Athens, will speak in the Baptist church, at 7.30 p.m., on Sabbath school work. All are cordially invited. Those who attend may be sure of a rich treat from so enthusiastic and capable an S. S. worker. On Wednesday evening, the 30th, Mr. Sheldon will address the congregation at Plum Hollow on the same topic.

DISTRICT CAMP MEETING.—The Athens district will hold their seventh annual camp meeting, D.V., on the Lake Elvada Camp Ground, from Aug. 30th to Sept. 6th. Bishop Horner will be present with the preachers and evangelists of the district. A cordial invitation is extended to all. Campers are requested to be on the ground on the 29th of August and to remain until the close. Reduced rates on the railroads for all the campers. The past meetings have been attended with much success and the forthcoming one promises to be equally successful.

HEAVES IN HORSES.—It has been said that to ship horses which are suffering from the heaves, to the North West, will effect a cure. To test the matter, Mr. S. Y. Bullis, one of our enterprising townsmen, shipped a number a month ago—seven of which he knew had heaves or rupture of the cells of the lungs. A few days ago he received word from his son that three of them appeared perfectly sound and the other four were better. Mr. Bullis intends soon to make his sixth trip out there, his former visits have made him enthusiastic over that country.

The editor of the Kemptville Advance must have been "twisted" last week when he penned the following local of "warning": "It may be a warning to readers to relate that when Mr. Morley Holmes, of Athens, was proceeding his lane to the field with a reaper, he was driving a herd of cows before him and unwittingly followed them too closely; so much so that Del Dobbs, a beautiful Holstein, was caught in the knives and a semi-excision of the cords of the hind legs resulted. Though improving under the treatment of Dr. Peat she is having a sore time of it." Who ever heard of Del Dobbs being a "beautiful Holstein"? For the information of that benighted editor we may say that Mr. Del Dobbs is an industrious citizen of Athens, and has been for years. It was a cow belonging to Mr. Dobbs that was hurt, not "Del Dobbs, a beautiful Holstein."

The following jocular local appeared in a recent issue of the Brockville Recorder:—"A good one is going the rounds of a well known barrister who is summering at Butternut Bay. Complaints were recently made of cottagers losing their wood, but the secret was let out Saturday morning. The barrister referred to came down on the early morning boat, accompanied by his bag, which he laid aside, while he turned to converse with his summer neighbors. A number of others seeing it would be a chance to work the joke on "Bill" secured three or four sticks of wood from the boat and these they placed in the bag, which contained some linen which the owner intended having 'done up.' Upon the arrival of the boat here he unconsciously picked up the bag and walking up street deposited it on a local dry goods store counter, and there the joke was out in earnest. The lawyer, however, took it in good part and is enjoying the occurrences with the rest of the boys." The above named "Bill" must be Mr. W. A. Lewis, formerly of Athens, but now of the county town.

Dr. Hugo's Health Tablets for

Women

Make Healthy Women.

If you feel tired, nervous and irritable. If you have headache, cold feet, indigestion, constipation and dragging-down pains.

If you have any menstruation or other disorder peculiar to your sex.

If from any cause you are in a run-down condition.

If sleep doesn't refresh you and work is a burden, you need Dr. Hugo's Health Tablets for Women, and you need them now.

Remember, all these things are not discomforts, they are indications of a serious cause.

Don't wait until they result in some chronic disease. Nip them in the bud.

Dr. Hugo's Health Tablets taken now will ward off much pain and suffering—will add years to your life and put new life into the years. They make healthy women.

But you must have faith enough to buy one box. Improvement in your health will be noticed the first week.

BY ROYAL WARRANT, MILLERS TO H.R.H. THE PRINCE OF WALES

What Flour Granulation Means in Bread-Making

Flour is composed of myriads of tiny granules.

To make good bread these granules must be uniform in size.

In poorly milled flour some granules are large, some small.

The small ones absorb yeast, "rise" and "ripen" before the large ones—the result is bread of coarse, poor texture.

The large granules are not developed into "sponge," they bake into heavy hard particles, spoil the texture of the bread and make it harder to digest.

ROYAL HOUSEHOLD FLOUR is perfectly milled—all the flour granules are uniform in size—the sponge rises uniformly—the bread is even in texture—perfect in flavor—good-looking, appetising bread—easily digested.

Ogilvie's back it with their reputation by branding it

Ogilvie's Royal Household Flour.

Mr. G. M. Pierce, who has conducted the Gamble House, here, for the past two years, with much credit to himself, will we understand, retire from the hotel business at the expiration of his lease. Mr. Pierce intends to go to the West this fall if he can get everything ready in time. While we regret to lose Mr. Pierce and family from our midst, yet we join in the wish that they may have much success in that western country. Just who will take charge of the hotel when Mr. Pierce retires is not known definitely, but it is said his father, Mr. Fred Pierce will be mine host.

WHAT PEOPLE SAY

That summer will soon be over.

That Athens this year has had more visitors than for many years.

That the Canadian farmer is the most independent man in the world today.

That Charleston lake visitors have been numerous, and all have spent an excellent time.

That the party from Pittsburg has a fine outing—as everyone does who go to Charleston lake.

That all are eager to welcome the students back to Athens High School—the more the merrier.

That the sidewalks in places need a little repairing, otherwise—a bill of damages may be the result.

The Athens H.S. made an excellent showing at the recent exams. We doff our hat to the principal and staff.

That the picnics and garden parties in this section had excellent success, benefiting different institutions very much.

That the "Old Apple Tree" seems to be able to withstand the vocal assaults made upon it. May its "shade" never grow less.

That the recent deaths of a number of old residents in Athens and vicinity is gradually reducing the already small number of pioneers.

That Principal Massey wears a "smile that won't come off" these days—as a result of the high standing of the High School students on the recent exams.
