### NEWBORO

There never was a time in the history of Newboro Lake fishing that such large catches of fish were reported. Last week, on two occasions, anglers brought in over 100 lbs. of salmon trout, a single one of which weighed 26 lbs. Another party brought in 47 bass in one day's catch. A New York lady landed a salmon which weighed close to 20 lbs.

### TEMPERANCE LAKE

Mr. Ezra Earl is adding a fine large woodhouse and kitchen to the T. S. Earl homestead. Within six rods of the house is a good boat landing in a dense willow grove, on Temperance Lake. In the rear, across the narrow bay, a little further on from the landing, massive granite and limestone rocks arise into hills with intervening little groves and clumps of pine, interspersed with a variety of other foliage, while the great bleak stern ledges in the southeast, in their desolation, conceal blue berries behind moss and ivy covered rocks. All in all, the view presented is pleasing and picturesque. The front has a lawn-like look, enclosing a pleasant and comfortable home.

All the homes along Temperance Lake are made much pleasanter by the lake view with its islands.

The stone crusher did good work on the Oliver Hayes farm.

### GLEN BUELL

Miss Orton is enjoying her summer vacation with Miss Moorehouse.

The Banker and his friend recently made a trip to North Augusta in his private carriage and had the pleasure of listening to the celebrated revivalist. He came back to the Glen, a stronger and better apostle of finance.

One of the remarkable scenes recently discovered was that of the local postmaster shooting potato bugs at short range with a tin gun. We think, however, that he did not make a success of it, as Uncle Charley had to get after them with his old time sprinkler.

The question of cheese making on Saturday night and Sunday morning has been a live question. The patrons having a large delivery of milk are anxious to get it off their hands and plead no harm, while others having respect for the fourth commandment say that the milk should remain at home unless it can be worked up before twelve o'clock Saturday p.m.

At Glen Buell church on Sunday a memorial service was held for the Thompsons, who were murdered near New Dublin about 48 years ago, when the C.P.R. was being constructed across the Township of Elizabethtown. The Rev. James Evans of Pennsylvania was in charge of the services and gave an interesting discourse on the origin of the Hebrew nation, from the call of Abraham to the death and resurrection of Christ. There were seventy five friends and relatives in attendance from outside points. The friends of Glen Buell were greatly pleased with the blind preacher's sermon.

### FOR THE BLIND

In making his annual appeal to the readers of Ontario newspapers for information which will enable him to locate the children and youths of both sexes who are eligible for admission as pupils of the School for the Blind at Brantford, Principal Gardiner asks The Reporter to call public attention to the need for some institution where the adult blind may be instructed and employed. General experience has demonstrated the inadvisability of combining a workshop for adults with a school for children under one management, yet the blind adults, who far outnumber the children of school age, should be no longer neglected.

The first necessity is to get an accurate knowledge of the facts, and to this end Mr. Gardiner will gladly receive information relating to the blind residents of Ontario of all ages (names and post-office addresses). Those under twenty-one years of age, not deficient in intellect, and free from disease and physical infirmity, who are blind, or whose sight is so defective that they are unable to read ordinary type and attend a school for the seeing without serious injury to the sight, should attend the school at Brantford, which is maintained by the Provincial government for their benefit. A letter or post card, addressed to the Principal, will receive immediate attention.

## REMARKABLE INVENTION FOR THE CULTURE OF HAIR

**THE EVANS VACUUM CAP** is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

**60 DAYS' FREE TRIAL!**  
The Company's Guarantee

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots) without resorting to any irritating process, the problem of hair growth would be solved. Later on when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

## FRIENDSHIP

# WHAT DOES IT COST YOU

A few days ago two farmers off the B. & W. were seen comparing each others suits.—The taller man said, "You were beat out of \$3.00. Why don't you try Semi-Ready?" The other replied that he was a personal friend of this other merchant and did not like to go past him.

His friendship cost him \$3.00.—You say he was an easy mark, and so he was and yet the bush is full of such people.

Reader, if you buy your clothes at any old price because of friendship, you pay too much—the price is too high for what you get.

**Price and Quality are Our Best Salesmen**

Style and fit we throw in gratis.

Sir, will you hold on to your friendship, but purchase your next suit from the man that offers you the best for your money? Will you? Will you make up your mind right now so that when you purchase again you will give your money where it belongs, not to the man that can smile the broadest (friendship), but to the man that puts up the best bid for your custom. Do it now.—If not, why not?
