TRI-WEEKLY CIRCULATION Sep. 14th, 1889.

Tuesday,... Thursday,... Saturday,... Average,

"To discontinue an advertisement," says John Wanamaker, Philadelphia's great merchant, "is like taking down your sign. If you want to do business you must let the Public know it, Standing advertisements when changed frequently are better and cheaper than reading notices. They look more substantial and business like and inspire confidence. I would as soon think of doing business without clerks as without advertising."

The Gleaner. JAS. H. CROCKET, - - - EDITOR AND PROPRIETOR

the necessity for ample ventilation in the case of cattle whose lungs are larger than ours and who consequently require a greater supply of fresh and pure air.

Many horses and cows are kept pent up in small, miserably lighted and worse ventilated stalls, where if their owners

Inental Press,

PARIS, Sept. 24. Counting the destroy-ed voting papers the Boulangists polled 300,000 votes in the Seine district, against their opponents' 226,000, but the republican vote shows an increase of 97,066.

The Temps any s political shades of the new chamber will be much the same as those of the old.

Liberte says the chamber will not undergo a change of balance of parties wentilated stalls, where if their owners had to remain themselves for a tew hours they would speedily see the necessity for a change. Many a man will up all day, and will sleep only in a large

was and greatly to the comfort and the health of the poor brutes committed to our care.

THE QUEBEC AVALANCHE.

The excitement caused throughout the Dominion by the terrible landslide at Quebec has about abated but the outlook at the scene of the accident, "I with my harband was away time occur. It addition to which forms the foundation of Dufferin Terrace and that a second avalanche may at any time occur. It addition to the loss of life which a second accident might occasion, the loss to the city of Quebec would be very heavy if anything should happen to the magnificent terrace. The terrace is said to be the finest promenade in the world and happen to the magnificent terrace. The terrace is said to be the finest promenade in the world and happen to the magnificent terrace. The terrace is said to be the finest promenade in the world and happen to the magnificent terrace. The terrace is said to be the finest promenade in the world and has brought since its erection, many visitors to Quebec. Experts are now at work examining the base of the attracture, and a looking around I saw two tail Indians.

"Well one day when baby and the world and the world and the world and the world and the tribule of the motion will be horough and that even though the seaturing the door. My heart stood still, sould hardly keep from screaming aloud, but fortunately! did not, and in the world and the world and any unwelcome visitors stalked to the fire and very deliberately proceeded to some bottle warm thermselves.

ARTINGTON HINTS AT VICTORY.

In a recent speech, Lord Hartington, a greatest of the liberals who deserted Gladstone, hinted that the Home errs would yet be successful and that bottle are would yet be successful and that bottle would be a strictly and the content of the many three contents are contented with the content of the many three contents and the content of the many three contents are contented to the content of the many three contents are contented to the content of the many three contents are contented to the conten

it will have to be condemned. It is to be hoped that inspection will be thorough and that even though the beautiful terrace has to be sacrificed not the slightest chance will be left for a second catastrophe.

HARTINGTON HINTS AT VICTORY. In a recent speech, Lord Hartington, the greatest of the liberals who deserted Mr. Gladstone, hinted that the Home Rulers would yet be successful and that the next general election might see them witness victory. He protested against a single popular vote settling the great question and instanced the United States as a nation which would demand a two-thirds vote in congress and a three-fourths vote in the senate before such a change could be permitted. Speaking of America in this connection he said:—

That example, I sav. justifies us and inverse. That example, I sav. justifies us and inverse.

That example, I sav. justifies us and inverse in the such as a such will be read and very deliberately proceeded to warm themselves.

"Presently one of them turned around and pointed to some bottles which, as my cupboard was small, I had hung on pegs driven into the logs of which our cabin was built. Two of these were black quart bottles; one of them held whiskey and the other pepper sauce. Of course I knew the indians wanted whisky, and as I was afraid to refuse and my hands were in the dough I nodded affirmatively.

"Muttering something I could not understand, one walked across the room and taking down the nearest bottle raised it to his mouth and swallowed a portion of its contents. Straightway he began to cough and choke, and half frightened out of my senses I saw he had the wrong bottle in his hand. Shaking the sticky mass of dough from my fingers I started to ward him; but with a loud 'Ugh, heap strong!' while the water filled his eyes, he shook his head at me and handed the bottle to his companion, who had turned from the fire and was watching the proceedings with much interest.

"Grasping unveloome visitors stalked to the found and pointed to some bottles twich, as my cupboard w

change could be permitted. Speaking of America in this connection he said:

That example, I say, justifies us and compels us, if ever we should unhappily find ourselves in the position of a minority defending our constitution, to use every resource and every effort in or out of parliament to prevent changes so wide and sweeping being made in the face of a strong and powerful minority whose opinions deserve respect. I do not suppose for a moment that if an adverse vote were ever by some chance returned against us that the contest would then be over. We think that the difficulties of our opponents would be only beginning. When they had got together in parliament a majority nominally pledged to the principles of Home Rule, it would be our duty to raise every difficulty to the passing of such a measure. It would be our duty to raise every difficulty to the passing of such a measure, and to be afraid to use every resource which parliamentary or extra-parliamentary efforts might give to us to prevent so great a change being find the reconsideration by the country of such a measure, and to be afraid to use every resource which parliamentary or extra-parliamentary efforts might give to us to prevent so great a change being and in the proceedings with much interest. "Grasping the bottle eagerly the others lading took a huge swallow, and then such a sule as sule as such as the proceedings with much interest. "Grasping the bottle eagerly the others lading took a huge swallow, and then such as sule as sule as such as the solute and then such as transping the bottle eagerly the other ladian took a huge swallow, and then such as sule as sule as such as the proceedings with much others all was a bottle and then such as transping and sputtering you never saw. Bending almost double while the saliva poured from his mouth, and tears from his eyes, a faul all the time the first Indian vasi from the first Indian vasi from the first Indian took it, smelled of it, nodding understandingly, and then passed it to the other bottle down, duty to compel the consideration and the reconsideration by the country of such a measure, and to be afraid to use every resource which parliamentary or extra-parliamentary efforts might give to us to prevent so great a change being hastly or hurriedly made.

Same not, neap not, no more cold in dian inside! ugh! and followed in the footsteps of the other fellow.

"I stood in the door and watched them as they plodded along in single file through the deep snow, the rear one stopping occasionally to laugh and look back and shake his head grimly.

"In spite of their evident enjoyment I was a little afraid. I knew how revengeful Indians are and I thought would come back and they would come back and this place but those who were stricken.

The Potato Crop -Personal Notes.

Magundy, Sept. 25. The long-looked for rain has come at last and, though it did not continue very long; it has very effectively quenched the forest fires which had been raging for some time. The wild meadows were so that in many cases the owners with as many teams as they could collect turned out and hauled their hay to safer places.

That dread disease—cholerab as visited this place but those who were stricken.

10

A TREMENDOUS PLATFORM. Adopted by the Massachusetts States Republican Convention.

Bosron, Sept. 25. The State Convention of the republican party met to-day, being one of the largest and most interesting ever held. It adopted a platform favoring extinguishment of national debt by purchase of bonds; a vigorous foreign policy; rigid civil service reform; sound currency; cessation of silver coinage; reduction of surplus; equitable revision of tariff; maintenance of protection, but its readjustment to meet changed business condition in New England and elsewhere; national law to protect voters and ballots; liberal pension policy; aid to steamship lines. building up of navy; national and state aid to education; perpetual hostility to saloon power; defence and support of public schools. The convention has nominated Lieut-Gov. John G. A. Brackett for governor on the first ballot.

A SAD STORY.

THURSDAY, SEPTEMBER 26. 1889.

PROPER VENTILATION.

We have several times spoken of the necessity of citizens taking every precaution to keep their premises as clean as possible, both for sanitary and other reasons. If anyone will take a look about the city he will find that in point of cleanliness and neatness the houses and their premises compare most favorably with those of most other cities. There is a matter however to which we have not directed attention—it is the

PERTH CENTRE. VICTORIA CO.

PERTH CENTRE, Sept. 23rd.—Mr.
Thomas M. Brewer has built a boot and
shoe shop across the street from his
residence, which adds greatly to the appearance of the place.
Mr. Nimrod Demerchant has rented
the Victoria Hotel, and will continue to
run the business. the Victoria Hotel, and will continue to run the business.

The heavy rains have caused the river to swell up, so it will make glad the hearts of the lumbermen.

Perth Centre is a fine site for some enterprising tanner. The tacilities for carrying on a good tanning business, are such that not many places can boast of. It is the centre of the province, a fine country all around and railroads leading to all points—fast daily mail, and stage connections. Who will be the first to start a tannery in Perth Centre?

Harvesting is all done, and farmers are now fast preparing for the anticipated hard winter.

HARVEY STATION. off For Manitoba-Shooting Season-The Woolen Mills-Matrimonial-Personal. off For Manitoba-Shooting Season—The Woolen Mills—Martimontal—Personal.

Harvey Station; Sept. 24. Yesterday, Mr. William Craig took the C. P. train for a trip to Manitoba. His son Henry, who has been in that province for the past eighteen months' is doing well and the report is current that Mr. Craig, if he can find a suitable farm, will remain. He is one of our most respected people and it would be a loss to this community if he and his family should remove.

It is also rumoured that Mr. James Coburn has lately purchased a farm near St. Stephen, and intends removing there in a short time.

The shooting season has commenced but the partridges are not very plentiful. To make up for it, the lakes are swarming with ducks.

Only a few days till councillors election, and yet there is no hum of approaching contest.

On account of the very low water, Mr. Taylor had to shut down his factory. This factory would be a very good investment for some young man, as the will is in the heat sharpe.

vestment for some young man, as the mill is in the best shape, and always has a good supply of water, with the exception of this unusually dry season. It is situated near the railway and in the midst of a fine farming and sheep raising country. Mr. Taylor would, no doubt, sell as he is getting on in years, and has not the time necessary to look after the mill.

Natalie—Oh, Mr. Decourcy, I am tired of this frivolous life! How fatiguing to sit and hold one's hands all day.

Ought to Be Cheaper.

Guest at Eatinghouse (grumblingly)—Bring me some reed birds. Seems to me fifty cents is a thundering price for them, though. Waiter—Yes, sah. Reed birds is expensive. They are hard to get, sah, and we have to bring 'am a long distance. (Rehind the screen)

HIT BY A PITCHED BALL.

A Statan Island Base Ball Player Bies of Concussion of the Brain.

New York, Sept 22—Thomas J Godfrey died late Saturday night in the club house of the Statan Island Athletic Club at West Brighton. On Saturday afternoon he took part in a game of base ball played on the grounds of the club, and while at the bat he was struck on the head by a pitched ball. The blow knocked him down. Dr. William C Walser, who is a member of the club, assisted him to the clubhouse, where soon afterhe became unconscious. He did not rally. Concussion of the brain was the cause of death. He was 28 years oid and was unmarried.

Defract exertions are being made to get him out, and it is expected they will be successful.

The corpse of Mrs. Dowd, aged 72, was also recovered during the morning. She was knitting when the avalanche came and her knitting was found in her hands. This afternoon the remains of John Henry were found under the ruins. The body was doubled in two. Splinters of all sizes were stuck in his body. The shoulders were broken in and the lower part of the back torn open and the kidneys were hanging out. His wife's body was also found. They were but a few feet apart. She had in her hand pieces of broken plates and a fork. She died preparing her husband's supper.

It is probable that the work of excavation will be persevered in for some days longer in hope that all the missing bodies may be recovered, but if the city enginer's report be adopted, the remaining debris will not be arrounded but A JACK OF ALL TRADES.

bodies may be recovered, but if the city engineer's report be adopted, the remaining debris will not be removed, but will be left as a natural buttress against the rock, and the remaining bodies will be allowed to stay in their present position. A monument will be placed over them, and a new road opened 100 feet nearer the river. When Asked to Act as Nurse.

I once knew a young man who was coachman, footman, butler and several other things just as the situation demanded. I was very well acquainted with him, and I hope I will not be accused of trying to lug it in if I say that we were in college together. After graduating in the classical ocurse and going through the law department with honor, he struck on a first rate position as general assistant in the family of a gentleman in reduced circumstances, but still proud. My friend's name was William Ellery Perkins. After he had driven the porbut haughty family in the park, he would put the horses in the barn, give them a feed of oats and a little baled hav, and then remaining bodies will be allowed to stay in their present position. A monument will be placed over them, and a new road opened 100 feet nearer the river.

The coroner's official list of victims of the recent land slide places the total at 47, made up as follows: Found dead, 33; died at hospital, 2; missing, 12.

QUEBEC, Sept. 25.—Two little girls daughters of Michael Bradley, who lost his whole family in the landslide, were found late last night close to each other. They were not much bruised and must have died of suffocation.

Joe Kemp, 74 years of age, who was found vesterday after heaving hear 108

situated near the railway and in the midst of a fine farming and sheep raising country. Mr. Taylor would, no doubt, sell as he is getting on in years, and has not the time necessary to look after the mill.

The little mill at the lake has closed for the season, having sawn all of the logs. This has been quite a convenience to the people and it is hoped that it may be run next year.

Mr. Jos. Robinson, Sec. Oak Grange, has lad in a very large and varied stock of parlor stoves from the firm of facett Bros. He sells them at a very small advance on cost.

Miss Maud Glendenning, music teacher at Marysville, who has been spending her vacation here with her parents, has returned to her duties.

The many friends of Andrew Coburn, ir., will be sorry to learn of his severe illness, but hopes are entertained of his recovery as he now abows marked signs of improvement. He is one of our mechants, when asked his opinion of a certain sermon, said:—"It was oor lood" (over loud)

Our little town was excited a few discost and lace cap and wheal the bots of the season have been spending of the barry down, and would have to run out and hit him two or three whacks with an old wooden pump handle which he kept for the purpose, to make him stop, But the disn't ment of the whalf will also do all that is possible to calm wheal the bottle which he kept for the purpose, to make him stop, But the disn't ment of the condition of the cliff. At Mill River or Howlan Road the pest office, kept by Florence Peters, was destroyed, with all the postal effects. At lot 8 several barns were burned. No Doctor For Miss McKee Until It Was Too Late to Save Her Life.

No Dector For Miss McKee Until It Was Too Late to Save Her Life.

Waterrown, Sept. 24. Anna McKee, one of the prettiest young ladies of Cape Vincent, was employed as dressmaker in Redpathra establishment in New York. A few weeks ago she came up from New York to visit friends. While in Cape Vincent she stopped at the residence of Emma Ingalls, a spinster, who thinks she has been cured of innumerable ills through the medium of one Mrs. A. J. McConnell, who is chief among a small band of Christian Scientists.

A tew days ago Miss McKee was taken ill with gastritis. Mrs. McConnell and Miss Ingalls took full charge of her case. They did not send for a physician, but told the girl that God would be angry with her if she distrusted Him to that extent. They advised her that if she kept right on trusting and praying she would get well. Miss McKee did not believe in Christian Science, but she was powerless. When at last she lay in the most terrible agony the only comfort or help she got was an exhortation to be faithful and pray.

Three days before Miss McKee's death Miss Libbie Iselin and Mrs. E. Stala heard how ill she was, and went to the house. They were denied admittance by Miss Ingalls, but pushed the spinster aside and reached the sick girl's bedside. They sent for Dr. Masson, but when the physician arrived he was unable to do anything to save the girl's life. Miss McKee died next day. The physician believes that if he had been called in time he could have saved her life. The people of the town are very indignant over the affair.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the nistory of medicine. Since it's first disjusted in the words Green Head Lime.

This is beyond question the most successful Cough Medicine we have ever each will consist of Gold and Silver Medals.
