"I lost courage and thought I would never regain my health."

"Three years of delicate health trying doctors' prescriptions and patent medicines" without benefit might well sap the courage of any woman. And yet Mrs. Bryant proved that the question of the cure of womanly disease is only a question of using the right remedy. A few doses of "Favorite Prescription" restored her courage and revived her hope, because she could see "a decided change from the first." Three

months' use of the medicine restored her to perfect health. Dr. Pierce's Favorite Prescription cures irregularity, dries weakening humors, heals inflammation and ulceration, and cures female weakness. Mrs. Sarah Bryant, President of Memphis Social Science Club, residing at 271 Atkinson Ave., Memphis, Tenn., writes: "I suffered with delicate health for three years, trying doctors' prescriptions and patent medicines until I lost courage and thought I would never regain my health; but a few doses of your 'Favorite Prescription' made me change my mind. Could see a decided change from the first, so I kept on taking it for three months faithfully and am now in perfect health."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N.Y.

YOUNG LADIES MARRIED WOMEN

Mrs. Jno. C. Huffman Speaks to you all.

She Tells of her Troubles and their Cure that you may be Benefited.

Napawee, Ont., Aug. 29.—(Special).—There are many women in Canada who will yet write letters of thanks to Mrs. Jno. C. Huffman of this place.

Mrs. Huffman suffered as they are suffering now. She discovered a case in 1895 of DODD'S KIDNEY PILLS and she is breaking the law of secrecy that binds the great majority of woman-kind to let her suffering sisters know where they may find relief. Mrs. Huffman says:

"I was troubled for about six years with Kidney Disease and the pain was so great I could hardly bear it. I could not entertain any company. One night when I was feeling very miserable I read of some wonderful cures by Dodd's Kidney Pills and by the time I had taken six boxes I was completely cured."

"I am making this statement to the public in the hope that it may help other young ladies or married women."

"Giving become a disease in time," remarked a West Philadelphia woman who had had some experience in very practical forms of charitable work. "It is delightful to most of us to be assured that someone or done much good. Indeed, it gives more satisfaction than many deeds acted out from the most purely selfish motives and will appeal to us after these more selfish pleasures cease to please. It takes a terrific hold on many people. Women who have been able to give liberally have continued after they had nothing of value, sending silly, worthless flattery that could not possibly be of use to anybody. But they have tasted the joy of conferring benefits, of receiving gratitude, and they simply can't deny themselves. Why, people have stolen that they might not have to give up the pleasure of bestowing gifts! Nothing can exceed the lengths to which this passion for giving will carry its victims."

The Robin and the Rat. One day while a gentleman of Port-hallow, St. Keverne, was walking past a farm in the neighborhood, he was attracted by a robin, which flew about him, flapped its wings in his face some two or three times, and appeared greatly excited and distressed. He watched the robin for some time, and followed it toward a hedge a short distance away. There he found a rat which had got into the bird's nest and was devouring one of the young birds. At the sight of the gentleman the rat jumped out and was promptly knocked senseless. When the robin saw the rat pecked him viciously. There were four young birds in the nest; one was killed, but the other three were unhurt.—St. James' Gazette.
