**CARLETON CO. CENSUS RETURNS.**  
It is sincerely to be hoped that the returns which are printed in the St. John Sun this morning regarding the population of Carleton county are incorrect. Carleton county is the banner agricultural county in the province and there is an air of life and prosperity about it, sometimes unfortunately lacking elsewhere in the province. If therefore the population of Carleton county has actually decreased in the last decade what are we to expect elsewhere? If these things be done in the green tree what shall be done in the dry? The figures which we quote below are said to be nearly correct, although not official; and it is possible that the error, if error there be, may be in the direction of underestimating the population of the county. If they are correct it seems hardly likely that the Province will show much of a general increase.

**TO SETTLE STRIKES.**  
The N. Y. Evening Post says some persons in Boston who are eager to abolish strikes have worked out a plan for the establishment of courts, authorized by law, to hear all the parties to industrial disputes, to decide what shall be a fair minimum wage and a fair maximum work day for a reasonable time in the future, and to enforce such decisions by appropriate penalties. These courts are not to be authorized to order employees to work, or to order capitalists to carry on business. The scheme is an interesting one; probably it might be practicable and useful.

The need of the moment, however, is not more machinery for the settlement of labor quarrels, but a different spirit on both sides. Official boards of arbitration exist in many states, and when such boards are lacking, special committees of adjudication can always be formed by the disputants. The real trouble is that ignorance, dishonesty and hatred make arbitration impossible. The capitalist is prone to be harsh and overbearing; the workman intrusts his case to a walking delegate who is a combination of fool and villain. While such conditions continue, a thousand courts will be useless. The crying want is sweetness and light—sweetness for the capitalist, light for the laborer.

The War Office commission recommends a number of changes in the system, largely in the way of decentralization of power and the abolition of minor regulations that cause work and occupy time without securing proportionate good in the service. It would seem, from the brief cabled report of the commission's findings, that the institution itself is to remain much as it is; which is probably well. As the Montreal Gazette points out, there are 250,000 men in the army in South Africa, four-fifths of whom were sent from Great Britain. No war department in the world ever sent such a force such a distance from home and maintained it in the field for such a length of time, clothed, equipped and fed, as have been the soldiers in the Boer war. The War Office would hardly be British if it did not have some poor timber in its make-up; but it is British also in its ability to design a great work and in its energy to carry it out.

The Church Endowment Society of New York is drawing attention to a new form of benevolence—insuring one's self for the benefit of one's church. It is argued that it is in this way possible to raise large sums, a man who would be unwilling to give, say \$100,000, at once being quite willing to pay the annual premium on that amount. The comment of an exchange is, that the idea is certainly an attractive one for those who want the money.

**BRITISH RACE COURSE.**  
Much Comment on the Result of the Derby and Oaks.

LONDON, June 8.—London is still talking of the Derby and the Oaks. The discussion of the relative merits of American and British methods of training and riding has broken out anew. The Sporting Times says: The Derby has been won by a French and an American horse, but never until Wednesday was it won by a horse that had other than an English jockey in the saddle. Whatever our horses might be the supremacy of our jockey was deemed complete. But that fallacy is now exploded. This year two records were broken: viz.—a victory for a jockey who was not a subject of the King, and the running of the race in the fastest time on record.

The United States Minister to Submit Proposition

To the Powers That the Indemnity Question

Be Submitted to the Hague Tribunal for Arbitration.

WASHINGTON, June 8.—The United States government has appealed again to the Powers to submit the present issues at Peking over the indemnity question to the arbitration of the Hague Tribunal. Mr. Rockhill, who has been watching for an opening, called Secretary Hay last night for permission to make a proposition, and the secretary this morning cabled him authority to do so. It is believed that the ministers at Peking have become involved beyond extrication on the present issues and this proposition may be the only way out.

**The Courts Return.**

SHANGHAI, June 8.—An edict issued June 6 announces that owing to the hot weather and the advanced age of the Dowager Empress the return of the court to Peking has been postponed until the 1st of September, which the astrologers pronounce to be a lucky day on which to commence a journey.

**A MIGHTY BANK.**

Financier Morgan Said to be Promoting a Great Undertaking in Britain.

NEW YORK, June 8.—According to the London correspondent of the World, it is reported there that J. Peirport Morgan is engaged in arranging for the establishment of a great Anglo-American bank, with a capital of \$1,000,000,000. Mr. Morgan is understood to have associated with him in the stupendous undertaking not only the principal capitalists who aided in the organization of the U. S. steel corporation, but also the Rothschilds.

**CARNEGIE'S GIFT.**

\$10,000,000 in Five Per Cent. Steel Trust Bonds—He Signs the Deed Transferring These to Trustees for Universities of Scotland.

LONDON, June 7.—Andrew Carnegie signed a deed to-day transferring \$10,000,000 in five per cent. steel trust bonds to trustees for the benefit of the universities of Scotland. The amount becomes immediately available. The next instalment of interest can be used for the October term. The trustees are the Earl of Elgin and Rosebery, Lords Balfour of Burleigh (chief secretary for Scotland); Kelvin, Reay and Kinnear, Sir Henry Campbell-Bannerman, A. J. Balfour, James Bryce, John Morley, Sir Robert Pullar, Sir Henry Roscoe, Thomas Shaw, M. P., Richard B. Haldane, M. P., the Lords Provost of Edinburgh and Glasgow, the Provost of Dumfries and one trustee from each Scottish university. The deed contains a preamble saying that Mr. Carnegie, having retired from active business, deems it to be his duty and one of his highest privileges to administer the wealth which has come to him as a trustee in behalf of others, entertaining the confident belief that one of the best means of discharging that trust is providing funds for improving and extending the opportunities for scientific research of the universities of Scotland, his native land, and by rendering the attendance easier.

Some boys this forenoon set fire to a small pile of brush in Mr. Frank McCausland's yard, Northumberland street, and then sent in an alarm of fire, uselessly turning out the fire department.
