

That "Rich Fruity Flavor"

RESULT of expert blending of strong, rich Indian Tea with delicate, fragrant Ceylon Tea. That "rich fruity flavor" has made Red Rose Tea the table beverage of thousands of homes.

It distinguishes Red Rose Tea from all other teas.

It makes it different from and better than any other tea—it's a flavor you won't forget. It makes

No man ever thinks that a woman talks too much when she is saying things complimentary to him.

When a woman is selfish there is no limit to its extent.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

July isn't June, but it starts as if it had an idea that the marriage license clerk didn't need a vacation.

The small boy feels that it is impossible for him to wait until the Fourth of July.

Heat expands everything, even the fish stories.

Great men often appear greater when you see them about a thousand miles away.

To discover whether a philosopher is the real stuff or not try him on a cold dinner.

A clever girl can almost always be pretty, but a pretty girl cannot always be clever.

Half the things we know aren't true, and the other half we are apt to have some doubts about.

In the eyes of the law it is 9 until it is 10, and with some men it is 10:30 when they come home at 2 o'clock in the morning if their wives happen to be asleep.

A man could accomplish wonders if he could just do today half of the two days' work he intends to do tomorrow.

A superstition is something that another man believes in.

The Serious Fifth.

Let us gather up the fingers
Lying all around our way
As an aftermath that lingers
From the pleasures of the day.
Let us stick the ears and noses
Gently on with sealing wax
And prepare some soothing doses
That will cover up the tracks.

Let us fix the little faces
So that they will do to wear.
Put the eyeballs in their places.
Trim the singed and matted hair.
Let us, if we can, discover
Some retreat in which to wait
Quietly till we recover
From the day we celebrate.

It is sport intense, exciting,
If you don't care what you say,
To get noisy tools of fighting
And to celebrate the day.
It's a horse of different breeding
To recover from the breeding
With your fingers singed and bleeding
And your whiskers in a sling.

Beyond His Imagination.
"He swallows every story that comes along."

"You are mistaken. I told him about a building thirty-seven stories high, and he couldn't swallow the last seven stories."

Under Suspicion.

Mary had a little lamb,
Snow white was its hide,
And everywhere that Mary went
Folks whispered "Peroxide!"

Didn't Run Uphill.
"I thought you told me the well on that farm you sold me never ran dry."

"It doesn't either. You have to pump it before it goes dry, and I'll leave it to yourself if it isn't hard work."

Precocious.
"He is only six years old, and yet he believes in the big stick policy."

"Remarkable!"
"Well, it is the big stick of candy that he howls for."

Two of a Kind.
Their judgment surely is amiss
Or slightly on the bias
Who call the bribed official bad
And think the briber pious.

A Speed Record.
"He ran through his money in one year."

"How did he do it?"
"With an automobile."

Couldn't Beat It.
"Thursday was his lucky day."

"Did he pick the winning horse?"
"No; he missed the train for the race track."

Needs It In His Business.
To round our lives out strong and full
Some boosting friends we need.
A dentist needs must have a pull
Or else he can't succeed.

A Man's Reason.
"What does he want to marry her for?"

"Just because she won't have him."

One Kind.

"We had a swell dinner today."
"Dried apples and water?"

Long and Short of It.
"Consider the long distance telephone," mused the professor, counting his change to see if he had enough left to pay his fare homeward. "How quickly it makes you short!"

Where does your Heat go to?

Every sick of wood, every piece of coal contains a certain number of heat units, according to the size and quality of the stick or chunk.

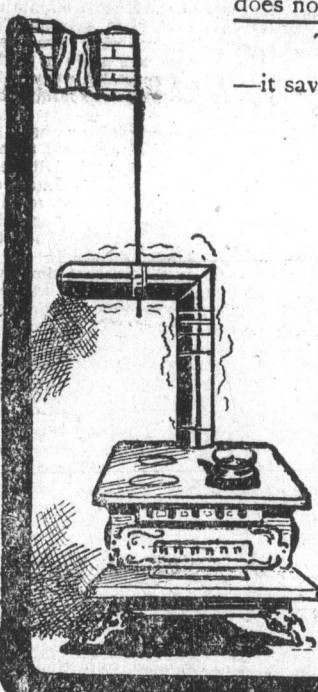

Now some ranges let these heat units escape up the chimney. Heat units which go up the chimney do not heat the oven or the frying-pan. They are wasted. Every heat unit that is wasted is money lost, money burnt. The science of range building is the successful utilization of all the heat units.

The Pandora Range is the only range that utilizes all the heat units and sends none up the chimney.

You can't put your hand over the chimney when some ranges are in use, because so much heat goes up the chimney. Your hand would be burned. That is heat wasted, money wasted, time wasted, because it takes so much longer to do your work when a large part of your heat is lost.

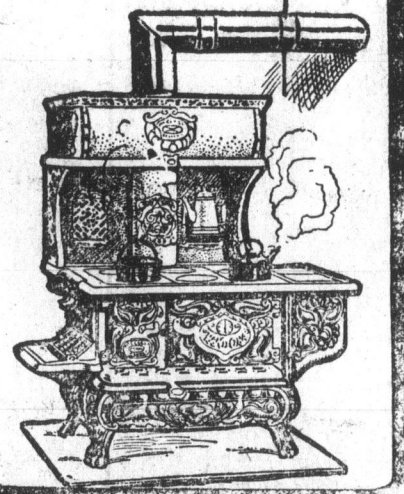

The Pandora Range is built to keep all the heat units in the range—keeps them there till the heat is exhausted—it is the only range that does not waste heat. It uses all the heat there is in the coal or wood.

That's the kind of range you want in your kitchen—it is economical—it saves coal, wood, money, time. It makes kitchen work easy.

TAKE MY CURE, WHEN CURED YOU PAY ME

The fear that you could not be cured may have deterred you from taking honest treatment, or you may have been one of the unfortunates who have been treated in vain by inexperienced physicians. Free treatments, free trial samples, patent medicines, electric belts and other similar devices. Such treatments cannot and will never cure you. When I offer you a cure, and am willing to risk my professional reputation in curing you, and have such faith and confidence in my continued success in treating these diseases that not a dollar need be paid until you are cured, a fair proposition should be offered to the sick and afflicted. This should convince the skeptical. I mean what I say, and do exactly as I advertise, as I am positive of curing you in the shortest possible time, without injurious after-effects. My charges will be as low as possible, for conscientious, skillful and successful services, and my guarantee is simple and true. Not a dollar need be paid until cured. I have 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee of my standing and abilities. It makes no difference who has failed to cure you, it will be to your advantage to write to me for my opinion of your case, which I give you free of charge. I want to hear from patients who have been unable to get cured, as I guarantee a positive cure for all chronic, nervous, blood and skin diseases, which I accept for treatment. I not only cure the condition itself, but I likewise cure the complications, such as rheumatism, kidney and bladder troubles, blood poison, physical and nervous debility, lack of vitality, stomach troubles, etc. All medicines for patients are prepared in my own laboratory, the requirements of each individual case. All medicines for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. I will send a booklet on the subject which contains the 14 diplomas and certificates, entirely free. Address simply, Dr. S. Spinney, 290 Woodward Ave., Suite 311, Detroit, Mich.
